

trial and censure of such: and that the Church is not responsible for the errors of individuals, whether they are members of this Church or otherwise.

This was met by a series of resolutions which the Rev. Dr. Tyng offered, but which we do not copy, as they were subsequently withdrawn by the mover. It was not till Wednesday 7 o'clock p. m. that a decision was obtained. Judge Chambers' substitute was negatived upon a division by orders. The question then was taken upon the substitute offered by Dr. Hawks, and the decision was in the negative likewise. Mr. Young withdrew the amendment offered by him. It was then moved by Mr. Williams of Virginia to re-consider the vote which negatived the substitute offered by Judge Chambers. This being agreed to, the question was taken upon the first part of Judge Chambers' resolution, and it was adopted. The second part then was carried, and this protracted debate thereby brought to a close.

THE COLOURED RACE IN THE UNITED STATES.—We have at various times had the pain of making remarks upon the inconsistency of our republican neighbours in making distinctions on account of colour. It is now our much more gratifying duty to record a public act which corrects one of the most flagrant instances of the working of such distinctions. It is usual, in the large cities of the Free States, where the number of coloured children is great, to establish schools on purpose for them, thereby exhibiting the separation from the earliest youth, and in the matter on which the American feels as strongly perhaps as on any one: the right which his child has to the best education that the public money furnishes. But the School Committee of Salem, in Massachusetts, have recently discontinued the school for coloured children, assigning as one of their reasons for doing so, the following: "That under the constitution and laws of the Commonwealth, it is not competent for the School Committee to exclude from any public school, any child in all other respects entitled to admission therein, solely on the ground that such child is a person of colour."

In explanation and vindication of the opinion thus expressed, the Committee append an elaborate opinion given by the Hon. Richard Fletcher, from which, with unspeakable pleasure, we extract the following, so creditable to the legislation of Massachusetts: "Neither the constitution nor laws of this Commonwealth make any distinction between a coloured person and a white person. A coloured man is a free citizen, with the same rights, privileges, and duties, as any other man, so far as the constitution and laws of this Commonwealth are concerned. He pays his share of the expenses, and is entitled to vote and act as any other citizen. The children of coloured parents are, therefore, entitled to the benefit of the free schools, equally with others. It may be said that the free school, provided exclusively for coloured children, is equally advantageous to them. I think it would be easy to show that this is not the case. But suppose it were so, it would in no way affect the decision of the question. The coloured children are lawfully entitled to the benefits of the free schools, and are not bound to accept an equivalent."

It now remains only to be seen whether popular feeling will not frustrate the truly equitable spirit of the legislation thus exhibited; and we will entertain the most cheering hopes. (Will the Editor of the Boston Common School Journal allow the Editor of the Berean to signify to him the high value which he, as a practical school-man, puts upon the Journal?)

QUEBEC HIGH SCHOOL.—The Rev. E. J. Senkler, A. M. of the University of Cambridge, has been appointed Rector, in the place of the Rev. Dr. Wilkie, who retires.

TO CORRESPONDENTS: Received G S; W. W. W.;—C. Y.;—E. N. Aehl;—C. Ber;—C. S. Bstn;—E. A. with slips;—Beta treats as a novelty a practice which is known to us in this Diocese only as the continuance of what was introduced by parties long dead: we believe him to be a friend to the Berean, and we hope he will believe us to be endeavouring to act for the best, if we decline introducing a subject which would cause irritation, without any prospect of adequate benefit at present.

Political and Local Intelligence.

The Mail Steamer Unicorn arrived early yesterday morning, having waited about three days at Pictou for the Mail; the Atlantic Steamer having had a long passage in consequence of the rough weather which she encountered. The news is favourable, though not of particular importance. Her Majesty and Consort had been enjoying themselves at Blair Athol, and the visit had caused a marked improvement in her Majesty's health. She rendered herself, by her unassuming manners, a great favourite among the Highlanders.

COMMERCIAL MATTERS are still favourable. Canadian Flour and Wheat continue at about the same price as at the last accounts.

The Crops in England had all been well secured. The manufacturers were not quite as busy as before, still the demand for goods was satisfactory.

Mr. Clifton, Conservative, was elected member for North Lancashire on the 20th ult. in place of Lord Stanley, elevated to the House of Lords.

THE BANK OF ENGLAND declared a dividend, at their half yearly meeting on the 19th ult. of 3 1/2 per cent.

REPUDIATION.—A rumour was current that the Government intend to exclude from Court, and from Ministerial parties, all Foreign Ministers or Chargés d'Affaires, whose governments have not faithfully fulfilled their engagements with British creditors.

STEAM NAVY OF GREAT BRITAIN.—A return, by the House of Commons, to the end of June 1814, gives the following statement: number of vessels 30, tonnage 26,892, horse

power 11,261. Several Steam frigates are now building. IRELAND.—Mr. O'Connell since his release has remained very quiet. A great Repeal Banquet given to him took place at the Music-Hall, Dublin, on the 20th ult. at which nearly a thousand persons attended. The speaking was moderate in its tone. Mr. O'Connell at the departure of the Steamer, had retired to his estate. At the meeting of the Repeal Association on the 30th Sept. the rent was announced to be £349 18.

FRANCE.—The Duke de Glucksberg had arrived at Paris, with a treaty between France and Morocco. The provisions are that Abd-el-Kader be outlawed throughout the African possessions of the Emperor and of France, and that he may be pursued by the troops of both governments; if taken, to be treated with due respect: the French to evacuate Mogador; prisoners of war to be exchanged and a ratification of the treaty to take place within two months. The French King had received various addresses from English and American Societies for the Preservation of Peace, to which he had replied, stating his earnest desire for the peace of the world.

SPAIN.—Accounts from this country state that a movement on a large scale was intended by the Carlists of Navarre; that money and munitions of war had for some time been distributed there, and that several thousand men were in readiness. The Spanish Government had despatched reinforcements to Navarre with all possible expedition. The health of the young Queen Isabella is reported to be very bad.

TURKEY.—Stringent regulations have lately been made by the Porte in regard to allowing strangers to enter this country. They must now be provided with Ottoman passports or with the visé of an Ottoman Ambassador or Consul before they can enter Turkey, and must present themselves to the local authorities within 24 hours after arriving, or they will not be permitted to visit the interior. Many other precautions are to be observed; and the fear of Russian intrigues is said to be the cause of this new system.

INDIAN MAIL.—News from the East Indies had reached England, from Bombay to the 27th August, and from Calcutta to the 15th id. Sir H. Hardinge reached Calcutta on the 23rd July and was immediately sworn in to his high Office. He was to proceed almost immediately to Allahabad to inspect the different military stations, and was empowered to raise new regiments. The Punjab was in a state of anarchy and confusion, and fears are entertained that hostilities must be resorted to. Lord Ellenborough had arrived at Malta on the 25th Sept, on his return to Europe.

Sir H. Pottinger, the British Plenipotentiary in China, had also returned to England. Mr Davis is left in charge of the British station at Hong-Kong. A treaty had been concluded between the U. States and the Chinese Government, by which the former will enjoy the same commercial advantages as yielded to Great Britain.

SHIP INTELLIGENCE. The following letter, was received here on Saturday, by D. Fraser, Esq.;—mentioning the wreck of the ship Indian Chief, from Liverpool. Percé, 7th Oct., 1814. "An express has just arrived from my people at Griffin's Cove, reporting the Indian Chief ashore at Cape Rosier, high and dry, on the 5th instant, at 9 1/2 a. m. All hands saved. She has six feet water in her hold, and exposed as she is to the influence of the prevailing easterly gales, she must soon go to pieces." She had a full cargo for Montreal. The brig Acorn, from Oporto, also for Montreal, with a cargo of wines, &c., has put in at Paspebiac, leaky, as mentioned below:—"Paspebiac, 8th Oct. "The brig Acorn, of Leith, John Humphreys, master, from Oporto, for Montreal, having on board 46 pipes, 66 hhd. and 108 casks port wine, 2 pipes, 14 hhd. brandy, 4 pipes olive oil, 40 bags Corks, and 55 tons salt, consigned to Messrs. Buchanan & Harris, of that place, put in here on the 25 ult., in such a leaky state, and unmanageable through the melting of the salt, that it was found necessary to discharge her. The vessel has been put into the hands of Lloyd's Agent, and condemned by the survey as unfit for repair." The schooner reported ashore on White Island Reef, by Capt. Pyne, of the Dromair, proves to be the Gem, since arrived in port. She was got off by the throwing of eight or ten tons of coal overboard. Capt. Scurr, of the Lady Gordon, reports having spoken the brig Elizabeth, for Quebec, on the 4th Oct., in lat. 45, 12, long. 52, 5, out 14 days. On the same day, spoke the bark Tag, of Greenock, also from Quebec, in lat. 45, 11, long 53, 18, and the bark Bolivar, of Waterford. On the 5th, passed the bark Britannia, in lat. 46, long. 56, 40. On the 8th Oct. spoke the bark Lady Bagot, about 50 miles below Cape Gaspe. The Ship Catharine, Baird, hence for Belfast on the 12th inst. timber laden, was driven ashore at Port Neuf, on the night of the 15th inst., when the Captain, Mate, nine of the crew, and a passenger named Hughes, together with his son are reported to have perished.
