In Guebec it is not at all improbable that a Conservative member will be returned along with Mr. Aylwin. We hear, though we cannot youch for the fact, that Col. Gugy will be returned without opposition for the town of Sher-brook, and Mr. Brooks re elected for the county. In Beauharnois Mr. Weston and Mr. Connolly have both appeared on the opposition interest, but nothing is wanted but the nomination of an efficient Conservative to insure his success. Bytown will be contested by Mr. Scott, certainly one of the most respectable men of his party, but we home the constituent

Papineau will be returned, without opposition, for St. Maurice. Mr. Polette and Mr. Turcotte are both spoken of for Three Rivers. Mr. Gowan is perfectly safe in Leeds. Col. Prince will not be opposed. In a day of the or shell complete list.— In a day or two we shall complete a more complete list .--

Since writing the above we have learned that it is Mr. J. O. late member, the Hon. A. N. Morin, and Mr. Wainwright, on the part of the conservatives. There is yet no opposition to the Attorney-General in Missisquoi. Mr. Drummond has gone to Shefford, but without a chance of success, against Dr. Foster. Champlain and Yamaska are safe. Col. Gugy is sure of Sher-brooke town and without opposition. Mr. F. G. Johnson has good prospects in Drummond. Col. Taschereau is sure of Port Neuf The Hon. D. B. Viger will again receive the support of These Rivers. upport of Three Rivers.

Altogether there can be no doubt that Lower Canada will, this time, increase the Ministerial phalanx. The Canadians show every sign of shaking off the chains in which their leaders, who have n so thoroughly proved their incapacity, have so long bound them. It will be seen, from a letter from Col. de Hertel, of Argen-

teuil, that the report of his offering for his county is unfounded.

Cornwall.-Of the result of the election in this Borough we presume no party is in doubt. No one but a Conservative can represent Cornwall.

The Eastern district returns four members; and we think the Government will gain one. We now proceed to the ad-joining District of Ottawa. It sends two representatives to Parliament. Mr. Neil Stewart, for Prescott, and Capt. Petrie, for Russell. We believe there can be little doubt of the suc-

cess of both gentlemen. The Dalhousie District consists of Carleton and Bytown.-Captain Lyon's return for the former is beyond doubt or question; and although Mr. Stewart may not be permitted to come off Scott free in Bytown, still we have too much confidence in the

off Scott free in Bytown, still we have too much confidence in the good sense and discretion of the electors, to suppose that sectional interests, or local squabbles, will cause the representa-tive of the town to be lost to the Government. Electors of Bytown the Province will expect you to do your duty! The Bathurst District returns but one member, whose ex-treme bashfulness has earned for him, from all parties, the term of "modest Malcolm!" We believe that Col. Shaw, of Smith's Falls, could run the "modest" luminary of Port Sarnia, did he only consent to come forward, but Mr. Shaw is a man whose trade is not politics, and he prefers a plain country life amongst his neighbours, to the turmoils of legislation. Should Mr. Shaw not come forward, we believe it is the intention of T. M. Radenburst, Esq., to contest the county. Mr. Radenburst is

In a leading article on the University question, we have the following statement :---

"THE UNIVERSITY QUESTION .- As some of our readers may not precisely understand this subject, it may be proper to attempt a brief explanation. "A petition was forwarded by the Provincial Legislature to

George III., in the year 1797, 'to appropriate a certain portion of the waste lands of the Crown as a fund for the establishment and support of a respectable Grammar School in each District of Upper Canada; and also a College, or University, for the instruction of youth in the different branches of liberal know-

ledge.' "Accordingly, in the following year, 1798, 549,217 acres were granted by the Crown for those purposes."

Now let our readers bear in mind, that it is an undoubted Now let our readers bear in mind, that it is an uncoasted unquestioned fact, that the Crown granted the original Charter in favour of the Church of England; and it is equally certain that this was done in consequence of the exertions of the now Bishop of Toronto, who was publicly known to have gone home and bit the Legislature could interfere no further thanto petitor the Crown, then, in the exercise of its plenary power, granted these lands to a Council, which the Crown, by its Charter, made exclusively of the Church of Sugland.
bits influence that the Charter admitted students and professors not of that Church. or reinforcements; and in this way our gallant army would be exposed to the danger of being cut off in detail; or if, by their equalled bravery and provess every where exhibited during s war, they should repulse the enemy, their numbers stationed at any one post may be too small to pursue him. If the enemy be repulsed in one attack, he would have nothing to do but to be repulsed in one attack, he would have nothing to do but to retreat to his own side of the line, and, being in no fear of a pursuing army, may reinforce himself at leisure, for another attack on the same or some other post. He may, too, cross the line between our posts, make rapid incursions into the country which we hold, murder the inhabitants, commit depredations on them, and then retreat to the interior before a sufficient force can be concentrated to pursue him. Such would probably be the harassing character of a mere defensive war on our part.— If our forces, when attacked, or threatened with attack, be per-mitted to cross the line, drive back the enemy, and conquer him, If our forces, when are been been been been and conquer him, mitted to cross the line, drive back the enemy, and conquer him, this would be again to invade the enemy's country, after having this would be again to invade the enemy's country, after having lost all the advantages of the conquests we have already made, by having voluntarily abandoned them. To hold such a line successfully and in security, it is far from being certain that it would not require as large an army as would be necessary to hold all the conquests we have already made, and to continue the prosecution of the war in the heart of the enemy's country.

It is also far from being certain that the expenses of the war would be diminished by such a policy. I am persuaded that the best means of vindicating the

war, to make a permanent conquest of the republic of Mexico, or to annihilate her separate existence as an independent nation. On the contrary, it has ever been my desire that she should maintain her nationality, and, under a good government adapted to her condition, be a free, independent, and prosperous repub-lic. The United States were the first among the nations to their iown." By a notice published in this day's impression, it will be seen that the Directors of the Building Society have ordered that a premium of £1 10s. per share shall be charged upon all shares taken after the first Monday in January next. We attended the Sixth Loan Meeting of this Society last evening, and found everything going on most prosperously. The rate of Bonus is the best proof we can offer of this. Three shares of £100 each were disposed of at the following rates : could be obtained.

On the first of the present month, the amount of the public

carly period of your session, as recommended, the loan for the present fiscal year may be reduced to seventeen millions of dol-lars. The loan may be farther reduced by whatever amount of expenditures can be saved by military contributions collected in Mexico. The most vigorous measures for the augmentation of these contributions have been directed, and a very consider-able sum is expected from that source. Its amount cannot, however, be calculated with any certainty. It is recommended that the loan to be made be authorised upon the same terms that the loan to be made be authorised upon the same terms, and for the same time, as that which was authorised under the provisions of the act of the 28th of January, 1847. Should the war with Mexico be continued until the 30th of June, 1849, it is estimated that a farther loan of twenty mil-lions five hundred thousand dollars will be required for the fiscal year ending on that day, in case no duty be imposed on tea and coffee, and the public lands be not reduced and graduated in conce, and the public lands be not reduced and graduated in price, and no military contributions shall be collected in Mexico. If, contrary to my expectation, there should be a neces-sity for it, the fact will be communicated to Congress in time for their action during the present session. In no event will a sum exceeding six millions of dollars of this amount be needed before the meeting of the session of Congress in December, 1848.

Campbell, 2d dragoons, about twenty strong, had been attacked last night by guerillas near Agua Frio, in superior numbers, and that they were still fighting when he left for assistance.— The dragoons, one company of the 2d and one of the 3d, Capt. Butler's, were immediately ordered to horse, and started off to the relief of Lieut C. and party. From other sources it was known that there was a considerable force of guerillas between here and Cerralvo, under different leaders, and considerable apprehension was entertained for Lieut. C. This evening, however, he returned with ten men unharmed and seven wounded. Five of the command were missing when they suc-ceeded in fighting their way through the guerillas, and it is supwounded. Five of the command were missing when they sue-ceeded in fighting their way through the guerillas, and it is sup-posed are killed. Possibly they may have escaped in the chaparal, although it would be strange if they did, as the attack-ing party were supposed to be vastly superior to the dragoons, it ance from Ge⁺. Taylor's camp, and were furnished with a guide to lead them to the vicinity of the robbers, and it is hoped that they will succeed in poincing upon them. Lieut. C. received a slight wound in the fight. We have a report here that there are above five hundred of the late Mexican army at San Luis Potosi who have pronounced in favour of Paredes and monarchy, and the report is generally credited at Saltillo and by mary Mexicans here.

your confidence. Were I to consult only my own feelings and convenience, Were I to consult only my own feelings and convenience, No. 2, Wellington Buildings, Were I to consult only my own feelings and convenience, respecting the propriety of offering myself as a Candidate for the suffrages of so large and respectable a Constituency, as that of the Fourth Riding of the County of York, I should certainly hesitate before accepting the very flattering invitation now pre-sented to me. Bat, opposed, as I have always been, to extreme political parties, and to a system of legislation, that, unfortu-nately for this Province, has been occupied too much in pro-moting factious objects; and coming, as this invitation does, from Gentlemen having large stakes in the Fourth Riding, I consider that I would not be acting in accordance with a sense of public duty if, on the present occasion, I declined to merge all personal considerations in a desire to render my humble ser-vices in such a way as shall be most conducive to the further-ance of your views. I, therefore, lose no time in signifying my entire compliance with the terms of your requisition, and my entire compliance with the terms of your requisition, and my readiness to act with such advice as, from your knowledge of

local circumstances, you are best able to recommend. Having been long before the public, in a capacity that af-Incal circumstances, you are best able to recommend.
Having been long before the public, in a capacity that afforde opportunities to judge of my opinions on most, if not all, of the popular questions affecting the interest of the Province, it is not necessary that I should enter, at this time, on a statement of what my sentiments are on particular measures that are likely to occupy the attention of the Legislature. I hope to have opportunities of doing so when I shall meet the Electors of the Fourth Riding personally to solicit their suffrages. In the meantime, I may be allowed to state, in a general way, that on all questions affecting Agriculture, Manufactures, and Commerce, I consider any policy erroneous, that promotes one of these interests at the expense of the other two; and while shall continue to insist that our liberality to foreigners, in the admission of foreign goods, should be regulated by a reciprocal liberality on their part, to take our productions in return, on equally invorable terms. Ou questions of a purely Provincial arises from the habit of making these questions a means for the accomplishment of sectional objects. In your own locality, I believe you have had tangible experience of the extent to which both local and general interests have suffered, in the too commission.

oth local and general interests have suffer on and customary strife for party ascendancy. The public od appears thus to be generally too much absorbed in the exlusive attaiument of unworthy ends; and to this practice may e attributed, with safety, whatever backwardness is perceptible our spirit of enterprise, our general progress, and the state of ar Public Works. The interests of Canada I regard as a sinour Public Works. The interests of Canada Fregard as a sin-gle interest—as a unity, diverging into minute ramifications, but forming, altogether, in the eye of the Legislature a perfect whole, having no part that can be supposed to exist in antag-onism to another, in a properly constituted state of society. But, at the same time that I feel disposed to render all parial views and interests subservient to the general good, and to oppose all manifestations having a contrary tendency, I am fully alive to the important duty which devolves on a Parliamentary Representative, to consult the peculiar wants, and anvance the local interests of the constituency he represents. Nor am I aware of any circumstances that could palliate a neglect in securing a share of the moneys appropriated to local improve-ments, more particularly of the late very large expenditure o $\pounds_{1,500,000}$ sterling, for local purposes; when, for example, in the case of bad and insufficient roads, the want of the required improvements entails seriour loss and hardship on every indi-vidual living in the settlement; and when, besides no excuse can be advanced to show that the Government is unwilling to receive or attend to show that the Gotenness is a group of a standard to be an applications. In responding to your requisition, I confess that I am actua-ted more by public duty, than by any latent aspiration to enter the arens, and incur the responsibilities of public life. Should the Electors of the Fourth Riding of the County of York, be the Electors of the Fourth Riding of the County of York, be pleased to honour me with their approbation, and appoint me their Representative. I shall spare no exertion, and neglect no opportunity to serve them to the best of my ability, and, by so doing to serve a line of the set of my ability, and, by so doing, to secure their future confidence. To you, Gentlemen, who have thus frankly complimented me with your favourable opinion. I beg to express my heartfelt gratitude; and, at the same time, to acknowledge how much this mark of your regard will stimulate the exertions of,

proper stand in the Province, but we would be no party to the degradation of our countrymen. Irishmen have too long been the slaves of passion—too long led by designing and artfol men —they must turn their attention a little more to think and to reflect, and when they do so, their own conscience will prove a better monitor, than the advice of Kenneth McKenzie, or Ro-bert Jackson, or the maniac ravings of such journals as the Kingston Herald and the Prescott Telegraph. We have no fears that the Britons of Old Kingston can be misled by any man. They are the very hove who understand their duty and man. They are the very boys who understand, their duty and fearlessly they will perform it. In Prince Edward, Mr. Conger's race is run! This county will nearly and all deate

will pass into the hands of the Conservatives beyond all doubt. We have not heard who will be the Opposition Candidates for Northumberland and Peterboro'. We rather think it doubtful that any will offer. The re-election of the present members is certain.

This sentence is partly true and partly false. The endow-ment was undoubtedly "intended for the benefit of all the inhabitants of Upper Canada," and the Crown then deliberately decided at decided, after more than a year's discussion, that it was for their benefit to place the College in the exclusive management of members of the Church of England. The means, therefore, by which it is the determine nation of the Crown that it should be so. But, that "it was by them devoted exclusively to objects of their own," is an as-

section so palpably and transparently false, and is so thoroughly known to be false by every inhabitant of Toronto, where King's College College stands, that we shall not waste our time in confuti it.-Patriot,

In Durham, we suppose Mr. James Smith will be the "stand-ing dish" of the Radical party. But the Cavan Boys will rally round the sterling old Tar, who at present so honourably repre-sents them, and place him in such a position on the poll as will be a "our and place him in such a position on the poll as will a "caution" to his competitor. We have thus hastily sketched what we think would be the

result of an election, east of Toronto. The Conservatives are certain to gain Prince Edward, and are likely also to carry Stormont; while there is not a probability of their losing one cormont; while there is r leat which they now hold.

eat which they now hold. From the City of Toronto East, to the Province line, we think it unlikely that the Radical Exclusives will secure more than two seats, viz: Glengary and Lanark. And if the people will but stir themselves in good earnest, even the two coun-ties we have named, may be rescued from the grasp of the ex-clusive faction that has so long been the bane of the Province.

County of Leeds .- We understand that the Exclusives (the e remnant who are struggling to dishonour the name of erty by styling themselves Liberals) of this County, are to hold . ng at Farmersville, on Friday next, the 19th inst., at 2 o'clock, for the purpose of nominating a candidate to 'run on the Party Ticket. We have little doubt that the fortunate man is already determined upon; and that the lot will fall upon our neighbour, Mr. W. B. Richards. We hope the Ogdens-burg Delegate will be "at home" on the occasion.

Glengarry.—If Mr. Macmartin (Sheriff of the Eastern Dis-friet) could be induced to give up his Shrievalty, and to come forward for this County, his return would be preity certain.— Ignorant as we are of Mr. Macmartin's intentions, we give this County to the Exclusives; for should Mr. M. decline to con-test the Shire, we have no doubt of Mr. Saufield Macdonell's success.

UNIVERSITY QUESTION.

The Canadian Farmer of Saturday last, an excellent Agricultural journal, has been tempted into an essay upon the much vexed University Question. He is the most liberal opponent of the C of the Government measure we have seen, but we cannot agree with him in the principles on which he grounds his arguments, nor are some of his statements, in our belief, quite correct. He says, for instance, "other peculiarities characterized the College which are a statements and the statements of the says of the say ege, which amounted to a practical exclusion, from its of all those who did not want to submit their Children to Church of England influence." Now, no influence of the kind is used except towards members of the Church of England. And again, "The result has been, that notwithstanding the low charges, and the acknowledged high literary character of many of the Professors, very few but those of that one sect, and most the Professors, very few but those availed themselves, and most of them sons of the wealthy, have availed themselves, its advantages." The result has been very different. Many of that Church (it is not a "sect") have not only graduated, but have been highly distinguished at King's College, and ny, to our certain knowledge, with not a wealthy relative in

ege grounds and buildings, and the endowment to be farmed, the annual proceeds applied in support of high schools.

OBITUARY.

Died, on Wednesday last, at his residence in this town, aged 37, deeply and generally lamented, Burrage Yale McKyes, Esq., Judge of the Colborne District Court, and Chairman of the Quarter Sessions of the County of Peterborough. Though taken thus early from this world—only one half of the neugh term of marks nitrimage basing been accomplished—

the usual term of man's pilgrimage having been accomplished-yet were his years sufficient in number to develope and establish a character, more than ordinarily estimable. As a public funcnary, respect and confidence invariably attended him in the discharge of his important official duties; and as a private memdischarge of his important official duttes; and as a private mem-ber of society, he never failed to acquire the sincerest esteem of general acquaintance, and the warmest attachment and affec-tion of friends and relatives. Genuine piety, uncompromising integrity, and the strictest observance of all moral duties, were, integrity, and the strictest observance of all moral duckes, were, in him, conjoined with suavity of manners, and a chastened gravity of demeanor, which promoted, rather than repressed, cheerfulness in social intercourse and domestic life. It is diffi-cult to speak in terms sufficiently strong of the feelings of regret cut to speak in terms sumchings of the terms of terms

Extracts from the President's Message. THE MEXICAN WAR.

Besides New Mexico and the Californias, there are other Besides New Mexico and the Californias, there are other Mexican provinces which have been reduced to our possession by conquest. These other Mexican provinces are now governed by our military and naval commanders, under the general autho-rity which is conferred upon a conqueror by the laws of war. rity which is conferred upon a conqueror by the laws of war.— They should continue to be held as a means of coercing Mexico to accede to just terms of peace. Civil as well as military offi-cers are required to conduct such a government. Adequate compensation, to be drawn from contributions levied on the enemy, should be fixed by law for such officers as may be thus employed. What farther provision may become necessary, and what final disposition it may be proper to make of them, must depend on the future progress of the war, and the course which Maxieo may think proper hereafter to pursue. E. With the views I entertain, I cannot favour the policy which has been suggested, either to withdraw our army altogether, or

bas been suggested, either to withdraw our army altogether, or to retire to a designated line, and simply hold and defend it.to retire to a designated line, and simply how and defend in To withdraw our army altogether from the conquests they have i made by deeds of unparalleled bravery, and at the expense of so much blood and treasure, in a just war on our part, and one which, by the act of the enemy, we could not honourably have avoided, would be to degrade the nation in its own estimation, and in that of the world.

To retire to a line, and simply hold and defend it, would not

The plan proposed is to leave the Church of England the ollege grounds and buildings, and the endowment to be farmed, he was and buildings and the endowment to be farmed, be to retire to a fine, and samply not and definitely. It is not to be expected that Mexico, after refusing to establish such a line as a permanent boundary, when our victorious army are in possession of her capital, and in the heart of her country, The Farmer argues, that in the country, at present, University Education is not necessary or important, and indulges at some Pointed jokes at the expense of high reading. We think be is wrong. Professional men ought to be highly educated; and for the Minister in the model is a permission of her capital, and in the heart of her country, in possession of her capital, and in the heart of her country, would permit us to hold it without resistance. That she would continue the war, and in the most harassing and annoying forms, there can be no doubt. A border warfare of the most sware character, extending over a long line, would be unceaswrong. Professional men ought to be highly educated; and for the Ministry it is absolutely indispensable. In the other their lack of College learning, as a foundation whereon to build the superstructure of professional knowledge. All this can be obtained abroad. The expense would be too great, and the

STEAMERS.

While other maritime powers are adding to their navies large while other maritime powers are adding to their navies large numbers of war steamers, it was a wise policy on our part to make similar additions to our navy. The four war steamers authorised by the act of the 3rd of March, 1847, are in course

of construction. In addition to the four war steamers authorised by this act, In addition to the four war steamers authorsed by this act, the Secretary of the Navy has, in pursuance of its provisions, entered into contracts for the construction of five steamers, to be employed in the transportation of the United States mail "from New York to New Orleans, touching at Charleston, Savannah and Havana, and from Havana to Chagres;" for three steamers to be employed in like manner from Panama to Oregon, "so as to connect with the main from Panama to Oregon, "so as to connect with the mail from Havana to Chagres across the Isthmus;" and for five steamers to be em-ployed in like manner from New York to Liverpool. These steamers will be the property of the contractors, but are to be steamers will be the property of the contractors, but are to de built "under the superintendence and direction of a naval con-structor in the employ of the Navy Department, and to be so constructed as to render them convertible at the least possible expense into war steamers of the first class."
