buy of our best citizens have bought Dr. J. Souvielle's Spirometer, which is used the cure of those terrible diseases known arthe name of Nasal Catarrh, Bronchitis and ishma, and it is so highly spoken of as if 1000 instruments and preparations were inwhile in the cure of such complaints, and, patiefy our curiosity, we visited Dr. M. invielle at his office, 13 Phillips' Square, intreal, and gave a thorough examination his invention, so that we can speak with own authority of it. We think that such method, which conveys medicinal propersiressing diseases, cannot fail to be a benefit b humanity, instead of pouring drugs into the stomach and deranging digestion. These nonderful instruments, with their contents, were invented by Dr. M. Souvielle after long and careful experiments in chemical analysis, and used in hundreds of cases treated by him in the hospitals of Europe. We find the notor a well-learned gentleman, and he inis physicians and sufferers to try his ingament free of charge.

Common Sense in Medicine. (Moniteal Star, January 5, 1881.)

Dr. M. Souvielle, the Parisian physician ad inventor of the Spirometer for the scienfinc treatment of diseases, of the lungs, and ar passages, who recently took up his residence among us, is meeting with excellent mosess. Already the doctor has had hundreds of patients, who have given his system strial, and, so far as we have learned, with the satisfaction and benefit. Dr. Souvielle makes a departure from the usual methods of tresting diseases of the sir passages. He contends that the proper mode of treating them is by inhalation and absorption, not by pouring drugs into the stomach and thus upsetting and disarranging one part of the system in the hope of benefitting another. This agament certainly has the advantage of hing common sense, which is always the best kind of sense. The doctor certainly his the courage of his opinions and confidence in his system, for he gives a standing avitation to physicians and sufferers to visit im and test his instruments free of charge. is office is at 13 Phillip's Square, Montreal.

DANGERS OF THE ELECTRIC LIGHT. PHILADELPHIA, Oct. 12.—Chas. H. Landerurnec broke ont about 9.45. An officer noticed omething peculiar about the electric lights. and in a moment the three upper floors seemed to become a mass of smoke and flame. Seighbors rushed to the building and saw the operatives at the windows, on the third and fourth floors. They called to the girls not to jump, as a ladder would be brought, but several sprang from the windows. Mattle Conlin, Fred. Krep, Geo. Dougherty. Henry Mormon, J. Beynolds, and an unknown girl were dangerously burned about the face and arms; the two girls will probably die-Matilda Shultz, Annie Miller, Samuel Lapbam, George R Hutton, Kate Shafer, Lizzie Franks, Annie Brady, Michael Larkiu and an mknown man were also injured, but not so swerely. Jos. Glasior is missing. There were no five escapes. Loss \$70,000. The shricks of the poor creatures in the building when their escape was cut off was heartrending. Most of them jumped to the sidewalk, and a new escaped by the elevator rope. There were some thirty-five persons in the billding. It is believed some of the operaaves were buried in the ruins. It is supposed the fire originated from the sparks of the electric light firing a lot of material on the second floor. One girl is reported to have been killed outright by striking the iron

EPPB'S COCOA—GRATEFUL AND COMFORTING— By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocca, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist any tendency to disease. Hundreds of subtle maladies are Soating around us ready to attack wherever there is a weak point. We may escape many a fath, shaft by keeping ourselves well fortified with pure blood and a properly househed frame."—Civil Service Gazette. MOTHERS! MOTHERS!! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating; pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediatelydepend upon it; there is no mistake about it There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents [G26 a bottle.

TRIED AND TRUE! How sad to contemplate the fact, that for the sake of gain, would-be philanthropists have introduced patent medicines and drugs (vile compounds) which are advertised to cure all the ills that flesh is beir to. Verily they have their reward. Thousands are annually sent to their graves through the use of such compounds. Baxter's Mandrake Bitters have come before a discerning public, without any loud trumpeting. They have been tried and have not been found wanting. They are daily gaining in public favor, and for dyspepsis, jaundice, and biliousness have no equal.

All beds seem hard to the rheumatic. Then hearken ye peevish sufferers! Apply DR. THOMAS' ECLECTRIC OIL to your aching joints and muscles. Rely on it that you will experience speedy relief. Such, at least, is the testimony of those who have used it. The remedy is likewise successfully resorted to for throat and lung diseases, sprains, bruises
