

Leckie Shoes

"The Quality Goes IN Before the Name Goes ON-- that's a Leckie"

Above is one of the slogans adopted by the House of Leckie.

It tells you the absolute truth in a few words.

"QUALITY" is the one outstanding paramount feature of Leckie's footwear whether it's a boy's boot—a man's boot for street wear—or a boot for the logger, miner, rancher, prospector or laborer.

KEEN DEMAND FOR SMALL FRUITS

Jam Packers are out offering long contracts for SMALL FRUIT of all kinds at advanced prices.

THE COUNTRY IS FACING A SHORTAGE OF SUPPLY

The withdrawal of the English Jam Makers from the Canadian market is largely responsible.

The above statements were taken from the daily papers recently.

The wise farmer will plant liberally of SMALL FRUITS next Fall and Spring, and reap the benefit of the increased demand and high prices.

We have planted extensively at Chilliwack of all the leading varieties of Currants, Gooseberries, Raspberries, Strawberries, etc., and will be able to supply thousands of plants, fresh dug, at reasonable prices.

Parties interested should write us, and also as to all kinds of fruit trees, shrubs, roses and ornamental trees of our usual choice quality.
