 Sales Manager**

Kerosene lamps with a difference! They are beautiful, they are handy, they are safe and they are economical; they are ideal for trailers, yachts, tents, bars, restaurants, and, yes, for homes as well.

Rayflam's quality lamps are also odorless, easy to clean, approved for air transport, and of course there is no wax to plug up your sink. Since there is no evaporation from our lamps, they cannot explode. Whatever the atmosphere — whether air conditioned or not — Rayflam lamps burn evenly.

In short, Rayflam kerosene lamps are unique, and they are available to help retailers build solid and profitable giftware sales.

*Kerosene lamps can now be beautiful as well as functional and completely safe.*

**Rensie Clocks (Canada) Ltd.**

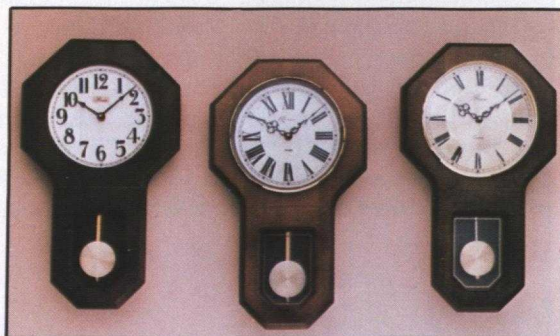

72 Stafford Street  
 Toronto, Ontario  
 Canada M6J 2R9
