303.5 The OSC shall obtain proper authorization, in accordance with appropriate national, provincial, territorial and local laws, to call upon and direct the deployment of available resources to initiate and continue containment, countermeasures, clean-up, and disposal functions.

303.6 In carrying out this plan the OSC is to maintain an upto-date and accurate information flow to the JST to ensure the maximum effectiveness of the joint effort in protecting the national resources and environment from pollution damage. The necessary direct liaison between personnel at all levels in the agencies of both Parties is essential to both satisfactory planning and operations.

## 304 Deputy On-Scene Commander/Coordinator (DOSC)

The DOSC shall be designated by the Party which is not providing the OSC. He shall act as the OSC's direct liaison with the agencies of the Party, which he, the DOSC, represents. He shall assist the OSC and shall control his own Party's response resources to comply with the planned tactics of the OSC.

## 400 <u>Response Operations</u>

The actions which are taken to respond to a pollution incident separate into five relatively distinct phases. However, elements of a phase or an entire phase may take place concurrently with one or more other phases.

Phase I Discovery and Alerting

Phase II Evaluation and Plan Activation

Phase III Containment and Countermeasures

Phase IV Clean-up and Disposal

Phase V Plan Deactivation.

## 500 Reports and Communication

501 <u>Reporting Points, Reporting System</u>

501.1 Any potential pollution threat to the other Party, shall be reported to that Party without delay. The reporting points are:

For Denmark: ISCOMGREENLAND (Island Commander Greenland).

1

For Canada: NORDREG Canada

501.2 When responsible authorities are reporting a pollution incident or any pollution threat to the other Party, the <u>Pol</u>lution <u>Rep</u>orting System (POLREP) should be used. The description of POLREP is attached as Appendix 1. Responsible authorities are:

For Denmark:	For Canada:
National Agency of	Canadian
Environmental Protection	Coast Guard.

501.3 Any other reporting and communication should be carried out according to national requirements (SITREP). A description of SITREP is attached as Appendix 2.
