TWO MORE APPEALS TO AID UNEMPLOYED

City Council, Board of Trade and Labor Council Delegates Approach Government.

Two appeals were made yesterday to the Ontario Government on behalf of the unemployed in Toronto, and to both the reply of Premier Hearst was that all that could possibly be done to provide the relief of suffering and the providing of work would be done. He pointed out that nearly all of the suggestions advanced had been made use of already to some extent, and that increased care would be given. At 10.30 a body of delegates, representing the city council, board of trade and trades and labor council, headed by Controller E. S. Spence, presented a formal appeal for assistance. They submitted a list of suggestions for likely fields of employment throughout the province. Later, four men, representing the men in need of work, came on their second visit, seeking word of "immediate" action.

The first suggestion of the representative deputations was that the government undertake the clearing of crown lands to be used ultimately by settlers, who would repay on the installment plan, the clearing to be done by provincial residents only. The same course should be adopted on winter construction of government roads in New Ontario. Procedure with the

hydro radial system, the good roads program and consultation with the N. O. Commission as to establishing more mills to encourage pulp industry were other proposals.

Net Dumping Ground. Mayor Church claimed that Toronto could look after her own unemployed, but did not propose to become a dumping ground for the unemployed. He urged that the city for water mains, snow shoveling and park work. Ald. Sam McBride supported him by showing that much work was now under way that ordinarily would have stood until summer. Government work in the north would help a great deal.

Premier's Reply. In reply, Mr. Hearst stated that the Abitibi mill had ordered \$100,000 worth more pulp than could be handled in the season, and that the same policy was being pursued elsewhere. Work on all government structures was being carried on by a full capacity of workmen. He was anxious to do all possible. Two appeals were made by the unemployed men, and they asked a special vote of a million dollars to be handed over to the city, placed under control of responsible men, and used to supply work. To attain this they urged a special session of the house and the suspension of ordinary rules. The other was that the men be regarded as valuable machinery in the state, which would deteriorate through lack of employment.

The premier stamped the problem as largely municipal, involving municipal obligations. The government was awaiting the report of the special commission, but the suggested appropriation was impossible. He also made reference to the refusal of jobs by many men now out of work.
