Here Are Colored Eyeglasses That Reduce Sun Glare

For comfort out of doors, to reduce sun glare from streets or water, have your prescription made up in tinted glass. A single pair is lighter and cooler to wear than a tinted pair over your everyday glasses. You may have such glasses ground in smoke or amber, or in Crookes' lenses. The latter are of chemically prepared glass, which cuts off the rays of light below the "reds" and above the "violets." In fact, tinted lenses are necessary to eyes which are hyper-sensitive to light. Consult our Optometrists regarding these lenses.

How Convenient it Will Be to Have a "D. A."

For it enables one to shop by mail, telephone or by phone, with the assurance that all purchases will come as paid. Saving any apprehension as to the safe arrival of money. Saving the necessity of going for money orders—when, perhaps, the distance is considerable.

Furthermore, the "D. A." will do your bookkeeping—an itemized statement of all your transactions being sent to you every month—truly a systematic way of shopping.

Interest is allowed on the daily credit balance. For further information, apply "D. A." Office, Fourth Floor.
