COBALT, Oct. 25 .- (From the Man on the Spot.)—Unconcerned and unaffected by Wall-street failures and oblivious of the financial storms in the east, Cobalt camp steadily grows, and developm work continues. Holders of Cobalt stocks in shipping

Serious consequences were averted at Kingston by Zam-Buk. Blood Poison brough stocking dye has on more than one occasion proved serious, and such might have been the case with Mr. Thes. Foster, of Kingston, had it not been for Zam-Buk. Mr. Foster, formerly an officer in the Horse Artillery stationed at Kingston, says:-"Lastfall I had a nasty sore on my foot caused by the irritation from a projecting grelet in my shoe. Before I was aware of it the colored sock I wore had poisoned the fesh and I suffered much in consequence. I tried a good many salves and olitenets yet there was no improvement until I began with Zam-Buk. This olitenent drew out all the inflammation and poisonous matter and healed the sore in several days after applying. You can publish this state-ment if you wish for the merits of Zam-Buk cannot be to widely known." to become shippers can wait with con-floence for the conditions of the money market to improve. While outsiders may think that the Cobalts have held up well during the depression of the past few months, Cobalters are staggered when they find their favorite stocks dropping below par. The shipments may not be as heavy as predicted by the optimists, but their values should afford great satisfaction. The apparent timidity of some mine-

contain the ore ingredients of silver, cobalt, arsenic, etc., and will be sent to WILL DEVELOP ELECTRIC POWER the smelters for further treatment. The CAMPBELLFORD, Oct. 25 .- A bydifference in freight charges of the conlaw to expend \$60,000 for developing a municipal electric power plant at Midcentrates and low-grade ore makes it possible for the mines to realize on that dle Falls was voted on to-day and cargrade of ore.

The Deloro Smelter management has issued circulars to Cobalt mine owners. announcing that it will shortly accept ores for treatment, and has with the circulars submitted its tariff charges, which are said to be more liberal than the Eastern Smelters' charges. During the past month some of the mines have

been sending ores to Denver. Will Make First Shipments. The Nancy Helen will make its first

shipments next week, and has placed its order with the railway for cars. Two cars of high-grade, and three of sec-onds, will be sent to the Coppercliff sn.elter.

Superintendent "Robert Bryce, at the Silver Queen, has fifty two men at work, and is running five drills. Diamond drilling is also being done. The diamond drilling is being done horizontally in the side of the bluff to the south of the present workings, and a distance of 100 feet has been reached. Vein No. 2,

located last summer, was tapped at the end of the cross-cut run from the main shaft at the 75 foot level. It was tapped at a distance of 165 feet

from the shaft, and 300 feet of drifting has been done on this vein at that level. The vein has an average width of 7 inches, and is one of the rich veins of the camp. Its average assay has been 4400 ounces of silver to the ton, and,

shoulder blades? THESE ARE REGARDED SYMP-TOMS OF LUNG TROUBLE AND COMSUMPTION You should take immediate steps to Tou should take immediate steps to Shoulder blades? Itke the rest of the ore in this mine, carries considerable niccolite, but very Ittle cobalt. The main shaft at the Queen is down 150 feet, and 900 feet of drifting done at the 75 foot level, and 800 feet at the lower level. The comparison of lower level.

You should take immediate steps to check the progress of these symptoms. The longer you allow them to advance and develop, the more deep-seated and serious your condition becomes. 800 feet at the lower level. The Queen shipped three cars of low-grade ore about three weeks ago, two of which went to New Jersey and one to Coppercliff, and will ship a car of

its rich ore next week. We Stand Ready To Prove To You Baby Smelter.

absolutely, that Lung-Germine, the Ger-n.an Treatment, has cured completely and remanently case after case of advanced Consumption (Tuberculosis), Chronic Consumption (Tuberculosis), Chronic Bronchitis, Catarrh of the Lungs, Catarrh of the Bronchial Tubes and other Lung.

Many sufferers who had lost all hope and who had been given up by physicians have been permanently cured by Lung-comming in Madden has twenty men at work

ent Madden has twenty men at work and a diamond drill in operation. Two Germine. It is not only a cure for Consumption but a preventive. If your lungs are merely weak and the disease has not yet manifested itself, you can prevent its de-velopment, you can build up your lungs and system to their normal strength and capacity. Lung-Germine has cured advanced Consumption, in many cases over four years ago, and the patients remain strong and in splendid health to-day. Here is Evidences from consumption. Two promising veins have been located, and shafts are being sunk on each. They are now down 22 feet in each shaft, are now down 22 feet in each shaft, the early management of this property was "rotten." It is a location that has aiways been well thought of locally. and the new management is mining the property, and not the public.

property, and not the public. The "Man on the Spot" has been in receipt of several letters to continue his tables of the output of the camp. Here is Evidence from one Case Under date of Mar. 11, 1907, William , Schmidt, 1904 Coleman-street, St. Louis, Mo., writes: "It is now nearly four years since my cure of Consumption was made complete by your Lung-Germine, and I am happy to say that I remain as well and strong to-day as the day I was cured. I am healthy and able to work every day." To Oct. 1 the shipments totalled 9750.09 tons, or an average monthly output of 1083.34 tons. The output for September, was 760.50 tons. Up to Sept. 1 the average monthly output was 1118 tons, so that the showing of Oct. 1 is a slight retrograde.

We will gladly send you further proof of many other remarkable cures, also a Free Trial of Lung-Germine, together with our new book on the treatment and for the present. No new shipments are to be recorded and work at the Imperial has stopped

too has aready been secured by ship-pers. Toronto.-There is little change in the fadiriy good business has been transact-ed during the past week, and prices gen-erally were firm. The drygoods people are receiving numerous orders for season-able lines. They are generally for ordi-nary lots, and wholesalers are conserva-tive in placing orders with manufactur-ers. Payments have been some better from the west. The grocery trade has been good, with fair demand for all staple lines, which rule firm in prices. Ship-ments to the west are large, to go by vessel before the close of navigation. Shelf for metals and builders' material is less active. Hides are unchanged, and the lether trade quiet. Provisions are quiet, with prices unchanged. Butter, cheese and eggs are very firm, owing to limited supplies, but heavier receipts of butter seem to be expected soon. The grain markets have been a little unsettled, with Ontario oats and wheat lower than a week ago. The export demand for Mani-toba wheat is less active. There were
