H. E. SAYERS, District Agent.

The recent cablegram to this city from Germany for quotations on two hundred tons of nickel matte is only ne indication of the growing demand for this article. In the last number of The Engineering and Mining Journal of New York is an article showing that the prospects are favorable to a much larger consumption of this metal in the near future. It is admitted that the best nickel mines in the world are located in this province; that the mines in New Caledonia cannot at all com-% to 1½ inch Real Hand-made Linen Tor-chon Lace, 3c a yard; regular, 5c and 8c. Ladies' Colored Frillings, 10c a yard; regu-lar price, 20c and 25c. 6 to 10 inch Cream and White Guipure and Oriental Lace, 25c a yard; regular, 50c to 85c. bete with ours in richness or in expete with ours in richness or in ex-tent; that the production of nickel in Norway and Sweden, which was at one time of some importance, has prac-one time of some importance, has prac-in the purpose of engaging in a mechanical trade or manual labor with no intention of becoming permanent ertain of receiving the benefit of any ncreased demand that may arise for

for the construction of its own new warships. The Russians have decided on nickel armor plate; the United States intend using it, and the recent cablegram to this city from Germany is evidence that the German Empire is going to adopt nickel steel for its war vessels. Canadian nickel will probably enter into the construction of nearly every war ship that is built in the future. If the price of nickel can be kept down to a low figure, its use will extend to the manufacture of a great many domestic articles. This ds the field in which the greatest quantity will be used. Recent improvements in refining are such as will cheapen the cost of production very materially and enable nickel to be placed on the market at a figure which will ensure a very largely increased many department of the construction of the construction of the field in which will ensure a very largely increased many department of the construction of the construction of the field in which will ensure a very largely increased many department of the past four years:

"Ist. A complete revision and equalization of the entire assessment of the cost of production very materially and enable nickel to be placed on the market at a figure which will ensure a very largely increased many department of the commission of th for the construction of its own new enable nickel to be placed on the mar-ers, "2nd. That

ket at a figure which will ensure a very largely increased production of the metal.

Isn't it time the Ontario Government took an active part in the development of the Sudbury mines? The Government could do a lot to stimulate private enterprise in that district. Ontario ought to follow in the lead of The Funeral of R. Terry. The funeral of R. Terry, the description of the Sudbury mines ought to follow in the lead of the funeral of R. Terry, the description of the funeral of R. Terry, the description of the sudbury mines of the Late Mr. Terry.

"2nd. That when the assessment is thus revised and confirmed, it be allowed to stand for a period not exceeding five years, at the discretion of the Council, nevertheless subject to such annual adjustment and equilization as the said Board deems inecessary."

Scarlet fever or scarlatina is on the decrease, as it carried off only 454 during 1894. ment could do a lot to stimulate private enterprise in that district. Ontario ought to follow in the lead of

The reasons he as the previous day in describing the described the describing the describing the describing the desc quietly rest in the files of the Committee on Foreign Affairs. A canvass of both Republican and Democratic members of the committee, made by a representative of the New York papers, discloses the fact that no members can be found who will endorse the new doctrine. The policy of bringing forward such a dangerous measure at the present time is strongly deprecat-

ed both by the press and leading politicians on the other side. It may be set down as a certainty that this preposterous version of the Monroe doctrine will not be sanctioned by Con-

DISCRIMINATING AGAINST CANADIANS. About a dozen bills have been introduced in Congress for the purpose of restricting immigration into the Unit-ed States. The venom of most of them seems to be directed against this country. The bill introduced by Representative Corliss, for instance, will exclude British subjects, residents of the Dominion of Canada, from coming into the United States during the summer months and engaging in the me-chanical trades and labor. Mr. Corliss says a large number of brick masons, carpenters, plasterers and laborers annually come into Detroit and other cities of the United States from their permanent homes in Canada, and compete with American citizens during the season best adapted for such labor, and at the end of the season return to their Canadian homes with the fruit of their labors. The bill bars out blind persons and cripples disqualified from earning a livelihood unless it is shown that such persons are not likely to become public charges; all persons over 15 years of age who cannot read any language, and Canadians coming to the United States temporar-

increased demand that may arise for nickel. The production of nickel in the Sudbury district in 1895 was 4,566,542 pounds, of which 3,138,400 pounds, were exported to the United States by the Canadian Copper Company for refining. The principal part of the remaining was exported to Europe. The most notable feature in the market lately has been the steady decline of the metal, which has reached as low as 24 cents a pound. The chief use of nickel at present is for making an alloy in the manufacture of steel. The west of the west that the exception of the child-ing in the manufacture of steel. The west of the shaking up he received in fall-ing down the Parkdale culvert on the day of his death had further clouded in the United States for nickel will be larger in the future than in the past, as that country has received the contracts for armor plate for several Russian vessels, and the United States for nickel will require a good deal of the metal Russian vessels, and the United States for mixed was also as a substant of the construction of its own new warships. The Russians, have decided The Franklin Inquest

CONTINUATION OF DR. BRYCE'S

VITAL STATISTICS FOR 1894. Material Falling Off in Comparison With Other Years—The Decrease Largely Attributable to Improved Sanitary Conditions in Cities-Prevalence of Con

en a resume of that portion of Dr. Bryce's vital statistics bearing upon the marriages and births in Ontario the marriages and births in Ontario during 1894. This morning is presented a synopsis of the Provincial Health Officer's report relating to the deaths in the same period. These returns will be presented to the Local House at the pending session.

These provincial mortality reports are very satisfactory. The total deaths for 1894 in Ontario were 22,538, being less than in 1893 by 365. This means a death rate of 10,3 per 1000, as against

Class of disease. 1893. 1894.

Zymofic diseases. 4,116 4,629

Constitutional diseases. 4,693 4,769

Local diseases. 8,334 7,978

Developmental diseases. 4,366 4,183

Violent deaths. 769 783

Cause not specified. 565 391

The table illustrates the fact that there was in 1894 an increase of the total contagious diseases in the province. The number, however, is 241 below that reported for 1892.

Where Improvements are Noted.

The deaths in the 13 cities of Ontario in 1894 show a decrease of 592

THE OTHER KIND.

CRANKS AND CRIMINALS. The Police Magistrate Had a Variety of Offenders to Dispose of Yester-day Morning.

Arnold Snider, a young man from Bethesda, was remanded for a week a the Police Court yesterday, in order that some enquiries may be made concerning him. When he was gathered in by the police he had a cartridge in his pocket and a note saying: "From this i go to my doom. You will find my friends at Bethesda, Ont. Arnold Snider."

riends at Bethesda, Ont. Arnold Snider."

Mrs. Mary J. Kerr of Peter-street charged J. P. McDonnell, an old and well-known employe of the Provincial Government, with fraud, but neither party appeared, and the hearing was adjourned for a week. The matter involves a \$500 board bill, but it is said the case will be settled out of court.

John Webster was committed as a lunatic. He calls himself a judge, and thinks that his mind is unbalanced.

Ed. B. Morden was handed over to Chief Coleman of Trenton. Morden is charged with stealing a \$100. beaver overcoat from that place.

Walter Lambert, wanted on a charge of false pretence at Peterboro, has gone back there in care of an officer.

Mary A. Wills was convicted of an assault upon Mari Corrigan, and fined \$5 and costs or 30 days.

Pat Sweeney, who with an associate named Hill stole two loads of cordwood from the cars on the Esplanade, was sent down for 60 days.

Thos. Seymour, 128 Manning-avenue, appeared at the afternoon court to answer a charge of assaulting a schoolboy named Noxon. The case was carried to the Children's Court, where accused was fined \$2.

William Balah, 248 Carlton-street, was fined \$2. without costs or 10 days for driving without bells, and Willis Johnston, a cabman, paid \$1 and costs—\$3.35 in all—for allowing his rig to remain on York-street without the owner and driver having it under proper control.

RYAN ON A RUSINESS TRIP.

The Affairs of a Defunct Commission Firm-Still Unsettled. The affairs of the firm of Ryan & Delany, commission merchants, who made an assignment some weeks ago to Mr. W. A. Campbell, are still unsettled. The firm was the agent for settled. The firm was the agent for the Collingwood Meat Company, of which Mr. Thomas Long is president. The latter concern got a large portion of its goods back; there still remaining an indebtedness of about \$300. A balance in the bank of some \$200 to the credit of the firm, which, previous to the assignment, was drawn out by the senior partner, Mr. "Roddy" Ryan, has been a bone of contention, which has delayed settlement for some time. The assignee states, however, that the Collingwood Meat Company is satisfied. As the real assets of the firm only represented a small part of the liabilities, the dividend is not likely to exceed 5 or 10.per cent.

Mr. "Roddy" Ryan left the city some 10 days ago and his friends say he has gone east on business. Mrs. Ryan is, in the meantime, residing with her father, Mr. Patrick Burns.

Camera Cinb's Charity Entertainment. The Toronto Camera Ciub's entertainment promises to be a grand success. A neat folder has been issued, showing three of the views that will be thrown on the scene—these are in plain black and white, but the lantern slides will be elaborately colored. All of the views are made by Mr. Poole, and the coloring done by artists specially selected by himself. The Sick Children's Hospital should benefit materially by this entertainment, and the public should fill Massey Hall to overflowing on Thursday of next week. No more worthy object could demand the club's assistance. Camera Cinb's Charity Entertainment.

ance.
The box plan for the sale of reserve seats opens at Massey Hall on Friday morning at 10 o'clock. The sale has been large, and undoubtedly the demand for first choice will be keen. A Church's splendid Showing
The Bloor-street Baptist Church held
its annual meeting on Tuesday, Chancellor Boyd presiding; Charles A.Eaton, pastor. The membership additions
were 63. Its flourishing membership of
602, large congregations and crowded
condition of the school rooms had
made necessary the purchase of the
adjoining lot, to provide for increasing
the accommodation. The year's gross
revenue was \$10,747, and dispursements
sightly over that. The missionary contributions were \$5087.
The officers appointed were: John
Stark, Joseph Wright, re-elected deacons; J. C. T. Lacey, elected deacons; J. C. T. Lacey, elected deacons; J. C. T. Lacey, elected deacons; J. C. T. B. Freeland, beneficence treasurer; E. B. Freeland, beneficence treasurer; J. P. Eastwood,
church clerk.

A Contested Will. Application has been made for probate of the will of the late Edward Heyden of Carlton, who died in 1889. The application is opposed by James Heyden and Margaret Doyle, who claim that the testator was of unsound mind when he made the will. Judge McDougall is hearing the evidence.

The Assessment Reductions
It is estimated that the total reductions in the assessment made by Judge McDougall will reach \$500,000. This, according to Mr. Maughan, who makes the estimate, will mean a reduction of the next assessment of the city reaching up into the millions.

Mr. L. Bredannaz, No. 148 Parliament-street, Toronto, says: From my eperience I can honestly say that Dr. Laviolette's Syrup of Turpentine is the most efficacious remedy for bronchitts and severe coughs and colds. In my family it has done wonderful work and I am pleased to recommend at.

The inquest held yesterday at the jail concerning the death of an old man named Wm.Johnson, who died at that institution, resulted in a verdict of death from natural causes. Johnson had been ill for some time.
