There was good buying in hi- licois central, Union Pacific and Steel, and it is current report that there has been ac- cumulation of Wis. Central during the past few days on basis of coming favorable de- vielopments regarding the property. The New Haven bond issue announced to-day is taken to mean that the road will retain majority control of Ontario & Western and whatever dividend may be arranged for O. & W. will therefore have backing of high credit of New Haven. There has been some good buying of Atchison recently and a potition of this has been for foreign ac- count. The rapid progress of peace nea- tiation arrangements is viewed with satis- faction. There is no material change in the geteral situation, and while there is a lack of aggressive bull operations at the moment it is strengly believed that in due cer as there will be buying of a character witch will take the market substantially higher. We continue to favor purchases of active issues on such recensions as may operations. — Turf affairs had the call for favor among the speculative public to-day, and as a re- suit the stock market substantially with all its duiness, however, prices ruled firm, and in 10.
