## Don'ts for Swimmers.

T. W. Sheffield, honorary member of  
the Royal Life Saving Society, form-  
erly of London, now of Regina, Sask.,  
has published the following:

"Don'ts for Swimmers."  
The many drowning fatalities record-  
ed by the press during the summer  
season call for more care being taken  
by the average swimmer and beginners  
generally, and it is earnestly desired  
that the following don'ts for swimmers  
and pointers for non-swimmers be post-  
ed up in a conspicuous place at the  
bathing place or summer resort, to  
read visitors, thus helping to minimize  
any undue risk being taken by follow-  
ers of the sport.

Don't bathe shortly after dining;  
wait at least two hours.  
Don't sit in a boat or stand about  
undressed after being in the water.  
Don't swim far after a hard day's  
work, or over-exertion after other  
forms of exercise.  
Don't bathe in unfrequented or se-  
cluded parts.  
Don't bathe alone if subject to giddi-  
ness or dizziness.  
Don't dive into the water without  
first ascertaining the depth.  
Don't take fright if you fall into  
the water with your clothes on; re-  
member, clothes float, and assist you  
to float. Make for the shore, swim-  
ming with the tide or stream.  
Don't swim to a boat or pier in the sea,  
or lake unattended by a boat or an expert  
swimmer.  
Don't take fright if seized with  
cramps; keep cool; turn the back  
and endeavor to rub the place affect-  
ed. If the leg is drawn up with pain,  
swim slowly with the arms only. All  
swimmers should practice this.  
Some Don'ts and Pointers to Begin-  
ners and Non-Swimmers.  
Don't go beyond the depth of your  
hips if you can't swim.  
Don't plunge or jump when you  
find yourself in deep water.  
Don't throw the hands or arms out  
of the water.  
Don't grasp any person who ap-  
proaches you; do what he tells you.  
Don't attempt to get into a boat  
without being assisted to get in.  
Tread water by keeping the legs mov-  
ing up and down, as in walking up-  
ward. Hold an oar or canoe paddle,  
plank or branch of a tree in the middle  
when thrown into water; an oar or paddle  
with the blade flat on the water will

keep you up if you don't struggle.  
Take in long breaths thru the mouth  
and exhale thru the nostrils; this  
makes the body more buoyant and  
keeps you warm.  
If you follow out these directions  
when in distress in the water you will  
help yourself and others coming to  
your assistance.  
When canoeing take a life belt if  
you are not an expert.

Painless extraction of teeth, 50c;  
gas administered \$1. Dr. Knight,  
specialist, Yonge Street, opposite

John Fow's Wit.  
Not many members of the local bar  
enjoy wider reputations for humorous  
and witty remarks than John H. Fow,  
the mighty, intrepid and sonorous-  
voiced statesman from the 17th ward.  
In a case in the court the other day  
the judge remarked:  
"Ignorance of the law is no excuse."  
"Your honor," roared Fow, who re-  
presented the defendant, quickly jump-  
ing to his feet, "whom do you mean—  
the plaintiff or the plaintiff's attorney?"—Philadelphia Times.

To really enjoy your lunch or din-  
ner you should go to the American din-  
ing room at the King Edward Hotel.
