MORE REAL ESTATE IN CITY SOLD
Brussels Street Properties Bought in Summer Are Turned Over
MONTREAL BUYERS
 City to Sell Six Lots in Carleton to John F. Gleason — He Now Holds Them on Lease — Will Pay \$3,250

Another sale of Brussels street property was announced this morning, adding one more to the great number of transfers which have taken place in this street during the last few months. The properties sold are two freehold lots numbered 97 to 101 Brussels street, 25 by 100 and 25 by 75 feet, with wooden buildings containing stores and dwellings. These properties were purchased some time ago by the St. John Real Estate Company and during July were sold by Allison & Thomas, J. C. Baker, of Kingston, Ont. The latest sale was also made by Allison & Thomas. The purchasers are Montreal men and the price they pay leaves a substantial profit for Mr. Baker.

The city commissioners have decided to convert at least part of the city's real estate holdings into cash. At their meeting at noon today they decided to accept J. F. Gleason's offer to purchase six lots in West St. John now held by him under rental leases. The lots are situated in Minerva, Union, Albert and Germain streets. At present they bring in a total revenue of \$28 per annum, and as Mr. Gleason will pay \$3,250 for the lots the interest on the selling price and the taxes will give the city almost ten times as much revenue.

EIGHTEEN HURT IN CRASH ON MONTREAL SUBURBAN LINE
Street Cars Came Together in Blinding Snow Storm

Montreal, Nov. 25.—Eighteen people were injured, several seriously, in a head-on collision on a suburban branch of the street railway between two heavy express cars at Abtville this morning.

A blinding snowstorm was in progress at the time of the accident and it is thought that the snow falling prevented one of the motormen stopping at a switch. He passed it at full speed and the two cars were within a few feet of one another before the motorman began to apply the brakes, which failed to prevent the collision.

Most of the passengers were hurt by the impact of the cars. The cars were crowded with people coming into the city for their business.

COLLAR BUTTON IN LUNG; THERE SIXTEEN YEARS

Pittsfield, Nov. 25.—When a supposed case of bronchial trouble with which William Tremblay was thought to be afflicted, failed to respond to the usual treatment, physicians at a local hospital took an X-ray photograph and discovered a collar button lodged in Tremblay's lung.

Tremblay swallowed the button 16 years ago. He supposed that it had gone into his stomach, and gave the matter no further thought.

Because of the peculiar position which it occupies, it is believed that it will be impossible to remove the obstruction by means of a surgical operation.

BOSTON DOCTORS ARE UP IN ARMS
Petition Against Traffic Regulation is Signed by 665 Physicians

Boston, Nov. 25.—The physicians of the Back Bay district, and physicians of the city in general, according to the names appearing on a petition now in the hands of the street commissioners, are up in arms against the enforcement of a traffic rule which prohibits the standing of vehicles in public streets for more than twenty minutes.

The petition is signed by about 665 physicians, members of the Suffolk Medical Society.

The petition had its cause in the recent activity of the police in the Back Bay, due to numerous complaints from residents. These were in the main that the streets were blocked by the obstruction caused by the physicians' automobiles, could not approach their own residences.

Under the present rules the physician on a sick call is not limited to the twenty minutes call before the place where he is making his call. This privilege has recently been extended so as to exempt the physician on a sick call from the twenty minute rule. The exemption of vehicles standing before the residences and offices of physicians is quite another proposition.

MINISTERS HEAR REASONS WHY MEN KEEP FROM CHURCH

Reasons why men do not attend church were given in an interesting paper this morning before the Board of Christian Work of the city by Rev. Dr. D. Hutchinson, who outlined what he thought were the principal reasons for the non-attendance of a large number of men who should otherwise be there.

The inconsistency of those who did attend, social causes, the fact that men who did not go found those who were regular in attendance no any more upright or conscientious in their dealings—all these were given as reasons for the fact that men did not attend church.

Some argued that the church catered to the capitalists against the working classes and vice versa, but this was not so, he caused the church always appeal justly.

With some men, dishonesty and wickedness were responsible for their keeping away, for they did not care to hear a sermon against dishonesty and wickedness was followed by an interesting discussion in which the members present took part and hearty appreciation of the paper was expressed by the ministers assembled.

AGAIN DISCUSS MATTER OF LET UP IN FIGHTING

Plenipotentiaries Of Turkey and The Balkans Meet

CAPTURE BY SERVIANS

Take Albanian Town Without Resistance—Promise of Heavy Work at Scutari—Turks Crippled By Loss of Battleship

(Canadian Press)

London, Nov. 25.—The plenipotentiaries of Turkey and of the allied Balkan nations held their first meeting this afternoon to discuss the preliminaries for the negotiations for an armistice.

London, Nov. 25.—The political situation between Serbia and Austria has undergone no material change, but on the whole, a rather better feeling prevailed here, says the correspondent of the Daily Telegraph at Belgrade.

The general opinion, continues the correspondent, is that the questions at issue can be settled without fighting. The Serbians naturally are anxious to secure an outlet to the sea through their own territory, and if Austria meets their wishes in a reasonable spirit, the risk of war will be easily avoided. It is declared that Serbia wishes to live in a spirit of amity with Austria, but that no nation after a successful war can submit to remain in a position of absolute tutelage to another power, however friendly.

For trade reasons alone Serbia desires access to the sea and not from any desire to capture Austria.

Belgrade, Nov. 25.—The Serbians have captured Uzdava, in Albania, without resistance.

London, Nov. 25.—King Nicholas of Montenegro, says a despatch from Anivari to the "Daily Telegraph," has arrived from Riala with the general staff, joining General Maritsovich and four Serbian battalions in the attack on the Turkish lines.

A long conference was held last night at the headquarters of the Montenegrins, but no definite result was reached.

Probably the chief subject of discussion was the occupation of San Giovanni. The Montenegrins are confident that they will be able to stop the Bulgarian advance.

The battleship Miosleid, which was formerly employed for the defence of Rodosto and later on the left flank of the Turkish line has now been despatched to the Black Sea in order to strengthen the menaced right flank of the Turkish army. Considerable activity has been observed among the Bulgarians, who have struck a blow at Plovdiv which was being rapidly taken in position to command the Turkish headquarters at Hadzideli.

London, Nov. 25.—A special despatch from the Turkish headquarters at Hadzideli confirms a report that the Ottoman striking force at Plovdiv, which was in the hands of the Bulgarians, has been captured and driven back to the Turkish lines. The Bulgarians also left six field guns and one machine gun on the field.

Another special despatch from Anivari says Austria-Hungary is mobilizing a large force at Plovdiv, to which place a portion of the garrison of the Austrian fortress of Spiza in Dalmanah has been sent.

Athens, Greece, Nov. 25.—Greek troops today occupied the fortress of Janina, Constantinople, Nov. 25.—The Dardanelles were still open to navigation at half-past ten o'clock this morning despite the threats of an attack by Bulgarian troops on the forts guarding them—the capture of them would permit the Greek fleet to sail through and bombard Constantinople.

OPERATOR LOST NERVE; 50 KILLED
Panic at Moving Picture Show in Spain on Cry of Fire

ALARM WAS NEEDLESS

(Canadian Press)

Bilbao, Spain, Nov. 25.—Fifty persons, mostly children, were killed in a terrible panic caused by the cry of fire at a moving picture show yesterday. Only one man, up to an early hour today, had been found among the dead. The number of injured is not known as most of them were taken to their homes by friends.

The scene of the accident is a large circus which had been converted into a continuous cinematograph show. As the price of admission was only two cents, the building was crowded to its utmost capacity, for the most part, with women and children.

The operator of the machine lost his nerve when a film ignited and screamed fire. He was able to extinguish the flames himself without difficulty, but the effect of his cry upon the audience was instantaneous. Almost everyone within the building sprang up. The police and attendants were powerless to control the panic-stricken people and were swept away by the surging mass, which sought to fight a way to the exit.

Scores were knocked down and trampled upon and many were crushed to death in the passages from the galleries and to the street.

The first effort this man makes to escape," the sheriff said, "I shall shoot him dead." He then allowed the girl to shake hands with the man and to bid him good bye.

WILL MANAGE STORES THERE IN CONNECTION WITH BIG NEW CANNING INDUSTRY

Robert Strain, formerly of R. Strain & Co., has just returned from a visit to the business of the Canadian Stores, Limited. Mr. Strain has been a prominent and popular member of the community, and his friends will regret that his business will be expected from this city.

The Canadian Stores, Limited, which he is to manage, is a corporation operating in the form of a limited liability company. It has established the new fishing village at Chamcook. They have a monopoly of the business of entering to the wants of the people and are undertaking it on a big scale. In addition to operating a large restaurant store with almost every line of merchandise, the company will also supply the demand for amusement by operating a moving picture theatre and a dancing hall. They are completing plans for a building to be erected in the spring. It will be 80 by 80 feet with bowling alleys and billiard tables in the basement, the stores on the ground floor, with the hall for moving pictures and dances on the next floor.

The business is expected to be of large proportions owing to the plans of the company to increase their business. In addition to the sundries factory they are going to enter the general canning business and put up fruits and vegetables. They have already bought a large number of farms around the village on which to produce the materials for canning. It is expected that there will be a community of at least 1,000 persons there next year.
