

The Woman's Visiting and Aid Society

REPORT FOR 1893.

At the Annual Meeting for 1892, it was decided to curtail the visiting of the congregation, as with such a small membership it was really burdensome on those who took an active part in it.

This past year therefore we have visited quarterly instead of monthly, as formerly, and we are glad to be able to report that the change has not affected the finances of our Society in the least, for whereas in 1892 there were collected \$143.90, this year, with fewer visits, we have received \$162.15.

The Thanksgiving and Communion collections have been generous, and with donations from several friends and membership fees brings our income for the year up to the sum of \$420.34.

Four of our aged friends, to whom we have been privileged to minister for a number of years, have been removed by death during the year, but as there have been added to our list the names of several needy members of the congregation our expenditure is about the same.

We have this year 30 members, an increase of five, and, as in former years, a number of ladies have assisted with the visiting who are not members. Our thanks are due to these latter and we earnestly hope that they, as well as all the women of our church, will see it to be their duty and privilege to connect themselves with our society, and by attending the meetings and sharing the responsibility help to make it the power for good in our midst which we all wish to see.
