The idea that the United States and I THE CHAMPION FLOPPER.

A few months ago, when advocating the placing the harbor in commission, the Sun was declaring that our city wharves do not pay and ridiculing the idea of the city undertaking harbor improvements. About two years ago he was in Philadelphia, seeking the best medical advice as 'a very forlorn hope of prolonged life. Although attended by one of the famoust skilful physicians of the United States, he continued to grow worse, until he was told it was only a matter of a very few days between him and death. This skilful doctor could not see the smallest hope of life beyond this brief space of time. His brother-in-law came in haste, expecting to be in time only to see him die, and to perform the sad duty of accompanying his remains to their last resting place in the Baptist cemetery at Windsor, N. S. After his arrival, Mr. Curry, seized with the longing to see home once more before the end came, prevailed upon him and his physician to allow him to start Windsorward. Not to prolong this narrival, he reached home, and, after a season, began to mend. For a time he was comparatively well. When his doctor heard of his recovery, he wrote declaring that it was as wonderful as a resurrection from the dead, and stating it as his opinion that the Lord had raised him to life for some special purpose. While we firmly believe that the rule of the conservative party under Sir John A. In this view the removal of Mr. Cameron from the position of editor of the Giobe, a position wich he was wally incompetent to fill, is a positive gain to the political healthfulness of this Dominion. We trust that the new manage
