We married him just about eight at night, Our faces paler turning, By the struggling meanbeam's mystic light, And the gas-lamps steady burning.

o useless wetch-chain covered his rest, Nor over-dressed we found him, at he locked like a gentleman wearing his With a few of his friends around him.

You and short were the things we said, And we apole not a word of sorrow, But we steadily gazed on the man that was wed And blitchy thought of the morrow.

We thought as we ellently stood about, With spite and anger dying, Bow the meest stranger had out us out, With only half our trying. Lightly we talk of the fellow that's gone, And of, for the past unbraid bits

And of, for the pest upbraid him, at little he il reck it, if we let him live on In the house where his wife conveyed him this our bowy task at length was doro, When the clock strack the hour for reti-And we leard the spiteful equib and pun-The girls were caddonly firing.

slowly and early we tarned to go-We had struggled, and we were human; We shed not a tear, and we spoke not our woo, But we left him alone with his woman.

Suggestions on Health. MOBAL REALTH.

Druggery is not the only physic. There are cosens of curing disease and arerting sick-tiess quite as efficient as any pill or potion ever sold over the counter. The modicine of whe mind is a powerful for life and death as the final of the ightoning, or the bullet, or the carbine. The thundroot kills instantly; so may a mental emotion. There are slow poisons that cat out the life, piecemeal, in the agonics of years; and many an unrevealed sorrow has there been known to waste away its victim in the testions progress of wears weeks and month of grief. There is no attundant more foil of health than a hearty laugh. There is not a tonic in all creation which gives such percental vices as that of a concience roid of effices towards God and man. Butter than amy ball not ancient Gliefa are the reflections of a well-spent life; of a conacious integrity of grayous prevailing every business transaction montant plays of the provider of the such cash; the first that the first than a carrier of the such as the provider of the such as the

MEANTANCE OF SUBSTRIA AND PRACE AS New York morehant motion, in the pro-gross of years, that ouch successive book-teeper gradually letch his health, and finally distant assumption. Lowever vigorous and IMPORTANCE OF SUNSHING AND PRESE ATE A New York morehant noticed, in the progress of gross, that each successive book-keeper gradually lect his health, and finally distance consumption, convery vigorous and robbinglies was exected his health, and finally distance consumption, convery vigorous and robbinglies was exercing his service. At length a occurred to him that the little vear room where the books were kept opened in a back yard, an surrounded by high walls that no evushine exacts into it from one year's end to mother. As upper room, woll lighted, was increased, and his elects had an extra good health were after.

A funding became ill, sad all remedies seemed to fasting became ill, and all remedies seemed to fasting became ill, sad all remedies seemed to fasting became ill, was not repaired, and fortive his there was a marked improvement in the hostlis of the immates. The physician at once traced the connection, discontinued his modeliene, and ordered that the vindow-pane should not be replaced.

A French lady became ill. The most eminant physicians of hor time were called in, the first that the properties of the time were called in, the first that the properties of his many to the connection, discontinued his modeliene, and ordered that the vindow-pane should not be replaced.

A French lady became ill. The most eminant physicians of hor time were called in, the first that the properties of the time were called in, the first that the properties of the time were called in, the first that the physicians of his natural physicians of hor time were called in, the first that the properties of the time were called in, the first that the properties of the time were called in, the first that the properties of the time were called in, the first that the properties of the time were called in, the first that the properties of the time were called in, the first that the victor is an adversarial to the connection, discontinued his made that the victor is an adversarial to the connection of the time that the victor is an adversarial to the connection of the

BYLES FOR TALKING OUT. note time in the cuanture is well as in the winter. Sendel overshoss are the best if they offerd protection from external moisture. Response the crombors as soon as the walk ends or the unement they not not needed. Better (Serf Here in the hand or pocket than to were them longer. Those sho walk much during the day about some or how had much during the day about some or they have the beld to the fire sulf liperfacely dry. It is well also to change the stockings, and with the freeb dry pair wor alippors or a low pair of shoce while is doors.

PESTILENTIAL PEVERS.

**FSTILENTIAL PEYERS.

**If," says an able writer on fever in the last century, "any person will take the trouble to stand in the sen, and look at his own alkadow on a white plastered wall, he will perceive that his whole body is a smoking mass, with a vapor orbaining, from every part of it. This yapor is subtle, carid and effensive to the smell; if retained in the body it becomes morbid; but if re-absorbed, it is highly deleterosca. If a number of persons, therefore, are long confined in any close place not properly ventilated, as as to implire and swellow with their spittle the vapors of each other, they must room feel its bad effects. Bog provisions and gloomy thoughts will add to their insery, and soon bread the seminitars of a postliental fever, dangerous not only to themselves but also to every person who wish them at second hand. Hence it is no frequently hard in ships, hospitale, jails, camps, and beciegod fromes. A seminitum once produced is easily appead by centagiou."
