FLYWHEEL BURST IN AN ILLINOIS POWER HOUSE

Two Were Killed, Two Others Badly Hurt, and Property Damaged to the Extent of at Least \$30,000.

CHICAGO, April 23.—The burst of a flywheel at the North Shore Electric Light Co., at Waukegan, last night, caused the death of two men and probably fatally injured two others and brought darkness to a number of North Shore suburbs. The dead: J. H. Jansen, manager Waukegan Telephone Co., and an unidentified man. The injured: J. C. Cadin, inspector of the electric light company, F. T. Dodd, draughtsman of Naval Training School. From some unknown cause, the belt on the huge flywheel measuring twenty feet in diameter, caught fire. The blast was discovered by one of the employes in the engine room and he summoned the volunteer fire department. The fragments flew in all directions shattering the roof walls of the brick building. The plant is a total wreck and the loss is estimated at \$30,000.

CHICAGO, April 23.—A despatch to the tribune from Peain, Ill., says: "Governor Deneen had a hard time getting the country from Quincy to Peain yesterday, while on a special making trip. He had to take a hour train to get across to Peain. The train, a few miles out of Havana, it stopped, passengers craned their necks to see what the trouble was and found the engineer sitting on the tie talking to his wife, who had brought the children along for a visit. Household matters were discussed at great length. The wife was going shopping and found that she needed more money. The astonished passengers heard a debate whether it was better to paper or whitewash the kitchen this year. After the passengers began to complain the engineer climbed into his cab and the train proceeded."

CHARLOTTETOWN, April 23.—The Steam Navigation Company's steamer Empress will leave the slip at Pictou today for Summerside and tomorrow morning will begin the summer service on the Summerside-Point du Chene route. The Northumberland began the Charlottetown-Pictou service today and the winter boats have stopped running. Great interest is taken in a case laid under the prohibition act before Stipendiary McDonald against Dr. McNeill, charged with giving prescriptions for other than medical purposes. The trial occupied two days, the evidence was concluded yesterday and judgment is reserved until Wednesday next. This is the first case of the kind ever tried in Canada. Several medical men who were examined said that the use of liquor for medical purposes is steadily lessening in favor, as other more effective stimulants are used. The doctor declares all applicants for prescriptions were really ill from gripe, rheumatic trouble, rheumatism, etc. The prosecution contended that he gave an undue number of prescriptions without making proper examination of patients. Steamer Enterprise owned by Three Rivers Steamship Co., will begin next week a service between Port Hood, Ketchikan and Mulgrave in addition to the regular Pictou, Montague, Georgetown service.
