

FRANK'S SPECIFIC SOLUTION OF COPAIBA.

The different ingredients contained in Frank's Specific Solution of Copaiba, are those advised by the most practical and scientific in the profession, but by a peculiar chemical process so compounded that each drug greatly increases the efficacy of the others.

This invaluable medicine is recommended in the public and private practice of Sir Astley Cooper, Bart., F.R.S., Sir Benjamin Brodie, Bart., F.R.S., Joseph Henry Green, Esq., F.R.S.; Brandy B. Cooper, Esq., F.R.S., Members of the Council of the Royal College of Surgeons, London, and many other highly distinguished members of the medical profession, by whom it is deemed the only Specific for the cure of those diseases to which it is most immediately applicable.

The testimony of these gentlemen cannot fail to convince every reflecting mind that Frank's Specific Solution of Copaiba, is not only in every essential what it professes to be, but is considered a most valuable addition to those legitimate and approved medicines, daily prescribed by the faculty.

Frank's Specific Solution of Copaiba is adopted by the most efficient, safe, and speedy remedy for the cure of Gonorrhoea, Gleet, all Urinary Discharges, Efflux Albumen, Spasmodic Stricture, Irritation of the Kidneys, Bladder, Urethra, and Prostate Gland; its purifying effects upon the general health renders it particularly applicable in all cases of relaxed fibres and nervous debility.

The most delicate persons may take it with perfect safety.

Prepared only by George Franks, Surgeon, London.

CAUTION.—None is genuine unless a Green Franks' Stamp is engraved on the Government Stamp attached to each bottle.

The following Testimonials are selected from amongst numerous others forwarded to Mr. Franks:—  
From Joseph Henry Green, Esq., F.R.S., one of the Council of the Royal College of Surgeons, Surgeon to St. Thomas's Hospital, and Professor of Surgery in King's College, London:—"I have made trial of Mr. Franks's solution of Copaiba, at St. Thomas's Hospital, in a variety of cases of discharges of the male and female, and the results warrant my stating, that it is an efficacious remedy, and one which does not produce the usual unpleasant effects of Copaiba." (Signed) JOSEPH HENRY GREEN.

45, Lincoln Inn Fields, April 15, 1835.

From Brandy Cooper, Esq., F.R.S., one of the Council of the Royal College of Surgeons, Surgeon to the Metropolitan Free Hospital, Carey Street, Lincoln's Inn Fields:—"I have administered your preparation of Frank's Specific Solution of Copaiba, for the cure of Gonorrhoea, in all of which the disease has subsided in a shorter period of time than according to the ordinary plans hitherto made use of. Besides these cases of which I have taken notice, I have tried it in several instances at the Grenville-street Hospital, and an ample evidence that it possesses a control over the morbid symptoms of Gonorrhoea, relieving the discharge and mitigating the scalding and making water, that I have not observed in the most judicious use of any other medicine; and in two instances it did it dispense with the usual mode of exhibiting this remedy, first by diluting it with a larger quantity of water, and its objection was at once obviated, and the patient got well in ten days from the time that he commenced taking the medicine. I have no doubt as to the propriety of the discharge continued longer than ten days after commencing this remedy." (Signed) BRANDY COOPER.

Within a period of two months, upwards of 300 patients were treated with Frank's Specific Solution of Copaiba, with perfect success, at the Metropolitan Free Hospital, viz. St. Thomas's, Guy's, and the Free Hospital, by their respective Surgeons, whose Testimonials are given above.

Agent for New Brunswick: JOHN G. SHARP, Chemist & Druggist, St. John, June 15.

Under the sanction of the President of the College of Physicians, Professor Brown, of the Royal Institution, and a host of the highest members of the profession, this medicine is the best, and the most successful, for the cure of GONORRHOEA, and all the various symptoms of this disease, whether it be of the venereal or non-venereal kind; it is the only remedy which is equally efficacious in all the different stages of the disease, and which is attended with no danger to the system, or with any of those disagreeable effects which attend the use of the Carbonate of Soda and Potash; it prevents the food of infants turning sour during digestion; it is equally useful in all cases of gonorrhoea, and in all the various symptoms of the bladder, and, under all circumstances, it acts as a pleasurable aperient, peculiarly adapted for females particularly during pregnancy.—Dr. Compton has expressed his regret that he should have allowed himself to be imposed upon by an eponymous name of Sir James Murray, and says:—"I have enquired into the circumstances, you are at liberty to continue the use of the certificate I gave you; I have, however, subsequently said, 'I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you.'"

"Dear Sir, I have been much pleased with the Bicarbonated solution of Magnesia, and feel with many others, that the profession and the public are indebted to you for a highly valuable addition to our list of medicines. As an agreeable mild aperient, it cannot fail to supersede many now in use, but which so often offend the taste and the stomach, and justify their banishment from our prescriptions." (Signed) J. T. COCKERILL, Physician, London, July 15, 1833.

Dr. Wilkinson of Bath says:—"I have used Sir James Murray's Fluid Magnesia, sent me by a chemist in this town for analization, gave me more agreeable results of magnesia than three or four parts of Soda to the ounce which you yielded several grains of pure magnesia to the ounce. I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you." (Signed) JOHN G. SHARP, Chemist & Druggist, St. John, June 15.

The undersigned would intimate to the Public that he has now on hand 500 Pairs Gentlemen's BOOTS & SHOES, in every variety—made up in his usual style, and feels a pleasure in offering them for sale at his well known Liverpool.

He has lately received from London a supply of LEATHER, consisting of French and English CALF SKINS, PATENT LEATHER, MONOCO, SOLE LEATHER, &c. together with a complete set of the new Patent London made LASTS, of the latest fashion; all of which will enable him to continue to give that satisfaction to his customers, which it has been his care to endeavor to do since his commencement in business. Orders attended to with punctuality.

DAVID PATERSON & CO. 1st July, 1841.

THE HARTFORD Fire Insurance Company, OF HARTFORD, CONN.

OFFERS to insure every description of property against loss or damage by Fire, on reasonable terms. This Company has been doing business for more than twenty five years, and during that period have settled all their losses without compelling the insured in any instance to resort to a court of justice. The Directors of the company are Elihu P. Taylor, James H. White, S. H. Huntington, A. Huntington, junr., Albert Day, Samuel Williams, F. G. Huntington, John G. Ward, and J. W. ALPHELET TERRY, President. JAMES G. BOLLES, Secretary.

The subscriber having been duly appointed as Agent for the above Company, is prepared to issue Policies of Insurance against Fire for all descriptions of property in this city, and throughout the Province on reasonable terms. Conditions made known, and every information given, on application to JOHN ROBERTSON, St. John, 1st July, 1837.

The above is the first agency established by this Company in New Brunswick.

PROTECTION INSURANCE COMPANY, OF HARTFORD, Connecticut.

Capital \$150,000 Dollars.

With Liberty to increase to Half a Million of Dollars.

The whole of the first named sum, of \$150,000, is invested in securities, and is the property of the insured, and is available for the payment of losses. The subscriber having been appointed Agent for the above Company, will issue Policies for Insurance on Dwelling Houses, Stores, Household Furniture, and every description of property, on reasonable terms.

LOSS OR DAMAGE BY FIRE, is at once ascertained, and the money is promptly paid. The subscribers will give personal attention to the survey of premises, and in the city, on which insurance is desired.

Application in writing (paid for) from other parts of the Province, describing the property to be insured, will receive prompt attention.—The correctness of which description shall on all occasions be binding on the part of the applicant.

W. H. SCOVILL, St. John, N. B., 3d Sept. 1840.

HEBREWIAH HOTEL, CHERCH STREET.

The Proprietor of the above establishment, is thankful for past favors, begs to state, that he has been supplied with a new and superior quality of Brandy, choice Brandy and Wines, he has added that of an ordinary or eating House, where gentlemen may be seated for the convenience of a higher class at the shortest notice, with every delicacy which the market affords. Every attention paid to those who may honor him with a call, Public or private parties furnished with Rooms.

JAMES NETHERY, St. John, N. B., June 7, 1833.

Printed and published by J. G. SHARP, on hand.

To the Afflicted.

NOTWITHSTANDING the great powers the medicinal use of Magnesia in the cure of various diseases, it is not till lately that its use has become generally known. It is the only medicine which is equally efficacious in all the different stages of the disease, and which is attended with no danger to the system, or with any of those disagreeable effects which attend the use of the Carbonate of Soda and Potash; it prevents the food of infants turning sour during digestion; it is equally useful in all cases of gonorrhoea, and in all the various symptoms of the bladder, and, under all circumstances, it acts as a pleasurable aperient, peculiarly adapted for females particularly during pregnancy.—Dr. Compton has expressed his regret that he should have allowed himself to be imposed upon by an eponymous name of Sir James Murray, and says:—"I have enquired into the circumstances, you are at liberty to continue the use of the certificate I gave you; I have, however, subsequently said, 'I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you; I am pleased that you should have taken my name; but I have no objection to its being used by you.'"
