poard of the Dominion Textile Comvany.

Mr. H. S. Holt, who has been on
the Textile directorate for some
time, was elected second vice president, the appointments being made
pecessary by the death of Mr. David
Yulle and the advancement of Mr.
C. B. Gordon from the second vice
president to the president.

Mr. Smith's election to the board
was well received on the street, as he
is one of Montreal's most popular financiers.

REACTION IS **NOW COMING**

vergad largely around the Harriman issues. At midday Union Pacific common and preferred showed losses of 3% and 2 points, while Southern Pacific, Illinois Central, Louisville & Nashville, Atlantic Coast Line, Reading, and Wabash preferred were lower by 1½ to 2 points. The only prominent issues to display steadiness were New York Central and Atchison. Transactions were again very large, with London a reported seller here to the extent of 35,000 shares, chiefly the Harriman and the U. S. Steel common. There was a general late recovery from the early heavings which had its inception in a fresh buying movement in Union Pacific. The balance of the active left moved along in slump, the net-estall being gains which ranged from fractions in the Harriman issues to 3 points in Chicago and Northwestern, I point or more in Atchison, New York Central and the Steel issues. Some of the less active stocks registered material losses. Much of the buying in the last hour seemed to come from the short account which covered extensively in Union and Southern Pacific, U. S. Steel and New York Central. Such seeneral news as came to hand later in the day was largely favorable, including the successful conclusion of the Chinese loan, with equal participation by our bankers and further improvement in the steel and iron trade. There was also a statement from a representative of the Interstate Commerce Commission predicting a revival of the enormous railroad traffic of 1901. The money market was very strong, with further indications of a stiffening of rates. Some call loans were ragain made at 2½ per cent, but this was the maximum figure.

Bonds were irregular. Total sales, har value, \$380,000. Government bonds were unchanged.
