

## CONSERVE COAL PLEAS MADE IN CANADA'S HOUSE

"Live Within Ourselves" is  
Advice of D. D. McKenzie  
Speaking on Question.

### GRAIN SHIPS TO CARRY COAL ALSO

No Information Yet Concerning  
Date When Budget Will  
be Introduced.

Ottawa, March 23.—A discussion of ways and means whereby Canada may insure an adequate supply of coal for the future featured today's sitting of the House. It was Private Members' Day, and after the preliminary business was disposed of, the House cleared for a discussion of some of the proposals emanating from other government sources. Dr. Michael Stoeckert, of South Perth, was responsible for the discussion on Canada's fuel supply when he moved that a special committee of the House be appointed to investigate the situation. He emphasized the gravity of the situation, the tremendous increase in coal prices and the difficulty in getting a supply for the winter. Future prospects were that Canada would require more, rather than less coal. Every effort should, therefore, be made to conserve the present supply.

## Had Bad Cough For Three Years.

The constant hacking, racking, pro-  
longed cough that sticks to you in  
spite of everything you have done to  
get rid of it, is the kind that is dan-  
gerous.

The longer the cough sticks, the  
more serious the menace it becomes to  
your health.

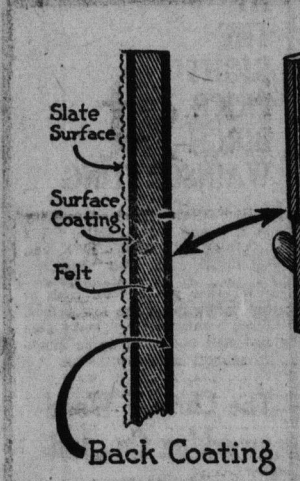

There is no remedy that will relieve  
coughs that won't let go—like  
Dr. Wood's Norway Pine Syrup.

It has a healing and soothing action  
on the air passages, and at the same  
time acts as a disinfectant of the  
respiratory organs, destroying the  
germs that produce serious lung com-  
plications.

Mr. John Miller, Minburn, Alta.,  
writes: "I had a very bad cough for  
three years. I went to several doctors  
and tried different cough medicines,  
but nothing seemed to help me. One  
day a friend told me about Dr. Wood's  
Norway Pine Syrup, and after using  
several bottles I became completely  
cured. I always keep a bottle in the  
house, and also recommend it to  
others."

Dr. Wood's Norway Pine Syrup has  
been universally used for over 30  
years, and so great has been its suc-  
cess, it is only natural that a great  
many imitations have been placed on  
the market. The genuine is put up in  
a yellow wrapper, 3-4 line sizes—  
trade dress, price 25c, and 40c a bot-  
tle; manufactured only by The T. M.  
Burr Co., Limited, Toronto, Ont.

of votes will also be  
on for NEW business.

## Delegates Want Kindergarten Here

Fredericton, N. B., March 23.—The  
provincial board of education, this  
morning heard a delegation of women  
from St. John, in support of legisla-  
tion to make it permissible for St. John  
to add kindergarten training to the  
free school system. The delegation,  
which was presented to the board by  
Messrs. Hayes and Scully, was com-  
posed of Mrs. A. P. Robinson, Mrs. W.  
F. Hatheway, Miss G. Greany and Mrs.  
Holman. A committee was appointed  
to consider this matter and report at  
the next meeting of the board.

A. J. Brooks was awarded the trav-  
elling scholarship for school inspec-  
tors and will probably attend a sum-  
mer course in Toronto.

It was decided to have instruction  
on public health given in the Normal  
school.

It was decided to ask the census  
enumerators for the province to take  
into account the fact that previously  
children between the ages of five and  
six were not enumerated and this was  
accountable for the poor showing  
made by this province as far as effec-  
acy was concerned.

and develop new fuel sources. Elec-  
trification of steam railways and the  
establishment of central heating  
plants were suggested by Dr. Steele  
as means for conserving the coal.

He also advised the adoption of some  
system for testing coal in order to see  
that the consumer got the grade for  
which he paid.

Major Redman, Calgary, seconding  
the resolution, emphasized the impor-  
tance of improving transportation fa-  
cilities in order to get Alberta coal to  
the East. It would compete with the  
Pennsylvania product if brought to  
Ontario.

Live Within Itself.

D. D. McKenzie, Cape Breton North,  
said it was desirable that this coun-  
try should live as much as possible  
within itself and develop the essen-  
tials of living to a point where it  
would be unnecessary to import them.

The value and importance of this was  
amply demonstrated by England and  
Scotland. These two countries were  
adverse to exporting raw materials,  
but were prepared to export finished  
articles. Every Canadian ought to be  
able to live on what can be produced  
in Canada. At present the people of  
Western Ontario lived in dread of  
winter because of the difficulty of  
getting a sufficient supply of coal.

Coal to Montreal.

Mr. McKenzie suggested that ships  
carrying wheat overseas from Mon-  
treal might be utilized to bring coal  
from Cape Breton to Montreal on their  
return voyage. This coal could then  
be distributed throughout Ontario.

There was practically an unlimited  
supply of coal in the Maritime Pro-  
vinces.

Debate on Dr. Steele's resolution  
was eventually adjourned. The pre-  
mier, supporting appointment of the  
parliamentary committee proposed.

J. C. Douglas, Cape Breton South,  
moved adjournment at 6.12.

Hon. W. S. Fielding, before the  
house rose for the Easter recess,  
urged Sir Henry Drayton to give  
when the House reassembled on Tues-  
day, an idea as to when the budget  
would be brought down. This, he said,  
would greatly facilitate the business  
to be transacted. Sir Henry  
Drayton, who was in his seat at this  
time, made no reply.

## All Life Insurance Records Broken

The Metropolitan Had Its Great-  
est Year in 1920 and Leads  
the World in Assets, in  
New Business and in  
Amount of Outstand-  
ing Insurance

The annual report of the Metro-  
politan Life Insurance Company on the  
business of 1920 shows that the new  
business placed on the books broke all  
previous records in the world. Nei-  
ther the great amount of new insur-  
ance taken out, nor the percentage of  
lapses indicate depression in the  
business or industrial world. The  
amount placed in the United States  
and Canada was \$1,661,950,161, which  
is a gain of more than two hundred  
and fifty million dollars, as compared  
with the previous year.

The income and assets increased  
proportionately, the income for the  
year being \$283,519,779, and the assets  
making a gain of \$116,019,262 for a  
total of \$399,539,041. Dividends have  
been declared payable to policy hold-  
ers in 1920, amounting to \$10,819,849,  
which \$6,951,261 is to holders of in-  
dustrial policies.

The Company placed new business  
in Canada during 1920 amounting to  
\$125,016,745, of which \$45,494,114 was  
industrial. This is the largest amount  
ever placed in Canada by any com-  
pany in any one year. The Company  
closed the year 1920 with a total of  
\$407,567,217 in force in Canada.

In 1920 the Metropolitan paid Cana-  
dian policy-holders \$4,209,648.12. The  
work for improved health among Cana-  
dians was continued. Metropolitan  
nurses, in co-operation with The Vic-  
torian Order of Nurses, made 157,646  
free visits to sick industrial policy-  
holders in Canada during the year and  
distributed 2,880,000 pieces of health  
literature. The confidence of the peo-  
ple of the Dominion in the financial  
strength of the Company and in the  
desirability of its policies is indicated  
by the fact that the number of pol-  
icies in force in the Dominion is 1,567,  
479. The Company's investments in  
Canada are over \$62,000,000.

Wants Government's  
Immigration Policy

Liberal Thinks Restriction of  
Newcomers to Farmer Class  
Not in Canada's Interests.

Ottawa, March 23.—S. W. Jacobs,  
George Etienne Cartier, is giving no-  
tice of a resolution which he intends  
to bring before the House of Com-  
mons concerning immigration. The  
object is to have a full discussion on  
the government's restrictive policy  
on the admission to Canada of Euro-  
pean immigrants, and the various  
orders in council now in force and  
which have been continued for an in-  
definite period by an extra order-in-  
council which goes into effect on  
March 31.

Mr. Jacobs' contention is that it is  
not in the best interests of the coun-  
try, that immigration should be re-  
stricted to the farmer and domestic  
servant classes. The resolution will  
be debated after the Easter recess.

REDUCED THE BOND

Ottawa, March 23.—At the opening  
of the House of Commons this after-  
noon the Premier announced that the  
Government decided on a reduction  
of 25 per cent in the bonds of all paid  
to civil servants during the next  
fiscal year.

Time Tested  
Cold Remedy

Your grandparents can tell you

## ANNOUNCEMENTS IN THE COMMONS

New Province in Northern  
British Columbia is Sug-  
gested in a Motion.

Ottawa, March 23.—Canada's con-  
tribution to the expense of the  
League of Nations is \$6,478 of the  
total expense. This amounts to \$23,  
000 gold francs, on the basis of 5.1826  
francs to the dollar.

The total amount paid with respect  
to Canadian Expeditionary Force dis-  
ability pensions for the year ending  
December 31, 1920, was \$18,212,506.  
The total number of persons pension  
amount placed in the United States  
and Canada was \$1,661,950,161, which  
is a gain of more than two hundred  
and fifty million dollars, as compared  
with the previous year.

The income and assets increased  
proportionately, the income for the  
year being \$283,519,779, and the assets  
making a gain of \$116,019,262 for a  
total of \$399,539,041. Dividends have  
been declared payable to policy hold-  
ers in 1920, amounting to \$10,819,849,  
which \$6,951,261 is to holders of in-  
dustrial policies.

## Seeks Help For Flax Growing

Westmorland Co.'s Wants to  
Start Manufacture of Linen  
Yard Next Fall.

Fredericton, N. B., March 23.—Max  
Hudson, manager of the Eastern Flax  
and Seed Co., Ltd., of Shodice, N. B.,  
has been here in consultation with the  
minister of agriculture, in connection  
with the expanding of the flax grow-  
ing industry of that company at Up-  
per Abagoggin, Westmorland Co.

Mr. Hudson stated that last year the  
company had planted twenty acres of  
land in flax, the average yield from  
which had been over seven bushels  
of flax seed to the acre and two and  
one-half tons of straw.

The company had put in a mill for  
the processing of the flax and this  
year had one hundred acres ploughed  
and ready for seeding. Last year's  
crop had been made into tow and  
marketed in the United States, but this  
year the company were considering  
putting in equipment to manufacture  
the flax into linen yarn.

The Maritime Linen Mills at Mon-  
ton have agreed to take the whole  
output of yarn. If their company's ex-  
periments this year succeed the  
amount of land seeded next year will  
show a big increase.

CASE IS WITHDRAWN

Fredericton, N. B., March 23.—The  
charge of non-support which has been  
preferred against Charles Fitz-Rand-  
olph, now carrying on a grain busi-  
ness at the Board of Trade building  
Moncton, lodged by his wife, Mrs.  
Elizabeth Fitz-Randolph, of this city,  
on behalf of their children under six-  
teen years of age, has been withdrawn  
in the police court here.
