ny profession for me." And that was all she said. It was not

the circumstances were. She was a senior in Vassar College when the Civil War broke up the home, and she lost plantation, father, brother and

world brighter and better. "I don't think," said the nurse, "that

any person who has not the instincts of a lady should be a nurse. If her voice is unpleasant and her mainers uncould she ought not to enter a sick room. She wants to be calm, and self-possessed, not cold, but sympathetic. Sentimentalism is not sympathy. The surgeon who causes pain is more sympathetic than the sentimental-ist who weeps and helplessly wrings her hands. "The strain upon one who fights disease and sees suffering in many forms is a severe one, and I have been worn out many times after the reaction came. "There was an immigrant who came to our hospital—a poor Norwegian, who did not know a word of English. She was delirious and kept calling for her "mud-der, mudder." But her "mudder" was frightened of us. She thought we were any person who has not the instincts of a lady should be a nurse. If her voice is

I think them an infallible test of charac-ter and breeding. I have never seen a woman's face fair 'enough, or a man's strong and handsome enough, to redeem a disagreeable, badly modulated voice. It is not the untrained voice that prejudices me, but it is the quality, an indefinable something that interprets the inner life, something that interprets the inner life, three thousand miles away. She was frightened of us. She thought we were On Saturday the school took the first

something that interprets the inner life, revealing the rich, generously endowed nature, or the mean and deceptive one. I was not the only one who came under the spell of the musical voice and sweet personality. I don't think there was a man, woman or child—from the bronzed, grizzled captain to the one baby on board, who did not fall in love—with the lady to whom I lost my heart. There was an Englishman on board, who torturing her. "Her husband was a great, stalwart excursion. Burtt Church was the point of visit, being especially attractive as the In-dians were to celebrate St. Anne's rites on Norseman, and it was pitiful to watch them when he came to see her. But the time came when she did not know her who did not fall in love—with the lady to whom I lost my heart.
There was an Englishman on board, who have been as the guidence, and when she held my hand she younger son of a belted earl. He lost his heart and his eye-glass three days out.
The baby, the sweetest one of his "or-othere" arms but her's, except his mother's. I don't know what would have beeome of us if the passage had been a stormy one, for the captain lost his head and his heart, and he had a wife and grown up children in New York.
I have often been asked to describe her, but I never could, and I never thought of the grown up children in New York.
I think that when I first saw her the must have been fifty years young; 'no per the was a many little follow of the grown and the was a many little follow. the following day. The old historic chur

special music was rentered for the octa-sion. The sermon was preached by the rector, Ven. Archdeacon Forsythe, the text being Rom. I 20: "For the invisible things of Him from the creation of the world are clearly seen, being understood by the things that made even His external power and Godhead, so that they are without excuse." I think that when I first saw her she must have been fifty years young; no per-son ever thought of her as fifty years old. She had the lovliest silver grey hair I have ever seen. It waved above a broad, low brow, and the eyes were sometimes gray and sometimes hazel; and the rest of the time, especially in the moonlight, they were bright and black. None of us knew her social position. The discourse proved very intelligent and Monday evening Dr. Balley lectured in the school building on the "Geological His-tory of the St. Lawrence. The age of the country determining the position of Can-ada's most notable river was ably related. The afternoon of the following day the summer school was given a complimentary excursion on the stmr. St. George by Lt. they were bright and black. None of us knew her social position. That she was a lady to her finger tips and erace of manner that comes only to and grace of manner that comes only to go to sleep,' he said, 'and get strong, so that I can take care of my mamma. You see, nurse, my papa is—is in heaven,' and the whitening lips quivered, 'and there is only me to take care of her. Good night, Her friends, in spite of the smooth sea, did not show themselves until we were nearly half-way over, and when they did,

nearly half-way over, and when they did, we found they were very important per-sonages indeed. A group of us girls, be-fore they made their appearance, were dis-cussing one day "Woman's work, and her sphere," and one of the group, who felt her Importance (with a capital I), said that she thought it unwomanly for a woman to commete with men in such prowoman to compete with men in such pro-fessions as "medicine, nursing, type-writsound that he would never waken, if I did not see tears in the old man's eyes, it was ause my own were so wet 'My little boy saw his mamma 'in the

ing, stenography," etc. And then it was we found out that our sweet friend was a professional nurse. "I am a nurse," she said, "and I know of no work more womanly. All work is honorable," she said, "and only those who work—if they can—are entitled to re
