

FORTY-FIRST YEAR

KITCHENER, ONTARIO, TUESDAY, NOVEMBER 11TH, 1919.

SENATE APPROVES BOTH  
PROHIBITION MEASURES

Two Amendments by Senator Ross Defeated by 18 to 12 and 14 to 12.—Liquor May be Sold for Medical and Sacramental Purposes.

## ONTARIO WILL HAVE BONE-DRY PLEBISCITE

Ottawa, Nov. 11.—The Government's two prohibition bills passed the Upper House of Parliament before the prorogation of Parliament to-day.

The bill to provide for provincial plebiscites on the matter of the importation of liquor came in for the most criticism. An amendment, moved by Senator Ross, of Middleton, N. S., to defer consideration until the next session of Parliament, was negatived on a vote of 18 to 12.

Sensor Ross also moved the six months' hoist for the second Government bill to provide that liquor may not be manufactured for use in connection with the laws of a province.

Sensor Ross was strong in his condemnation of the second bill, more particularly the second clause providing for the prosecution of the shipper, He 000,000.

said a man could be prosecuted thousands of miles away from the district in which he resided. He said that such legislation would not have been tolerated in Russia in the days of the czars, although it would be quite in keeping with the regime of Lenin and Trotsky.

His objection to the other bill was based upon the contention that it should not have been brought into the Senate at a late stage and that it should be held over until the next session in order that everybody could be heard.

The bill to amend the Doherty Act was amended as to provide for the sale of liquor for medicinal and sacramental purposes.

The Senate during the day also passed the supply bill involving nearly \$63,000,000.

SEVERAL WELLS NEAR PLANT  
WILL ALSO BE PUT TO TEST

Besides a Number at the Plant, Where Air-Compressor Is Being Tried.—Petition For Service From East End Granted Conditionally.

## PROCEEDING WITH BRIDGEPORT PLANS

The idea of giving a thorough test to numerous wells by means of an air compressor, as has been done with several at the old plant, was suggested at the meeting of the Water Commission last evening.

There are several wells at or around the plant on Shoemaker Avenue which have not been in use for a long time. For example there is a well on Kehl Avenue near the brickyard, besides two other ordinary wells at other points near the old plant. Chairman J. C. Brethaupt, Commissioners C. Braun and R. Gorton and Mayor Gross thought that by all means a thorough test should be made of these wells in addition to the regular wells at the plant.

Incidentally, it might be said that when Chief Engineer I. Walker last evening was asked whether one of the wells at the plant to which the compressor has been applied is yielding a higher flow, he replied no. It averages about 172,000 gallons daily. However, this experience is only incidental in the steps that have been taken to give some of the wells a thorough test.

Aside from transacting the usual business the Commission last evening acted on a petition from the east end of the city for a water main. It was decided to lay a 4-inch main on Onward Avenue provided the street is graded or otherwise to lay and give a temporary service provided the owners

of the property pay the cost. The engineer will be instructed to proceed with the plans for the storage tank to be built in connection with the proposed Bridgeport scheme. The original site will be used. The Commission is having the plans for the whole proposed system proceeded with.

Gallons pumped at Shoemaker Ave. 21,051,000

Gallons pumped, Glasgow St. 7,784,000

Gallons received from Waterloo 17,194,375

Maximum gallons pumped per day 46,029,375

Average gallons pumped per day 1,647,000

The 4" main on Herlan Ave., from Strange St. to Walnut St. has been laid.

The building for the Strange St. plant is nearly completed.

FIRE ALARMS:

October 20th, 8.30 p.m. Box 31, Pressure 55 lbs., 29 Queen St. N.

October 27th, 12.05 a.m., Box 41, Pressure 55 lbs., False Alarms.

November 2nd, 4.55 a.m., Box 15, Pressure 60 lbs., Onward Mfg. Company

RETURNED AFTER  
PLEASANT TRIP

Away Down in Tennessee.

"The most important question before the people is the coal strike. It is a serious situation," Ald. W. V. Uttley, mayor managing editor of the Record, when asked about his three weeks' trip to Tennessee from which he has returned. Regarding the attitude of the public in this state towards the strike he said he found that they are not in sympathy with the attitude of the miners.

Interesting it is to note aside from the merits or demerits of the strike, or the reasons for the same, is the fact that expert miners get a minimum of \$12 a day, some even as much as \$18; unskilled get \$6 a day.

In regard to the prohibition question, Ald. Uttley was asked, that there are many blind pigs in the State. In one district, within a radius of five miles, he was informed, there are no less than twenty-five illicit stills. Opinion in the State on the prohibition question is divided.

During the period of the sojourn in the southern state, Ald. Uttley found the climate and atmosphere congenial and beneficial. Daily mountain climbing was enjoyed, as was also some golf.

Ald. Uttley was accompanied by his family and by Mr. and Mrs. J. Walter, who also have returned home.

NINE-YEAR GIRL  
SHOT BECAUSE  
SHE DIDN'T MOVE

ONTARIO, Nov. 11.—Because little Florence Taylor, aged nine, wouldn't move away from a Yonge Street shooting gallery, Thomas Cresswell fired at her twice with a 22-calibre rifle, the second shot hitting the child just below the left eye, and travelling back to her ear.

Friends of the little girl took her to her home at 284 Victoria Street, and afterwards to the Hospital for Sick Children, where the bullet was extracted and the wound dressed.

Passenger ship service between New York and Argentina will begin December 15.

## PEACE

Oh first of human blessings!

Fair peace! how lovely, how

delightful thou!

By whose wide tie the kindred

souls of men

Live, brothers like, in amity

combined,

And unsuspicious faith, while

honest toil

Gives every joy; and to those

joys a right,

Which idle, barbarous rapine

but usurps.

BROKEN HEADS IN  
FRENCH ELECTION

PARIS, Nov. 11.—The political campaign continues with unabated vigor throughout France. M. Brisson, one of the most extreme socialist deputies in the last chamber, who is seeking re-election, said at Moulins yesterday, "Peasants, the land is yours. You must take it. No more chateaux. No more landlords."

Although many riots and personal encounters have taken place, no deaths have yet been reported, but the reports mention many broken heads and hospital cases.

National Council of Women of France under the presidency of Madame Siegfried, wife of the former member for Havre, has issued an appeal to voters demanding the right of women to a vote. This will be placarded throughout the country. Absolute prohibition is one of the planks of their platform.

VICTORY LOAN TOTALS.

ONTARIO, Nov. 11.—Victory Loan totals at noon today give \$201,821,600 for Ontario and \$354,942,032 for the whole Dominion.

MEMBERS OF ONTARIO'S NEXT CABINET—Above are photos of six of the nine men who will constitute the U. F. O. Labor Government of Ontario, under E. C. Drury. On the upper left is Premier Ernest C. Drury, who will likely represent Centre Simcoe in the House. Immediately below is F. C. Biggs, U. F. O. member for North Westwot, who may be Minister of Public Works. On the lower left is Beniah Bowman, U. F. O. member for Manitoulin, whom Mr. Drury announced to have accepted the portfolio of Lands, Forests and Mines. Peter Smith, U. F. O. Labor representative of Perth, on the upper right, is the likely choice for the Treasury and Secretary of the Province. Walter Rolfe, leader of the Labor members in the House, and who is to be the Minister of Labor, is shown immediately beneath. Manning Doherty, whom Mr. Drury also named as next Minister of Agriculture, is in the lower right of the picture.

PROTEST AGAINST  
COMPULSION RE  
VACCINATION

(Special to Record.)

ONTARIO, Nov. 11.—At a meeting of anti-vaccinationists at the Westend Y.M.C.A. last night for the purpose of protesting against compulsory vaccination, it was decided to send a deputation to meet the City Council to-day and to call a public meeting at Massey Hall.

"Too many people are going to be killed if this thing isn't hit and hit hard," said Mr. A. B. Farmer this morning. He pointed out that in some cases one out of every 30 who had been vaccinated died, while the normal mortality rate for smallpox was about one in 100. He also said that the protestation movement was reaching greater proportions and that already \$150 had been contributed for educational and publicity purposes.

A committee composed of the following citizens met this morning at the office of Dr. E. J. Chattoe, 99 Shuter Street: Drs. Becker, Fraser and Baird, Mr. A. B. Farmer, G. J. Souey and S. B. Hender.

MONTREAL CAN'T  
FILL ALL ORDERS  
FOR WET GOODS

MONTREAL, Nov. 11.—Local shippers of alcoholic liquors are snowed under with orders from every point in Canada. Anticipation that the present order in Council which prohibits the importation of liquor for personal use will be automatically null and void when Canada officially signs the Peace Treaty within the next few days, has produced a tremendous demand for liquor shipments.

Cheques for advance payment are coming in by every mail. Every hour brings its quota of orders by wire. Apparently the heavy stocks laid in prior to April 1, 1918, by individuals were insufficient and cellars are obviously bare.

A sad surprise is in store for the waiting thousands all over Canada. Montreal houses have not sufficient stocks on hand. War-time legislation in the Old Country has cut the export of whiskey from Scotland down to 30 per cent of the normal amount. Brandy is scarce, and port wine is almost impossible to secure from Portugal.

The result is that many dry districts of necessity must remain very dry. Shippers are regretfully returning cheques and refusing to book orders.

BRITISH WORKERS FAVOR  
STATE CONTROL

LONDON, Nov. 11.—J. H. Thomas, the British railwaymen's leader, is supporting proposals for public ownership of the liquor trade. He states he would be bound to his knowledge of the working classes if he did not say quite honestly and firmly that prohibition would not be acceptable to them at this time. Therefore, they fell back on State purchase and control.

THREE-CENT STAMP  
ALONE NEEDED FOR  
LIQUOR ORDERS

License Board Officials Think  
Peace Proclamation Will Legalize Liquor Shipments.

(Special to Record.)

ONTARIO, Nov. 11.—Out of the mass of conflicting opinions concerning the prohibition situation as it stands at present in Ontario and Canada, the certainty appears to be emerging that an interregnum must occur between the expiration of war time restrictions and the taking of a plebiscite as provided for in the bill ratified by the Senate yesterday.

Authorities on constitutional law are fairly unanimous that the order-in-council, creating federal prohibition, expires immediately upon the official proclamation of peace.

The Ontario License Commission are either unable or unwilling to throw any light on the situation.

"We will be governed by the decision reached at Ottawa as to when the order-in-council expires," said Chairman Flavell today. He declined to express an opinion whether the order would be nullified immediately upon proclamation of peace.

Asked whether the commission would make a test case if liquor were imported into Ontario following the proclamation, he stated that this was a question for the Attorney-General to decide.

"We are prepared to do our share," he said. "The commission are of the opinion that Montreal liquor firms are within their rights in receiving orders for liquor shipments to Ontario, following the proclamation of peace. Even if such orders are placed through agents in Ontario, there is no violation of the law. The Commission have no positive knowledge that orders are being placed."

"Is there nothing to prevent the sending of orders?" "Nothing except the lack of a three-cent stamp," replied W. S. Dingman, Vice-chairman of the board.

Mr. Flavell declined to make any statement today with regard to statements appearing in a morning paper, which included an intimation that Mr. Flavell's resignation might be looked for daily.

CLEAN OUT ANARCHISTS

WASHINGTON, Nov. 11.—Deportation proceedings have been instituted in a number of cities to rid the country of the violent radicals caught in the nation-wide raids which have been in progress since Friday.

SHORT SESSION  
LASTED 71 DAYS

Parliament Prorogued Yesterday  
Afternoon After Session Which  
Lasted Twice as Long as  
Expected.

OTTAWA, Nov. 11.—Parliament prorogued at 5 o'clock yesterday afternoon after sitting 71 days. The ceremony was delayed half an hour by a last minute amendment to one of the prohibition bills.

Business in the Commons was practically concluded at 12 o'clock, and the House suspended until 3. A further suspension was declared until 4 o'clock. An hour was spent, largely in a discussion of generalities, exchanges of banter, and singing of old songs by the French-Canadian members on the Opposition side.

Ernest Lapointe, Quebec East, questioned the Government regarding the proposed imperial conference. This country should be represented by a Government which had the full force of public opinion behind it. The present Government, he declared, was not representative of public opinion, and he thought it should resign.

Hon. C. J. Doherty, who was leading the Government, assured Mr. Lapointe that his "pathetic appeal" would not go unheeded. The Government would devote very careful consideration to the matter.

At the morning session the Commons passed the supply bill amounting to \$62,000,000, and put through some minor bills.

At 5 o'clock following three resounding knocks at the door of the Commons chamber, the gentleman usher of the black rod arrived to summon the members to the Senate, where the governor-general gave assent to the bills which had been passed, delivered the speech from the throne in English and French, and dismissed the members. The Speaker of the Senate then declared Parliament prorogued.

## JUDGE MICKLE DIES

A NATIVE OF STRATFORD

(Special to Record.)

Winnipeg, Nov. 11.—The death occurred at Minnedosa last evening of Hon. Charles Julius Mickle, county court judge in the northern judicial district of Manitoba, aged 71. Owing to ill health, he was about to retire from bench. Last summer he went to Rochester, Minn., for treatment and though slightly improved was not given hope of a cure.

The late Judge Mickle was for many years prominent in Manitoba politics, having held the portfolio of Provincial Secretary in the Greenway Government. Later he became house leader of the Liberals in opposition. He had the distinction of never losing election. He was first elected to the Legislature of the Province in 1888 and subsequently at all general elections up to 1903. He was born at Stratford, Ontario.

FARMERS CONVENE  
TO ORGANIZE AS  
NATIONAL FORCE

Canadian Council of Agriculture  
Considers Calling of National  
Farmers' Convention.

(Special to Record.)

Winnipeg, Nov. 11.—The Canadian Council of Agriculture will convene an important three-day session here to-day. Following the recent political successes in the Federal by-elections, as well as in the Provincial Legislatures of Ontario and Alberta, the organized farmers through their central organization will now consider the problem of forming a national political movement which not only shall link up the farmers' organizations in different provinces, but shall invade as an independent force the cities and towns as well.

Reports of political developments in the provinces of Ontario, Manitoba, Saskatchewan and Alberta will be heard by the Council of Agriculture from representatives of these provinces.

The question of future policy will then be discussed and the proposal to hold a national political convention under the auspices of the present farmers' platform will be debated.

CLOSE SEASON  
FOR LICKINGS

(Special to Record.)

Toronto, Nov. 10.—"Catch-as-catch-can" methods of thrashing public school pupils are to be barred, if the suggested draft of new regulations to govern corporal punishment is approved by the Toronto authorities.

This draft is quite progressive in the direction of limiting "lickings" in the schools. It will be put before a conference of inspectors and principals on Friday of this week and a recommendation will then be sent on to the Board of Education.

Radical changes are embodied in the draft which is to be considered. Only female teachers are to punish girls. Rubber straps are not to be used on girls or boys under twelve. Pointers and private straps are positively barred.

In fact, everything possible is done to cut down corporal punishment. Frequent use of the strap will be regarded as a sign of a teacher's inefficiency.

Stormy Superior.

Sault Ste. Marie, Nov. 11.—A large fleet is anchored in the river waiting the subsiding of a storm which raged all day. The Whitefish Point Light-house reported the wind 55 miles an hour. Detour also reports a large fleet lying in shelter there until the weather moderates.

ECONOMY THE WATCHWORD  
FOR NEW ONTARIO CABINET

Drury Speaks at Massey Hall on Victory Loan. There Will be no  
Class Government.

## WILL WORK FOR BENEFIT OF COUNTRY

Toronto, Nov. 11.—While the Victory Loan advertised issue, Ontario's Premier, Hon. E. C. Drury, seemed to be the big attraction at Massey Hall last night. His platform mate was Hon. Arthur Meighen, Solicitor-General in the Unionist Cabinet.

As to the necessity of Canadians purchasing Victory bonds, United Farmer and Conservative-Unionist were in hearty accord. They disagreed on side issues. Mr. Drury heralded a pinch of hard times and Hon. Mr. Meighen declined to attach himself to that statement. Mr. Drury decried patriotism, while Hon. Mr. Meighen followed with the assertion that one must talk of one's patriotism or it would die.

What Drury Said.

Hon. Mr. Drury talked politics just a little. "Governments must in future be prepared to practise that economy which they call upon the individual to practice."

Ours will not in any sense be a class Government, and I wish to say further, speaking to a great gathering of the city of Toronto, that we are not out to get things for the farmer that the farmer should not have. We would hold ourselves as a failure if we

did not govern in the interests of every class, every legitimate interest in the Province of Ontario."

"I am not much given to dilating on patriotism. I do not believe in shouting about patriotism. The real thing in patriotism, as I understand it, is kept quiet. The things we feel most about in life we talk least about. No man brings out for public display the feelings that are to him most sacred. So I have never been, and I am not going to be, much of a hand at shouting patriotism, but I hope I will show in my public life that I am willing to live for the benefit of my country."

Mr. Drury uttered a warning as to the period of deflation. A "sober" people, however, surrounded by untold natural wealth, he said, could not help but prosper. He was glad that the "People's party" would govern during that period, commenting: "I think I may call it the People's party, representative of the farm and Labor and willing to take in everybody else that is like-minded, provided they do not come bargaining for Cabinet seats. There seem to be a lot of people like-minded if we only had Cabinet seats to go around among them all, which we have not got."

TWO-MINUTE REST  
ON ANNIVERSARY  
OF ARMISTICE DAY

(Special to Record.)

TORONTO, Nov. 11.—No repetition of shrieking sirens and an unstrained crowd throwing talcum powder and confetti marked the first anniversary of Armistice Day.

Instead, at 11 o'clock, a nation-wide silence for two minutes was observed. This morning, at that time, in all Canada every car, train, and factory wheel was hushed, every type of work silenced, every tool and pencil in every office and workshop in the country dropped, and in the deep silence, heads reverently bowed in memory of the dead in France and the hour that marked the close of the greatest war in history. With the exception of these two minutes, no other public celebration was held.

BRANTFORD MEN  
VISITED CITY

City Will Get F. W. D. Fire Truck

A Brantford delegation visited in the city yesterday afternoon looking in the matter of getting a F.W.D. motor truck for their fire-department. While here they met representatives of the F.W.D. company and, as the result of their conference the city of Brantford will probably purchase a F.W.D. machine.

The party consisted of Fire Chief Lewis, Aldermen Bragg, Chairman of the Fire and Light Committee, Aldermen, Harp, Burrows, Brenner and Simpson, all of the same committee. During their short sojourn here they called on Fire Chief Gues and the staff of the local fire department.

The Brantford Council is very interested in fire-department pointers. They have decided to inaugurate the two platform system and are increasing their staff at the fire-halls from 24 men to 35 men.

In regard to the equipment in Brantford among other pieces of apparatus there a Seagrave pumper and hose wagon and a big waterous motor truck.

BODY CUT IN TWO  
BY COGWHEELS

SIMCOE, Nov. 11.—Homer Waffle, Superintendent of the Simcoe Wool Stock Company, was instantly killed yesterday, his body passing between the two large bevel cog-wheels in the wheelhouse at the mill.

Just previous to the tragedy Waffle was a short distance from the wheels, endeavoring to ascertain the cause of a tremor in the shaft. A nearby workman, hearing a shout, turned off the water. The body was literally cut in two.

PREPARING TO START TO  
BUILD

The new housing company of the Dominion Rubber System is preparing to make a start, on building houses, this fall. Last evening representatives of the company held a conference with the Waterloo Council. This evening they meet the Kitchener Housing Commission.

## SHOULD FIRST CONSULT BOARD

H. C. OF LIVING DEPARTMENT WRITES IN REGARD TO  
INCREASE IN THE PRICE OF MILK IN THIS CITY

The Board of Commerce have noted that the price of milk has been increased in this city to consumers. They declare the producers should first obtain the consent of the Board.

The Department at Toronto wrote to City Clerk A. H. Miller to the effect that they had noticed in press dispatches that the price of milk was to go up, but they hoped it would not as the sanction of the Board had to be secured. This communication was received from the Department before the Clerk forwarded the City Council's request to the Board itself at Ottawa to have them investigate the increase.

In replying to the Department's letter, the Clerk embodied the Council's request to the Board. No reply has as yet been received from either the Department at Toronto or the Board at Ottawa.

SOFT COAL STRIKE  
ORDER RECALLED

Mine Workers Decide to Obey  
Mandate of Court and to  
Return to Work.

INDIANAPOLIS, Nov. 11.—The United Mine Workers of America through its general committee, decided early to-day to obey the mandate of United States District Judge Anderson, which means the recall of the order for the strike of 425,000 bituminous coal miners.

This decision was reached at 4:10 this morning after more than 17 hours' discussion. The conference then adjourned until 2 o'clock this afternoon.

Acting President Lewis of the Mine Workers made the following statement: "Gentlemen, we will comply with the mandate of the court. We do it under protest. We are Americans. We cannot fight our government. That is all."

A declaration of the Government's policy on dealing with the coal strike was announced by the Attorney-General at Washington yesterday.

He described the strike as a plain violation of a Federal statute, and announced that all the power of the United States would be started to enforce the mandate of the courts to recall the strike order.

RANEY NOT ASKED  
TO TAKE OFFICE OF  
ATTORNEY-GENERAL

(Special to Record.)

TORONTO, Nov. 11.—"Have you been asked by Premier Drury, or by any one for him, to accept the Attorney-Generalship of Ontario?" E. R. Raney, K.C., was asked to-day. "I have not," answered Mr. Raney.

Mr. Raney's name has been mentioned in the last week or two. His standing as a lawyer and his activity in social reform have commended him to those interested in the newer politics.

Mr. Raney's choice for the Attorney-Generalship is W. F. Nickle, K.C., of Kingston. "Mr. Nickle's appointment would be an admirable one," said Mr. Raney.

"If Mr. Nickle were to decline the office, what would be your position, Mr. Raney?" "That would be a new situation," he said.

NOT A STREET CAR  
LEFT IN TOLEDO

TOLEDO, Ohio, Nov. 11.—The city awoke to-day to the seriousness of the street car outer ordinance which was approved by a plurality of 811 votes last week.

Not a street car wheel has turned since 1:30 o'clock Sunday morning. There is not a street car in the city—every one having been spirited over the State line into Michigan.

At midnight Saturday the removal of the cars from the city's streets began. Cars were run in long trains to Toledo Beach, Mich., seventeen miles away.

The Brant Medical Council has applied to the Brantford General Hospital Board to establish a maternity ward.
