Potato Planter

Profitable for the large or small grower. Plants potatoes at lowest possible cost. One man operates it. Opens the furrow—drops the seed any distance or depth required—puts on fertilizer (if wanted)—covers up—marks the next row. Accurate, automatic and dependable. Sold with or without Fertilizer Attachment. Here's why you should select the Eureka Potato Planter:—Furrow Opening Plow is directly under the axle—that means uniform depth at all times; the seed drops in sight of driver; steel and maileable construction makes long life and few repairs. Made in three sizes, for one or two rows, by EUREKA MOWER CO., Box 788, Utica, N. Y.

Joseph Featherston & Son, Streetsville, Ont. Please meatien The Paperer's Vilve star,

Questions and Answers. Miscellaneous.

Separate School Support.

A, owning farm property and being assessed as a public-school supporter, sells said property to B, taking a mortgage for the greater part of price. B then has the property assessed to support a separate school. Can B legally do so, A holding the mortgage? If not legal, could A foreclose mortgage on B?

Ans.—He can.

Hen Sick.

Tell us the best remedy for a hen with a rattle in the throat. She stretches her neck up high when she does it. She does not eat or drink much. We tried putting a feather down her throat with coal oil on it, and again with fish oil. It didn't do any good at all. She is failing in flesh. She is a White Wyan-F. W. G.

Ans.-It will likely pay to kill the hen.

Feeding Horses.

1. Would you please tell me, through your valuable paper, what is best to feed horses, as oats are rather scarce. Have three heavy horses which we have no work for during the winter months, and would rather not feed any oats if we could get anything else that would be advisable to feed them.

2. Also have three light horses which do a considerable amount of road work. What would be best to feed them on? I have been feeding to the heavy horses about three pints of oat chop and about two quarts of oats to the light ones

Ans.-1. If you have good clover hay they should do with little oats. Why not try a little corn. It is cheap r than oats this year, and with good clover the horses should do well on it.

2. Would not advise cutting down the oats very much on light horses doing road work. Feed on timothy hay and oats, or a mixture of oats and corn.

Veterinary.

Fatality in Mare.

Valuable mare became sick, was treated for colic, and died in four days. A post-mortem revealed a hole as large as a 25-cent piece in the stomach. had evidently been there for some time, as it was partly healed all around. There were many bots sticking to the mucous membrane, and about four quarts of worms from six to twelve inches long in the stomach and intestines. There was a large quantity of reddish fluid around stomach and intestines.

1. What caused the hole, and how long will a horse live after such

Ans. 1. We are of the opinion that the mare saffered from colic or indigesthe howels and stomach, and as a result of effusion the large quantities of liquid

Made in Canada True to Its Name

It is actually the IDEAL Fence, ideal in every way. Every wire—line wires, the uprights and the locks are hard, springy, full-gauge No. 9 heavily and evenly galaxies. vanized. Every lock is on, and every roll goes up straight and true—no long wires to make the Fence sag, and no short wires to take up all the strain and then break. The spacing between the uprights is accurate and exactly as our catalogue states.

Rod for rod Ideal Fence weighs heavler than others. Extra weight means extra strength, extra life and extra value. Do not forget this when you buy Fence, and do not forget that our catalogue No. 4 contains valuable information and tells all about Ideal Fence and Gates and Ideal Fence Posts. It only costs you a postal card-Write for it to-day.
