This Medical College is situated near the University Buildings, and upon an eminence overlooking the City of Burlington, Lake Champlain, and the Adirondack chain of mountains. For beauty of scenery and salubrity of climate its situation is not surpassed by any institution of learning in the country. The building is of brick, well ventilated, and provided with two commodious lecture-rooms and amphitheatre, two large, well-lighted dissecting rooms, and in every way perfectly adapted for clinical and scholastic teaching. It contains a large museum, composed of a great number of Osteological and Vascular preparations, both wet and dry, and is open to the students during the session.

HOSPITAL ADVANTAGES.—The Mary Fletcher Hospital, now in progress of erection, will probably be ready to receive patients before the next regular session.

Clinical instruction in Medicine, Obstetrics, and Surgery will be given during the regular course of lectures by the Professors of the Medical Department of the University.

THE REGULAR WINTER SESSION will commence on the first Thursday of March, 1878, and continue sixteen weeks. This Course will consist of from five to six lectures daily, in the various Departments of Medicine and Surgery.

In order to render the course of instruction still more complete, six new Professorships on special subjects have been created by the Faculty, which will afford the student a rare opportunity for gaining information from gentlemen well known as recognized authorities in their particular departments on subjects of great practical interest. These lectures will be delivered during the regular session.

CLINQUES.—Besides these lectures, there will be Cliniques held as follows:—

- | | |
|--|--|
| SURGICAL CLINIQUE , by Prof. LITTLE, every Saturday, from 9 to 12, during the last half of the session. | CLINIQUE FOR DISEASES OF SKIN , by Prof. TAYLOR, once a week during his course. |
| MEDICAL CLINIQUE , by Prof. CARPENTER, on Wednesday morning, during first half of the term. | CLINIQUE FOR DISEASES OF CHILDREN , by Prof. ROBERTS. |
| CLINIQUE FOR DISEASES OF EYE AND EAR , by Prof. PECK, once a week during his course of lectures. | CLINIQUE FOR DISEASES OF NERVOUS SYSTEM , by Prof. HAMMOND, during his course. |
