

Lake Memphremagog to Newport and Magog. This is one of the most picturesque spots in the Province of Quebec, and the trip will carry the tourist through one of the most fertile portions of Canada, with scenery of mountain, lake, and river, fairly typical of what is characteristic of the province, and to be seen more especially in almost endless variety in the Laurentian district, which for want of time cannot be visited. A special train will be provided, which will enable the party to return in the evening. The steamer will accommodate about 800. Lunch will be taken at Newport, or probably at the foot of Owl's Head, if it is found that the hotel there can supply refreshments for the number expected to go. The excursion will be arranged for Saturday, and it is thought probable that for those desiring it, the privilege of remaining over Sunday and returning on Monday will be obtained. A trip is proposed to Shawenagan Falls, on the St. Maurice River, which is said to almost rival Niagara.

Among other local trips on different afternoons are a ride round the mountain on the electric cars, and through some of the more interesting parts of the city; a trip to the top of Mount Royal, where a luncheon will be served by the mayor and corporation of Montreal. The incline railway, carriages, or bicycles may be the means of arriving there; a trip down the St. Lawrence; another to St. Anne, and down the Lachine Rapids. It can be gained from what we have indicated that those going to the Montreal meeting will not only be benefited from a medical point of view by coming in contact with the leading members of the profession from Britain, the United States, and Canada, and taking in the various discussions and papers which may be expected to represent the most recent advances, but that they will also be fully regaled by a varied and full round of social entertainments and pleasure trips such as has not been privileged to the members of any previous meeting.
