

THIS COULD HAPPEN TO YOU

WUSC Proteges

by FRANK CAPPELL

Two Hungarian students, Lazlo Horvath and Gabor Altman, are attending Dalhousie this year under the auspices of W.U.S.C. Arriving in Canada last winter, they worked at Jobs obtained by W.U.S.C., and arrived at Dalhousie last fall.

Providing the necessary financial support is a fund made up of the \$400. profit from last year's variety show, "Istenhozzot" and the \$500. donated by the Students' Council. The University promised free tuition.

W.U.S.C. has enjoyed having these two students at Dalhousie, as has the entire University. Another concerted financial effort, however, will have to be made this term if the students are to return to Dalhousie next fall.

George Clyde Nowlan

George Clyde Nowlan was born in 1898 in Havelock, Digby Co. He graduated from Acadia University with his B.A. in 1920 and later from Dalhousie with his LL.B. He served as a private in the Canadian Army in the First World War. In 1922 Mr. Nowlan practised law in Wolfville

After returning to Korea in 1946 for missionary work, she was evacuated from Korea on a "furlough" in 1949. The same year the King of Denmark decorated her for "outstanding service to humanity". In 1953 Dr. Murray was placed in charge of the Severance Union Medical College Hospital in Seoul, Korea, where she is working today.

A great big welcome to Sam Peeps on his return to the pages of the Gazette. One missed his happy reminiscences during the past year and a half. To one who does not imbibe in the much vaunted sack, its refreshing to read (and reread) his comments. I heartily endorse his practice of "caning" his wretched wife. Alas, if only our wretched existence were as rewarding.

The Council is once again involved in financial troubles. One observes that the football team, after attracting more spectators per game than any other team in the league, lost money as a result of the NSFL's profit splitting policy. It seems the Tigers attracted one-third of the league's total attendance, yet received only one-fifth of the league's total income, or so the Council informs us. A situation which is disgusting to say the least. As I advocated in my column in the Gazette (Nov. 27, 1957, p. 3) in the best interests of all concerned, we shall have an Inter-collegiate Canadian Football League. Why should we support the Service teams, not only in their efforts to make fools of college students (who don't have the time nor the facilities to compete with such persons as the Royal Canadian Navy, but then turn around and support them financially. I have said it before:

the only way for a college team to survive in a league such as this is to demand a consideration. Our teams can't start training until September; this against service teams which have not only played several games already, but have been in practice since the past June. Perhaps the reason why the NSFL doesn't want the colleges to form their own league, is that the Golden Goose, which to me resembles a Bengal Tiger, may take its number one drawing card to the new league, and given time to strengthen itself among its own types, come back back and devour the presently cock-sure sparrows across the harbour.

To start the New Year right, or what have you, I hereby reprint,

So far this year we've had numerous opportunities to LIVE. The free dance in the Gym last week was well attended; the Tigers raised some more money for the NFCUS scholarship fund, and all had a good time, including Don Warner (Dal. '57), who never fails to Cha-Cha an audience into submission even with the added attraction of free food. Commerce week was as usual, a great break in the Moneyman's monotony. First year Law is in the midst of an essay, the likes of which has never been seen since English 2.

If you have a beef, and it's worthy of note, write me and I will stretch that great adage, "Freedom of the Press" to the breaking point.

I see by the papers that Sir Edmund Hillary's recent arrival at the South Pole was marred by obvious fact that a well travelled American had beaten him there. Tacked to the side of the Peppermint Pole the Yanks had erected amidst the wastes of the only divorce-free continent left, was the glaring notice that "KILROY WAS HERE." The aforementioned Kilroy is not, despite rumors to the contrary, the highly esteemed editor of this newspaper.

One note of compensation to the great Hillary. The little man hasn't climbed Everest yet!

Chalmer Jack MacKenzie

Chalmer Jack MacKenzie was born in 1890 in St. Stephen, N. B. In 1909 he graduated from Dalhousie as a Civil Engineer. In 1946 he was elected Fellow of the Royal Society and the following year awarded the Cross of the Legion of Honour by the French Government. In 1948 he became Chairman of the Canadian Atomic Energy Control Board. Mr. MacKenzie became President of the Atomic Control Board at Chalk River.
