## A Personal Message to the Readers of Farm & Dairy

MY heart and sympathies have always patinies have always been and I anticipate they always will be right with the rural people of Canada, amongst whom I was raised and educated and for whom I worked with so much pleasure and satisfact and the satisfact of the satisfact and lateras Advertises as Editor and lateras Advertises as Editor and lateras Advertises as through Farm according to the satisfact and sati been and I anticipate they

And so we have planned a great Birthday Celebration

articulars of which are announced to ne readers of Farm and Dairy in our ig advertisement on another page als week. Read it carefully.

this week. Read it carefully.

It is no arranged that every successful contestant will get a lovely prize. It is along that among the readers of Farm show, that is not successful to the persons lucky enough and cinchered the persons lucky enough and cinchered the persons lucky enough and cinchered to the bigger prizes—the \$500,00 cach prize at any rate.

Send in your answer tonish to be set of sood luck attend your along to be best of sood luck attend your along.

ance of inactial 100 wines gained ing.

Now is the time to organize a community study club. Some of the meetings might well be devoted to a study of garden flowers, shrubs and vegetables. "Better Home Surround vegetables. "Better Home Surround in a spanic that should be of

a study of garden flowers, shrubs and vegetables. "Better Home Surroundings" is a topic that should be of interest to all.

As soon as the cannas, dahlias, gladioli, etc., have been killed by the frost, dig and store the bulbs in a frost-proof place that is neither too dry nor too moist. The bulbs must not shrivel or start into growth. It is not shrivel or start into growth. It is not shrivel or start into growth. It is the first of the start of the start

The Farm Woodlot, by E. G. Cheyney, is the latest addition to the Rural Science series edited by L. H. Bailer. The author, Mr. Cheyney, is director of the College of Forestry of the University' of Minnesota, and his book is designed as a hand book to forestry for the farmer and the student in agriculture.

# PORK IS PORK!

Keep your hogs growing by feeding

Pratts, Animal Regulator

It has saved as much as thirty days' time in fattening and enables the owner to get more than the market price for his hogs. Your hogs will reliab their feed and grow fat quickly if "Your money back if not satisfied"

25-lb. pail, \$3.50 also in packages at 50c. and \$1.00 at your dealer's.

PRATTS Werm Powder, being purely vegetable, has a strong tonic effect.

# One Day with CXL Stumping Powder

On every farm there are hun-dreds of odd jobs that can be done quickly and with little ef-fort by using CXL explosives.

Let us show you how to save time in digging post holes, ditches and cellars; sinking wells; planting trees; grading;

Canadian Explosives Limited, Montreal - Victoria

draining; breaking up bard-pan; blasting stumps and boul-

ders, etc., etc.
There's a CXL Explosive for every blasting purpose.

Send for free booklet, "Farming with Dynamite."
