

Tobacco Production in Norfolk County.

THE FARMER'S ADVOCATE:
Cured tobacco has been produced for the first time in this season, samples compared with the best grown in Leamington, South, districts in Essex. The production of this type in Canada has been exclusively in the Virginia leaf. The Virginia leaf in Norfolk County is far superior in texture to the tobacco grown in those districts this

quality of this type of tobacco upon the soil conditions, available land suitable for the production of first-class Virginia tobacco is up for its production. The supply of this type of tobacco is below the demand, and it is good prospects for the future in Norfolk County.

In Norfolk County are the production of this type of tobacco in those districts where the tobacco is produced, there is a demand for fuel and building material gas is also available, thousands of acres of land are available for the production of Virginia tobacco of first-class quality. Most of the tobacco which produces but an average of 100 lbs. per acre, at present prices, a crop of tobacco averaging \$500 per acre.

The curing of this type of tobacco is usually built small and tight, and across a short distance and returning to an outlet at the furnace, the barns are 24 feet square, and the heat to the plate. The tobacco in the barn is as fresh as when it is fired immediately, the heat will ascend into the leaves are stiff, and will be evenly distributed space. From three and a half to four weeks are needed to cure out a crop of tobacco, and a condition of the tobacco

and rules are written of the curing of Virginia tobacco of those formulas or a beginner a general idea is controlled during the curing but it is advisable for the first time, to have the tobacco cured in a practical manner. STEPHEN MCKENNA

News From Britain.

on Dairy Show, which entries of all kinds, and mainly, the Friesian won the championship for milk and butter. The 50-cow gaining the highest trials in the milking trials, Wallace's Inwood Maggie, which averaged 7½ lbs. for two days. Her milk weighed 41 lbs. 2 ounces, butter-fat percentage, 5.1, milk scaled 34 lbs. fat percentage of 4.92. Reserve for this champion-breed won other inspection classes the inspection made a brave away from the too size and are "stitution" at the cost of £100. In dairy Shorthorns won by Lord Wimborne's in Fitzherbert Wright's and J. Chiver's Fawnley blood and the Noble blood the fore among Jerseys. The Sudbourne blood is

Sh-bred Percherons were the other day for 13,245 guineas. The price was 720 guineas for Harrison (Stafford) for an old mare, Quolline, a 600, 560 and 400 guineas. Shorthorns have been hammer in Scotland for an average of £332 per head. ALBION.

"No Nation Can Rise Above The Level of Its Home Life"

RAISE the standard of living in the home and the standard of the nation rises with it.

Canada was one of the first countries to respond to the now world-wide movement to beautify the home. And there are no people in the world who are in a better position to afford and to appreciate the best and truest things in life than we in Canada.

Furnishings Mould Character

The important part that the furnishings of the home play in moulding character and developing a true pride in family and in race is better understood today than a few years ago.

How are children to be led to appreciate the solid, substantial things in life—the beauties of art, the love of good literature, the desire for culture—unless they have the proper surroundings in the home?

Improve the Home

Beautify the home with furniture that is designed on truly artistic lines. Make the home a place of cheerfulness, refinement and restfulness. Make it breathe warmth and heartiness. Make it truly hospitable, solidly comfortable—a home that inspires interest in all that is good and worth while in life—and it will mould character and develop true pride in family and in race.

To procure furniture that will elevate and make the house a home of which you can be justly proud does not call for extravagance. Good taste is more necessary than a large expenditure of money.

There are beautiful suites and individual pieces of furniture obtainable at moderate cost, which are true works of art, many of them being correct adaptations of the designs of the "old masters" who created the "Period Furniture" so much in vogue today.

A "Queen Anne" Room

As a suggestion, study our sketch of a "Queen Anne" bedroom. It shows the beautiful and refined effect obtained by the selection of an artistic suite of bedroom furniture.

Just two or three pieces of artistically designed furniture will raise the level of an entire living room. And by gradually adding other pieces and suites in the different rooms, you will, before long, work a magical transformation of the home.

A Finer and Greater Nation

Every advance in refinement and culture, every improvement in the home surroundings, every influence that raises the ideals of home-life, makes the nation that much finer and stronger.

We are living in progressive, prosperous times in a country with a glorious future, therefore, Canadians have every incentive and can well afford to beautify their homes with new and better furniture.
