

WHY SHOULD A FARMER BUY A STRONG, DURABLE CREAM SEPARATOR?

Because he is miles away from the repair shop. Repairs mean loss of milk and cream, loss of time going for repairs, loss of money paying for them, and loss of temper. To avoid these losses look closely into the build of the machine you think of buying, and when you find the stand light, a worm gear drive, thin metal parts, you know it cannot do its work twice a day for any length of time without repairs, and will collapse entirely in a year or two.

Compare any machine made with the MAGNET'S strong, solid frame, square gears, large heavy steel bowl, with two supports, top and bottom (MAGNET patent), one-piece steel skimmer, extra strong, easily cleaned. MAGNET Brake stops the machine in eight seconds without injury to machine.

All metal parts coming in contact with milk covered with pure tin, and we know you will buy a MAGNET if it costs a few dollars more at first—it will be the cheapest.

Eleven years' use has shown no wear, and that it is the easiest to clean, easiest to turn, children of eight years can operate any size, and that it will skim perfectly for fifty years.

The MAGNET is fifty years away from the scrap heap.

**Spray with the
EMPIRE KING**

IT TAKES precedence over any other spraying machine made. It is not enough for a pump to simply squirt water. Our KING is a combination of three machines in one: while it maintains a strong, steady pressure on the nozzles, it also keeps the liquid in the tank thoroughly agitated, and with each stroke of the pump-handle it cleans the suction strainer twice. Brass cylinder, plunger and valves secure greatest strength, long life, and freedom from corrosion. Every consideration urges it as the best pump. We also manufacture the Monarch, Garfield Knapsack, and many other kinds and sizes of sprayers. Write for our excellent book on spraying formulas, etc. Mailed free.

**EUREKA
SANITARY CHURN**

There's no comparison between the ordinary wooden churn and the "EUREKA". Barrel is stoneware—top is clear glass. Besides being absolutely sanitary, the glass top enables you to see how the churning is coming along without opening the churn. The "EUREKA" is the easiest churn on the market to operate. By tilting back the frame until the weight rests on the wheels, the churn can be quickly and easily moved—while the barrel remains upright.

If your dealer does not handle the "EUREKA," do not take a substitute but write us for catalogue.
