This Cylinder Shows Why The "EUREKA" Root Cutter is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds — thin narrow strips — suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

The Angle LAMP

AN IDEAL CHRISTMAS GIFT

OUR PROPOSITION

is to send you a light which, burning common kerosene (or coal oil), is far more economical than the ordinary old-fashioned lamp, yet so thoroughly satisfactory that such people as ex-President Cleveland, the Rockefellers, Carnegies, Peabodys, etc., who care but little about cost, use it in preference to all other systems. We will send you any lamp listed in our catalogue "19" on thirty days' free trial, so that you may prove to your own satisfaction, that the new method of burning employed in this lamp makes common kerosene the best, cheapest and most satisfactory of all illuminants.

A LIGHT FOR COUNTRY HOMES that is convenient as gas or electricity. Safer and more reliable than gasoline or acetylene. Lighted and extinguished like gas. May be turned high or low without odor. No smoke, no danger. Requires filling but once or twice a week. It floods a room with its beautiful soft, mellow light that has no equal.

Write for our catalogue "60," and our proposition for a 30 Days' Free Trial.
