

Don't slip up on that silo you are planning to erect this summer

Get your order placed now for an
IDEAL GREEN FEED SILO

LAST YEAR THERE WERE A lot of farmers who said they were going to put up a silo, but who didn't because they waited so long that before they realized it harvest was upon them and they couldn't get the time.

THEN THERE WERE A NUMBER of others who didn't get their orders in until late, and of course they all wanted silos at once, and they had to wait until after the first frost had come before they could get their silos up and ready to fill.

THE REASON WE TELL YOU this is because we don't want you to be disappointed if you are planning to erect a silo this season.

THIS IS GOING TO BE OUR biggest silo year. We have almost twice as many silo orders on our books now as we had at this time last year. It seems as if everybody was planning to erect a silo, and they all want "Ideals." We don't want to disappoint any one, so if you are planning to put up an Ideal Green Feed Silo this season we would suggest that you get your order in promptly.

THERE IS A BIG ADVANTAGE in getting an early silo delivery. It gives you an opportunity to get your silo foundation ready and put the silo up in the slack spell between haying and harvest. If you wait until the last minute before ordering your silo you will

run a big chance of not being able to get delivery at all; or if you do get late delivery, of having to hire extra help to assist you in putting it up.

REMEMBER, THAT YOU WILL never begin to make the profit you ought to from your cows until you start to feed them silage. No cow owner or stock raiser can afford to get along a single year without a silo.

WHATEVER YOU DO, DON'T let the matter of cost of the silo stand in your way. It has repeatedly been stated by some of the best posted authorities on farm economics and by the most successful dairymen that even if a cow owner had to buy a silo every year he would still be money ahead. When you take into consideration that an Ideal Green Feed Silo if properly erected and given reasonable care will last from twenty to thirty years, you can see it would be a very profitable investment for you.

AS TO WHAT SILO TO BUY—If you get an Ideal Green Feed Silo you can be sure that nowhere can you buy a reliable and serviceable silo cheaper, and that no matter how much more you pay you cannot buy a better silo than the Ideal.

THERE IS PROBABLY A De Laval agent in your town who will be glad to quote you prices, terms, etc. If not, an inquiry sent to the nearest De Laval office will receive prompt attention.

Be sure to send for
FREE SILO BOOK.

De Laval Dairy Supply Co.
Limited
