## The Pedlar People Limited

OSHAWA  
OTTAWA

MONTREAL  
LONDON

TORONTO  
WINNIPEG

Established 1861

Manufacturers of the Big "George" (24 x 24) and "Oshawa" (16 x 20) Fourlock Steel Shingles, Roofing, Siding, etc.

The first cost is the biggest cost of the Ford---and the smallest cost of any other car because of the after-expense. The Ford is the one car you can drive at less than "horse-and-buggy" rates. Thousands drive the Ford at less than two cents a mile. It's the "cost-to-keep" that counts.

Runabout \$600. Touring Car \$650. Town Car \$900—f. o. b. Ford, Ontario. Complete with equipment. Get catalogue and particulars from any branch, or from Ford Motor Co., Ltd., Ford, Ont.

When writing advertisers please mention this paper.

Whether your hay crop is heavy or light

## YOU NEED A SILO

If you have a heavy or satisfactory hay crop and buy a silo and make silage, you can sell your hay and feed your cows silage and you will find that, in the first place, your cost for fodder will be 15 to 20 per cent. less than if you fed your cows hay; and in the second place, your milk flow will be a good deal larger.

If, however, you have a light hay crop but have silage to feed your cows, you won't have to buy any hay or sell some of your cows because you haven't enough feed, because you can feed them silage if you have a silo, and not only will they give a good deal more milk than they would on a hay ration, but you will find that they will come out in good deal better shape in the spring.

Another big advantage in raising and feeding silage is that you can keep more cows on the same number of acres, and derive a larger profit from them.

Furthermore, corn for silage is the surest and most dependable crop that the farmer can raise. Less affected by weather conditions than any other crop, it doesn't make much difference whether the weather is wet or dry when you come to harvest it.

### The Ideal Green Feed Silo

is so well known and so well liked by Canadian dairymen that we do not feel it is necessary to say very much about it.

The fact that it is a product of the De Laval factory is in itself an assurance that the material and workmanship are high-grade in every particular, and if you will talk to any one in your neighborhood who has an Ideal Silo, or will look over the construction of some Ideal Silo put up by one of your neighbors, you will surely appreciate the excellence of its construction and the quality of the material from which it is built.

If you are still hesitating whether or not to purchase a silo this year, please keep in mind that if you wait much longer you may have a good deal of trouble in getting delivery in time, because we have had a great rush of silo orders this summer, and those who get their orders in late may have to wait.

There is probably a De Laval agent in your town who will be glad to quote you prices, terms, etc. If not, an inquiry sent to the nearest De Laval office will receive prompt attention.

Be Sure to send for FREE SILO BOOK
