What They Did Not Resemble.

Smythe—That drummer that I met
last night told some of the best stories I
ever heard.

Mrs. Smythe—Well, if they, were so
good, what were they like?

Smythe—I couldn't say exactly, but
they certainly weren't like tracts.

EDUCATIONAL ECHOES.

The average salary of a Russian school-
master is \$6 a month.

The number of university students com-
pared with population is greatest in Spain
and Belgium.

An article in the constitution of Massa-
chusetts prohibits the appropriation of
state money to sectarian schools.

Over \$20,000,000 has been invested in Chi-
cago's public schools. Their maintenance
costs from \$5,000,000 to \$6,000,000 a year.

The Swedish Lutherans in America have
over 1,100 students in their three colleges
at Rock Island, Ill.; Lindsburg, Kan., and
St. Peter, Minn.

The fellows of Balliol have chosen to go
outside their own walls for a master and
have elected Mr. Edward Caird, professor
of moral philosophy in the University of
Glasgow.

CROWN AND SCEPTER.

The Princess of Wales is in her fiftieth
year.

Marie Antoinette's chief delight was in
weaving a small blush rosebud into the cor-
ners of her handkerchief.

Ex-King Milan of Servia has again come
to the end of his financial tether. Since his
abdication he is alleged to have spent near-
ly \$5,000,000.

The Duchess of York is still receiving her
wedding presents, the latest being a gift
from the ladies of Surrey, through the
Countess Lovelace, of a double seated Hoop-
er brougham.

Look Ya Toe, the king of Siam's eldest
son, who was proclaimed heir to the throne
in 1887, is about to enter as a student at the
University of Oxford. He is 17 years old
and a bright and intelligent lad.

Another American girl was married to an
English count recently. Uncle Sam can
supply the entire nobility of the British
isles with lovely wives if necessary and
then have enough left to insure the fondest
hopes of this nation.—Pittsburg Dispatch.

Another fair American has joined the
ranks of the nobility. At this rate it will
soon be as appropriate in Europe as in
America to speak of the "foreign peerage."
In the meantime, perhaps an infusion of
brisk American blood will put more life
into that languishing institution.—Balti-
more American.

What lends a peculiar interest to the lat-
est international marriage is the fact that
the young American woman in the case
who has become the Countess of Essex is
not rich. Her income is said to be only
\$4,000 a year. It is safe to infer, therefore
that she was wooed and won for her beauty
and loveliness. She possesses these in pro-
fusion. All happiness to the fair!—Boston
Herald.

Dagan's White Mountain Ice Cream.

The Chase Metallic Roof-Plate.

POINTS OF SUPERIORITY:

A Metallic Conducting Plate, covering the
roof of the mouth.

Thickness and perfect adaptation of the same.
The accuracy of adaptation to that portion
of the alveolar ridge with which the rubber or
celluloid comes in contact.

A plate when made by this method is much
lighter than an all gold plate, hence more
pleasing to the patient.

The metallic roof-plate cannot become de-
tached from the rubber, as the peculiar con-
struction renders it impossible.

It is one of the most cleanly, durable, com-
fortable and beautiful dentures ever devised.

The metallic plate can be reswaged in case
of absorption or shrinkage of the mouth, thus
saving the expense of new metal.

These plates can be fitted to any mouth,
however irregular or ill shaped.

Enunciation is much better than when the
roof of the mouth is covered by a rubber or cell-
uloid plate.

Perfect conduction of heat and cold, there-
by preventing inflammation of the mucous
membrane.

The peculiar and original method of making
these Plates renders it possible to give to
the patient the advantages of both a
Metallic and Rubber Plate at a
price within the reach of all.
