

Taganrok Russian Wheat

is the finest grain in the world for the manufacture of paste products, and it is for this reason that Felix Codou of Marseilles, France, used it when he first began the manufacture of

CODOU'S

Vermicelli, Spaghetti,
Macaroni, Fancy Letters
and Figures

and also the reason why these same products continue to be manufactured from the grain. It is particularly adapted to this use and produces the very best results. Particular people insist on "Codou's." Why not specialize on this brand and push it as a money-maker? It gives perfect satisfaction.
