## Formosa. TAKE Norice !- Anybody found in

Mark Frank's rhubarb patch will be prosecuted according to law. The great quilting was held in Cul-

ross last week. There was quite a numler of the young people from Formosa invited and as there was no livery in Formosa they borrowed a young horse from the harness maker and another well broken animal. Everything passed off well until returning home, when the horses got nneasy, and as Willie was holding the bridle, Alois was hanging on the lines, and off the horses went. They arrived home safely, but the majority had to walk. Now this would not have happened if Willie had

Christian Endeavor.

The Christian Endeavor society met on Tuesday evening in the Presbyterian church. Rev. Mr. McBain occupied

The topic for the evening was, "En thusiasm; and what it will accomplish," 2 Chron. 29: 1.11; 81: 21.22. Rev. Mr. McBain opened the subject by giving a rousing address on the power of enthusiasm. No great work in the world could be carried to a successful issue without enthusiasm. While world approved of enthusiasm is politics in business, yes even in our amuse ments and sports, yet enthusiasm in religion was a thing to be shunned. This was all wrong. If anything in this world is worth being enthusiastic about it is the religion of Jesus Christ. When we consider what it does for fallen humanity, surely we should as Christian Endeavorers be enthusiastic in our efforts to build up a loving, Christ-like character, to invite others into the fold of Christ, and to be helpers of each others faith. The members followed in ed to be in danger. After the second most profitable and enjoyable meeting. The subject for next week will be, Teachings from Caleb's wife," Numbers 13: 80-88; 14: 22-24, 30; Joshua

14:14. Leader will be, Miss J. John-PRESS COM.

## Horseracing at Agricultural Fairs.

Several application having been made to this department by various Agri cultural Societies for an interpretation of section 29 of The Agriculture and Arts Act, 1895, the following is given to the officers and directors for the guidance as being the evident intention of the Legislature when passing the Act. By section 9 of the said act, the object of such societies, as relating to live

stock, is confined to two things, (a) the Shoes, and as you are all aware that purchase of importation of valuable animals, (b) awarding premiums for hat none of the funds shall be expend-

Agricultural Societies will rigidly and cheerfully enforce the regulation as thus set forth.

#### JOHN DRYDEN, Minister of Agriculture.

## Trip up the Great Lakes Continued.

Hilton is a port of St. Joseph's Island There are only a few houses situated on the shore but further back we noticed a G. Dugan. He says that St. Joseph's There are some people working on the land in the country. The farmers are and off, but on the whole I noticed making good progress, raising outs, and off, but on the whole I peas, hay, potatoes and even wheat, not let his mind be run away with and he thinks that ere long this will be one of the finest crop raising islands in Lake Huron. There is lots of maple beach, hemlock, pine and many other varieties of wood. The saw mills are booming and there are already eight in number. In order that the inhabitants of the island be successful in future the town and country people often meet and converse on the means and ways to be adopted to make St. Joseph's island the island of the country. He also told

me that the Government will soon supply them with a boat in order to have direct daily communication with the jun. C. P. R. on the main land.

Richard's Landing is the pioneer port of the Island and as the land on both

sides is getting closer the current of the water becomes stronger. Vessels of every description and of all sizes are passing by, others are overtaken. Long poles are noticed all along the water to keep the vessel in its proper bounds. In spite of all the precaution taken our vessel struck twice, one time it was lifted about a foot. A shriek was heard by many on board. The machines

stopped working and everything seem to work again the same as if nothing had happened. Our boat passed on and

arrived about 2 o'clock at Larden River. The sceneries on every side kept me from landing and consequently I can say nothing of the place itself. The steamer here runs through a beautiful stretch of water and scenery, which is

so to speak, a crowning panorama of beauty to the voyage.

Finally on Saturday afternoon about t o'clock we arrived in good condition at S. Ste, Marie.

The distance from Owen Sound to Sault Ste. Marie is stated to be, followthe different ports, 429 miles and if one had the pleasure of making the trip with the beautiful S. S. Majestic he would feel at the end of his journey that his money was well spent. This the guest of Miss Hooey last week. steamship is well equipped for tourists as it possesses all the latest improvements in science and art. The cost of

work will be completed. The town is lighted with electricity and has a number of very fine buildings. The See has not of late made rapid

progress. The principal street is over 2 miles long, on which the houses, even in the business centre are mostly a distance apart. The roads are knolly and generally in a bad condition. streets are not even watered and consequently the dust raised on a stormy village, the size of which we could not that the town itself at the present time day is almost suffocating. It seems determine. I met here with one of the depends more on the support of the

Darning's Corner.

The harvest is pretty new through in this neighborhood. The farmers are making ready to sow fall wheat.

John Carle, who was hired at John Darling's, started for Carnduff, Manitoba. He has hired Thos. Mundle of Turnberry, to fill his place in his absence

Mr. Henry Woods, who has been at home ill for some time past, has resumed his work at Mr. Adam Darling's

Fred Shoemaker, Thos. Inglis' hired pan, is at home on the sick list just

Miss May Dustow is attending Hariston high school.

Mr. Sanderson, cattle dealer of Wroxeter, was in the neighborhood this week and bought a number of cattle, sheep and lambs.

A gentleman from Toronto is visiting with Joseph Halzley, sr. Wonder what he is after.

Felix was at Mildmay last Saturday and bought one of Hinsperger's celebthe same line, and altogether had a touch, however, the machines began rated buggy tops and a flynet for his horse. There must be something in the wind.

### Belmore.

Wonder why John pever comes to town now. More attraction down the gravel a mile or four away.

Misses Mary Hooey and Ella Neill went to Harriston to attend high school there: These two are Mr. Hartley's pupils, and we would be pleased to see them succeed.

As the nights are getting long now and the farmers are getting through with the harvest, the will be more time to gossip on the corners.

Mr. W. Johnson, who has been attending McGill college, Montreal, was
