A recent circular from the Registrar General's Department, Toronto, directs the clergyman before conducting a funeral service, to require the production of the "burial permit" and requests the clergyman to report direct to the Registrar General any failure to produce the same.

The list of municipalities in Ontario which will vote on the local option by-law in January has now passed the hundred mark. Of the 101 now in line 35 are incorporated towns. The total number of liquor licenses affected is almost three hundred. All of these places with the exception of five gave majorities for prohibition in the referendum.

To Move Off a Colder—Cough mixtures "dope" a cold—but don't cure. Above all else keep the bowels regular and stimulate the eliminating organs. More valuable than any cough syrup are Dr. Hamilton's Pills. They clear the system of every trace of cold—the dull headache, aching limbs and cough disappears. Take the pills before retiring, they work while you sleep, and by morning your cold is broken and passes quickly away. All dealers sell Dr. Hamilton's Pills in 25 ct. boxes.

A sad case occurred in Culross on Sunday last. Mr. Wm. Goble, who resided with his brother, has been of late in very poor health, and becoming despondent, on Sunday last he ended his life by shooting himself. We are informed that he suffered much from a very painful disease.

At a certain fair, in one of the side-shows, the principal performer was a knife-thrower, who made a specialty of throwing knives all around a lady into a board at the back of the stage. The partner of this artiste was middle aged, stout, and well,—very plain, and when she came on the audience gasped. They had not thought it possible for any one to be,—well, so plain and live through it. The man arranged her to the board and the critical moment threw the knife. It flew through the air and struck quivering in the board. Voice from back—"Great Scott! You've missed her."

Are You Sleepless, Nervous?—Two horrors crowded into one life—the product of poor digestion and a poisoned system. There is just one cure for this terrible condition—plenty of food—but mind you, food properly digested; that's the difficulty, to improve the digestive power of the stomach. Get rich nutritious blood, strengthen the system and drive out poisons—then comes vitality, endurance, power. Ferrozone does all this and more, it makes sick people well, weak people strong, changes "nerves" and insomnias into robust health. Take Ferrozone and health is yours. 50 cts. at all dealers.

Owen Sound, Dec. 20.—On Wednesday morning Mrs. James Cathrea, of Sydenham Township, near Walter's Falls, killed and prepared a quantity of fowl for the Christmas market, and in so doing, used a roll of lighted paper to singe the down after the birds had been plucked. The operation was witnessed by her two-and-a-half-year-old son. That same evening when Mrs. Cathrea went out to do the milking she left her son with his sister, eighteen months of age, in the house, and during her absence, the little lad got a roll of paper and lit it at the fire and undertook to imitate the morning's operations by holding the burning paper to his sister's clothing. When the mother returned shortly after she was horrified to find the little one terribly burned about the body, and in half an hour death ended its sufferings.

Are You Subject to Colds?—Then don't load your stomach with cough syrups. Send healing medicine through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Catarrhazine, which cures a cold in ten minutes. Even to the lungs goes the healing vapor of Catarrhazine—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhazine follow. You'll not have colds, nor will you suffer from sniffles, bronchitis or throat trouble if Catarrhazine is used. Get it to-day, 25 cents and \$1.00 at all dealers.

It is said that hard times and the scarcity of work have also had the effect of filling up the county jails and prisons of the province. Last week there were 185 males and 34 females in Toronto jail, 60 of the inmates being Central Prison prisoners. A year ago at this time, there were 115 male and 27 female prisoners.

Dr. Easton, assisted by Dr. Ross of Clifford, performed an operation on Mr. Fred. Dietrich, the victim of the shooting accident last week, in the hope of locating and removing the bullet. They were unsuccessful in this, however, but struck a sack of pus, which oozed out freely, and from the escape of which the patient felt great relief. If, however, this relief is not permanent, the local physician intends to use an x-ray apparatus to aid him in locating the bullet.—Aytan Advance.

When the Stomach Heart or Kidney nerves get weak, then these organs always fail. Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test.—J. Coates.

An inspector, visiting a Canadian school, was very much worried by the noise of the scholars in the next room. At last unable to bear it any longer, he opened the door and burst in upon the class. Seeing one boy, rather larger than the others, talking a great deal, he caught him by the collar, carried him up to his own room, and banged him down into a chair, saying: "Now, sit there and be quiet!" A quarter of an hour later, a small head appeared around the door and a meek little voice said: "Please sir, you've got our teacher."

Is Your Chest "Wheezy"?—Tightness and wheezing means your trouble is deep-seated. To delay is dangerous. Inflammation must be drawn out at once Rub the throat and chest with Nerviline, and put on a Nerviline Porous Plaster. Relief comes in on hour. The counter-irritant effect of the plaster relieves the tightness and strain, draws out the soreness, eases the pain. The penetrating qualities of Nerviline enable it to soak to the very core of the trouble, and you experience a feeling of warmth and relief that proves the danger is past. For weak chest, sore throat and tendency to colds, the Nerviline Treatment beats all others, try it.

An assault and battery case was being tried in a local police court and the evidence was being heard. Larry Ryan was giving his version of the mix-up in which his friend Grogan was kicked in the "small o' the back." In seeking to extract facts from the loquacious Larry, who insisted on ringing in all kinds of side issues, the magistrate lost all patience and sought to wind up Larry's evidence by saying: "Well, well, that will do! The sum and substance of it all, Ryan, is that you saw Grogan kicked in the fracas." "Well yer worship," said Larry in a somewhat puzzled tone, "not exactly, it was a little higher up than that."

## WANTED REVENGE.

A stupid-looking fellow sauntered into an iron works, and asked the first man he met for work. For a joke the workman pointed to an old grindstone, which had long been out of use, and said:—

"Yes, I think so. Turn the wheel of that stone." The man commenced at once, and tried at his useless job for some time, but eventually went up to the man and said, "Hey, I've gotten sick of this job. Pay me up." "No, I can't do that," was the reply, "you'll have to wait. Go back to work." The man would not, and after begging a long time without avail and becoming angry he said, "Well, if th'at'll no' pay me up, I'll hac my revenge and turn it back again."

Trial Catarrh treatments are being mailed out free on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by J. Coates.

Since winter set in there are almost daily reports of persons having their clothes set on fire while using coal oil to start a fire in the stove. The practice is dangerous only when there is fire in the stove and oil is used to quicken it by pouring the oil into the stove from a can. When that is done there is almost sure to be trouble. If oil must be used (and it is often very convenient) care should be taken that there is no fire, or instead of pouring the oil into the stove, saturate a piece of waste cloth with the oil, put this in the stove and ignite it.

## A DISCOVERY OF GREAT VALUE.

BECAUSE A CURE WAS FOUND FOR INFLAMMATORY RHEUMATISM.

There are many types of rheumatism but none worse than inflammatory. It was this kind that nearly killed Mrs. Edw. Warman of Kent Jct., N. B.

Every known remedy she tried, different doctors gave their advice, but the disease increased.

Weak and despairing she was at her wits end when the remarkable cure of Thos. Cullen was published. This gentleman was cured of rheumatism by Ferrozone. Consequently Mrs. Warman used the same remedy. Here is her statement.

"For years I have been rheumatic. I tried various forms of relief without success. The disease increased, settled in my joints and muscles; these swelled, caused excruciating pain and kept me from sleeping. My limbs stiffened, my shoulders were lame and prevented me from working. Week by week I was losing strength and despaired of finding a cure. It was a happy day I heard of Ferrozone. Every day I took Ferrozone I felt better; it eased the painful joints, gave me energy and a feeling of new life. Ferrozone cured my rheumatism, cured it so that not an ache returned. Even damp weather no longer affects me."

By removing the cause of the disease and building up a reserve of energy Ferrozone is certain to cure. Sufferer, isn't it about time to stop experimenting? Ferrozone is a Cure. We guarantee this. Sold by all dealers, 50c. per box or six for \$2.50. Remember the name—Ferrozone.

The gas, the oil and wood of Canada are not inexhaustible. We are largely dependent on the United States for our coal, and there the Coal Trust controls the supply, and also five of the great railways that carry the bulk of the coal. In the years to come, as fuel becomes scarcer in Canada, we shall be more in the power of the Coal monopoly. What will solve the heating problem of the future. Will electricity? The Great All-Wise One always provides for his creature man, and some provision will be made, though man himself be allowed to become the instrument of its development.
