London, Monday, March 12.—The Times, editorially discussing the capture of Bagdad, pays a handsome tribute to the Indian troops. It says: "We are too apt to speak as though the troops of General Maude's command were exclusively British. It must always be remembered that a very large proportion of the forces he guided to victory are Indian regiments and cavalry, which hung on the flanks of the demoralized Turkish army and chased it to the confines of Bagdad. It must have been almost exclusively Indian cavalry, and infantry which must have been almost exclusively Indian cavalry and infantry which bore many months of privations and included Indian units which had already fought heroically in France, on Gallipoli, and in Egypt.

Apparently the occupation was effected without resistance and with only slight losses. Even if the Turks succeeded in extricating all their forces, the loss of Bagdad is a grave blow to them.
