### VALUABLE MEDICAL MATTER OF **PRESCRIPTION**

Toronto Doctor, Whose Love for Humanity is Greater than His Prejudice Against Proprietary Medicines.

The following very valuable pre

pronounced Si-kecn), and prepare as follows:

"Psychine, 2 teaspoonfuls.

"Sherry, whisky or water, 2 teapoonfuls.

"Choice of the latter can be made according to the judgment and preference of the patient.

"Mix thoroughly and take regularly before each meal and at bedtime." This prescription has been used in thousands of cases and has been so universally successful that a number of leading physicians regularly prescribe Psychine in their practice for any of the above troubles, or any rundown, wasting or constitutional difficulty. It is the most reliable and valuable home remedy. It tones up the entire system, giving a feeling of youthfulness and vigor, adding many pears to the life of those who use it.

"Years ago! was almost a physical waters and start of the start of the

"Years ago! was almost a physical wreck and was suffering with lung troubles. Friends and seighbors thought I would never get better. I began to despair myself. Losing faith in my shysician, I procured another one who recommended the use of PSYCHINE. It was surprising beyond description the effect in the was surprising gain with every dose, but they we shall be to attend to no housework again. These are no symptoms of consumption about me now."

MRS. HENDERSON.

After nine days his rescue was acomplished by Hughes, whose galantry has been applauded through-

# THREE BOYS HAD

One Mother's Trials - Little Ones Treated at Dispensary for Three Months - Did Not Seem to Improve - Suffered Five Months.

#### ALL WERE PERFECTLY CURED BY CUTICURA

"My three children had eczema for two months. A little sore would appropriate the company to be a sound were little." five months. A little sore would appear on the head and seemed very itchy, increasing day after day. The baby had had it about a week when the second boy took the disease and a few sores developed, then the third boy took it. For the first three months I took them to the N— Dispensary, and they told me that the children had ringwern, but they did not seem to improve. Then I heard of the Cuticura Remedies, and I thought I would write you about my case, and when I got the Cuticura Soap and Cuticura Ointment I bathed the children's heads with warm water and Cuticura Soap and then applied the Cuticura Remedies, in a few weeks they had improved, and when their heads were well you could see nothing of the sores. I ihould be very glad to let others know about the great Cuticura Remedies. Mrs. Kate Reim, 513 West 29th St., New York, N.Y., Nov. 1, 5, and 7, 1906."

#### CUTICURA GROWS HAIR Removes Dandruff and Soothes Itching, Irritated Scalps.

# TAXATION

Recommended by a Well-known Premier Deakin's Resolution Not Favored By Conference

Sir. Wilfrid Laurier Spoke

The following very valuable prescription, by an eminent and successful physician, will be appreciated by many who are suffering from la grippe, cold, cough, pneumonia, or any throat, aung or stomach trouble, or run-down system, as it is a certain cure, and will save many a doctor's bill. It is almost a certain preventive as well:—
"When you feel that you are taking an any part of the body or head, or feel weak, tired, dizzy, unit for work, pain in the head or back of the neck, do not neglect these dangerous symptoms, but send immediately to your druggist and get a bottle of Psychine pronounced Si-keen), and prepare as follows:

"Psychine, 2 teaspoonfuls.
"Sherry, whisky or water, 2 teaspoonfuls.
"Choice of the latter can be made according to the judgment and preof the preference clearly indicates that between the ardent Deakin and the fiery Jameson on one side and the immovable representative of the Home Government on the other Laurier acted as a buffer, preventing any possibility of an unforunate collision.

Cause of Discord. Cause of Discord.

Winston Churchill on Tuesday gave a hint at differences which have not appeared in the sub-edited daily reports, when he said that the preference question had been the apple of discord in the conference. Perhaps when the full report of the proceedings is published the proper importance will be given all round to Laurier's statesmanlike clearsightedness in recognizing that nothing could be done with the Government in the direction of reciprocity and, acting with shysician, I procured another one who recommended the use of PSYCHINE. It was surprising beyond description the effect it had. I seemed to gain with every dose. Inside of two weeks I was able to attend to my housework again. There are no-symptoms of consumption about me now."

MRS. HENDERSON,
St. John, N.B.
"I had been suffering from La Grippe. My which the present British Government ungs were weak and I had a cough, but Psychine cured me."

MRS. H. BEAN,

MRS. H. BEAN,

Reciprocity the Issue.

Reciprocity the Issue.

Another point may be made clear.

Not only the conference itself, but
the public speeches of Deakin, Laurier and the other Premiers have given
immense impetus to the movement
towards reciprocity here. Three
months ago the movement, according
to the Liberal press, was not only
"dead, but damned." To-day it is admitted that the colonial preference is
the main issue in party politics.

Deakin's Resolution.

Peakin's Resolution.

Yesterday the precis is a lengthy one. Deakin opened by proposing a resolution recommending that an order to provide funds for developing trade and commerce and means of communication and transport within the Empire, a duty of one per cent. upon all foreign imports should be levied, or an equivalent contribution made by each of its Legislatures, and that after consultation between their representatives in conference a common fund should be devoted to cooperative projects approved by Legis-Deakin's Resolution. operative projects approved by Legis-latures affected with the general pur-poses of rostering the industrial for-ces of the Empire so as to promote its growth and unity.

Division Unfair.

Division Unfair.

Lloyd-George said there would be more to be said for the scheme if the fund was to be applied to Imperial defence. He felt it difficult to regard the resolution as a business-like proposition. On import figures for 1905 the duty would involve an approximate contribution from the United Kingdom of £4,500,000, while the contribution from Australia would be

Kingdom of £4,500,000, while the contribution from Australia would be only £100,000, from New Zealand £200,00, from Canada £400,000, Newfoundland £50,000, Cape Colony, £40,000, and Natal £25,000. Thus the United Kingdom would pay £71-2 for every £1 paid by all the self-governing colonies together.

The scheme was unfair between the colonies themselves, as Canada would be paying four times as much as Australia, although her population was 5.7 millions to Australia's 4,000,000. He also maintained that it would be unsatisfactory to raise a fund and then to consider on what it should be spent.

Laurier's Objections.

Laurier's Objections.

Laurier said it was not desirable to pass such a resolution. He believed that for any practical scheme for improving cable communication, navigation, which would tend to produce unity in the various colonies, would be prepared to vote money and that these should be dealt with on their merits. Laurier objected to Deakin's scheme

pointing out that it would be an ab-solute departure from the doctrine of constitutional government to provide money in advance without voting it for a particular purpose. He was not altogether in favor of Lloyd-George's amendment, and wished the question to stand over.

To Be Considered Again. Deakin thereupon agreed that the objects he had in view might properly form a matter for a subsidiary conference. Neither resolution was

ly form a matter for a subsidiary conference. Neither resolution was put to a vote.

Resolutions favoring universal penny postage and alternative cable routes were passed.

On the question of naturalization a resolution was agreed to proposing an enquiry with a view to attaining as far as practicable uniformity and ascertaining how far and under what conditions naturalization in one part of the empire should be effective in other parts at a subsidiary conference to be held, if necessary. The opinion expressed by several of the colonial delegates is that naturalization, under the imperial statute, of persons of non-European descent should not affect their status under the laws of any self-governing colonies.

As regards profit on silver coinage, Asquith stated that there was no objection to any self-governing colony, having a subsidiary silver coinage. The treasury further would undertake

## LARDER LAKE and BLUE BELL

The Last Day in which Blue Bell can be bought at 10c per share is Wednesday, May 15th. It advances to 50c per share on that date. It will sell at \$2.00 before summer has passed

All orders or reservations dated not later than May 15th will be filed and accepted providing remittances follow.

### WE PROCLAIM TO THE PEOPLE OF ONTARIO AND CANADA

WE PROCLAIM TO THE PEOPLE OF ONTARIO AND CANADA that never in the history of mining has such an opportunity for making money been presented as is now offered in the Larder Lake gold district, and especially in the wonderful Blue Bell properties.

Put your money in The Blue Bell Gold Mines, Limited. One of the greatest opportunities that have ever been offered for investment in a gold-mining company. The Larder Lake District will be the wonder of the world and Blue Bell is in the

Miners and prospectors from all parts of the world are flocking to Larder Lake. Mining men with millions at their command are sending their representatives and mining engineers into the field and are rapidly snapping up everything that can be The time for investors to get in on the rock bottom is NOW-the PRESENT

The time for investors to get in on the rock bottom is NOW—the PRESENT TIME.

The opportunity offered in base Bell will probably never occas again in this district. The investors of Ontario and Canada should accept this apportunity and buy in one of the greatest mining companies that will be known in this taw Eldorado at the rock-bottom price of 10 cents per share.

We have gone to great expense and have used every method available to learn and know the exact situation in the Larder Lake district. We have sent a number of reliable mining men in different directions and to different locations. We have established our own assaying office on the ground at Larder Lake, putting in charge of it mining engineers of known ability and reputation. We have not taken over a single claim that has not shown actual merit; that is to say, with free, visible gold in quantities most remarkable. We are informed by our engineers that there never has been a gold district known that has shown the wonderful width of quartz veins containing free, visible gold as now actually exists in the Larder Lake district. We have quartz veins assaying gold from \$200 to as high as \$42,000 to the ton, that vary in width from 6 feet to 150 feet.

The Blue Bell properties consist of 1,120 acres, being 28 well-selected 40-acre claims, undoubtedly and unquestionably the choicess of the district at the present time. Originally the property consisted of but 27 claims, but one claim has been recently added, located near the Reddick property.

Now, we want to make this comparison. In the gold properties of Nevada, where the gold camps have gained renowned reputation—in camps as well known as Tonopah, Goldfield, Wonder, Searchlight—and other camps where millions upon millions have been made from claims varying in size from 10 to 20 acres. Just think of it! Ten or 20 acres running into values as high as from \$40,000,000 to \$50,000,000 each. Mining men we have in the Larder Lake district who are well acquainted with the Nevada camps claim that the Larder Lake

the Rand in Africa, it is believed, will not come up to the wonderful gold district of Larder Lake.

We have received in our office in the past week from 300 to 400 pounds of samples taken from every claim owned by the Blue Bell Company. Out of these samples we have had a great number of assays made by our own assayer on the ground. These assays run all the way around \$200—the lowest—to \$20,000—the highest. Our assayers on the ground, of course, cannot obtain as high assays as in the laboratories in Toronto, where we have obtained the highest assays, running from \$27,000 to \$42,000 to the ton. Therefore it is safe for us to estimate that the assays made by our own engineers on the ground are considerably under what we would actually receive were the stamp mills that the Company are about to install on the property in actual operation, together with the cyaniting process, by the use of which every particle of the gold produced will be saved.

Could every investor come to our office and see the wonderful quartz samples, with gold showing in every portion, they would need no further urging or any further argument to convince them what Larler Lake is and what it is bound to be.

Investors who to-day have \$100 to \$1,000, or more, and who do not take advantage of this wonderful opport.

In a position to judge and we feel that we are judging rightly when we say to these investors, "Put your money into Blue Bell now. Every hundred dollars that

you invest at the present time will, in a year from to-day, bring you, \$2,000." This may seem to be a broad assertion, but consider well the great amount of territory and consider well the millions that are made from properties consisting of but 20. 40 acres of territory that never showed as rich as Bine Bell properties do to-day. It will only take a rew short months to pace Bits Bell on a very big dividend-paying basis. Here is a legitimate opportunity for investors to make a real profit of 400% on your money by the 15th of May (this month). The Blue Bell shares will be selling in the open market at 50 cents on and after that date, and it will not be long before investors will look back and realize how really cheap Blue Bell stock was, even at 50 cents. Such a chance to realize enormous returns on your money could seldom be possible except through the medium of legitimate mining investments and through and by the discovery of such wonderful gold districts as Larder Lake. Remember, these opportunities will only present themselves once in a life-time. This is the accepted time—this is the golden opportunity. The conditions surrounding the Blue Bell GUARANYEE to investors not only big profits, but also absolute safety. We have a property aggregating 1,120 acres in these Larder Lake gold fields—the new Eldorado—every aggregating 1,120 acres in these Larder Lake gold districts of Newada, where milions upon millions are being taken out. The Larder Lake gold district will be familiar to every schoolboy almost the world over within a year of two. The titles are clear—there are no encument of uncertainty as to the outcome. Investors at the present price of shares—ten cents—will realize the most wonderful profits possibly that have ever been known nay mining district in the world.

We of course feel so positive regarding this as we have had every reason to make us believe so. Our own engineers, whom we know, and our own prospectors and miners, with years of experience, whom we have every confidence in demonstrate to us

satisfied beyond any question as to the ultimate outcome of the investment which we herein advise.

It hardly seems necessary at this time, but we are glad that we are able to refer any investor to any bank, financial institution or commercial agencies in the city of Toronto or throughout Canada and the United States as to our standing and

We wish to state further that every recommendation or assertion made in any of our advertisements or letters of advice WILL BE STRICTLY CARRIED OUT and that any investor may invest his money with the full assurance that his money will be placed for the purposes and in the manner indicated and that LAW & COMPANY.

that any investor may invest his money with the full assurance that his money will be placed for the purposes and in the manner indicated and that LAW & COMPANY will fulfill their pledges in every way.

We wish to express our appreciation to the many investors who have shown their confidence in our recommendations, and we desire again to pledge loyalty to their interests, having no fear whatever as to the future, knowing full well that it will demonstrate that their confidence in us has not been misplaced.

### EXAMPLE

#### Showing Cost Of and Estimated Results From One Membership

Law & Company's commission of 25 per cent., amounting to \$38.50, for selling the

267 shares at 50 cents per share, deducted from the \$138.50, leaves to the owner of the membership the full amount of his investment or cost of his membership.......\$100 Also in addition to the return of \$100 he will have 733 fully-paid and forever non-as-

These 733 shares, which will be the result of each membership, will be worth at the advertised market price \$366.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount. Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.

Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.

The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. The distribution of all money and shares to the owners of memberships will be made at the time the membership pool is dissolved, which will be some time within six months from May 15th. 1907.

The Trusts and Guarantee Company, Limited, will issue receipts to all applicants or holders of memberships, showing or indicating their respective interests.
