WEYLER HAS SOME MEDALS.

Says Victories In Cubs Should Give Him Promotion.

Madrid, Nov. 17.—King Alfonso has been hastily recalled to this city from his hunting expedition. It is believed that a Cabinet crisis is impending.

War Minister De Luque is resisting the pretensions of Generals Weyler and Polavieja to the field marshalship, vacant owing to the teath of Count De Chesto. Weyler and Polavieja base their claims on their victories in Cuba and the Philippine Islands.

Anthrax In Darlington.

Bewmanville, Nov. 17.—Dr. Robert Young, Dominion veterinary inspector, and Dr. F. H. S. Lowery of this town have discovered anthrax in a herd of cattle on the farm of Munday Bros., in West Darlington. Two cows died yesterday morning and were burned. The veterinaries vaccinated the rest of the herd and every means is being taken to prevent it spread-

A QUESTION OFTEN ASKED.

Why so many people, feel worse after taking pills than before? Trouble is that drastic pills are used. No remedial action is obtained, the bowels are irritated and dreadful constipation follows, in using Dr. Hamilton's Pill you are searcely con-scious of having taken medicine. A'though very mild, Dr. Hamilton's Pills do regulate the bowels, stimu-late normal action of the glands, and create neither nauses, griping or vi-olent action. Post ively guaranteed for billousnes, indigestion, stomach, liver and kidney ills. For a safe family pill rely on Dr. Hamilton's. 25c. per box at all dealers.

Senator Platt to Retire.

New York, Nov. 17.—The Evening Post editorially published the follow-ing. Senator Platt, it is reported, has decided to retire altogether from pub lic life. Recent disclosures concerning the Senator's domestic troubles, added to his increasing age, are declared to have forced him to the decision to relinquish his office.

WELL, IT DEPENDS

You hear about a great reform To elevate your fellow To elevate your fellow man,
Some project that is very warm,
A nifty and a noble plan
To make the human race advance
And give the poorest man a chance,
But whether it appeals to you
Depends upon your point of view.

A measure that looks very fine
Some party is about to spring
To keep the doubtful ones in line
And others to the standard bring;
A plot to make the whole world good,
If every one would just saw wood,
But whether you can catch the note
Depends somewhat on how you vote.

If some one pretty close to you Is booster for the holy cause You take a hold and see it through And bolster it with loud applause. And doister it with the lift it's an enemy to win,

And when the booster sings his tune
He finds you gazing at the moon.

The merit does not cut much ice,

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase

Unless early and correct treatment is

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs Sawyer.

Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting werse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia. E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case."

POLICE OF PARIS.

How the Third Brigade Spies Upon the Whole Force.

Vance Thompson describes in Every-body's the famous Third brigade of the Paris police, whose business is to supervise the police. It is composed of an officer de paix, a principal in-spector, a brigadiar, was subbrigadiars. spector, a brigadier, five subbrigadiers and about seventy-five picked men. About half are assigned to watch the patrolmen. He is a bold policeman who commits any of the little sins dear to the patrolman's heart. There is hardly a chance that he will not be detected in time. Reprimand follows, after that fine and lastly dismissal. There is always a long "waiting list" of candidates, sound young fellows fresh from the army, and the city can choose

its new servants among the best.

The other half of the Third brigade is engaged in work of a more typically Latin kind. It investigates all com plaints made against the patrolmen by chiefs and citizens, and it main-tains a regular system of espionage upon the private lives of all police-

"This, of course, is the Latin way of doing things," writes Mr. Thompson. "Wrong as it may be in principle it serves to weed out the men of bad character and bad habits and bad associations, and it prevents that mon-strous alliance of the police and the lawbreakers."

The Third brigade in turn is watch ed by a smaller body of detectives, who report directly to the prefect of

DESERT THIRST.

Its Five Phases, Two of Which Mean

Half of the people dying from desert thirst perish in thirty-six hours, a quarter within forty-eight or fifty hours and all others of which the history is known within eighty hours.

The phenomena of desert thirst may be arranged in three stages—namely, normal thirst, functional derangement and structural degeneration. These three stages are made up of five phases -the clamorous, cotton mouth phase, the shriveled tongue, the blood sweat and the living death. There is hope in saving the lives of the victims whose thirst is diagnosed in the first three phases, but for the fourth and fifth death is certain.

The clamorous phase of desert thirst may be relieved by water, or in some instances fruit acids or similar sub-The second, or cotton mouth, phase should be treated by giving the victim quarts of water taken in small sips and flooding his body. Practically the same treatment may be applied to third, or shriveled tongue, phase, with the addition of a medicine to counteract the fever and a tonic for the heart. Water would only prove a damage in the fourth, or blood sweat, phase, and even if it were possible to satisfy the thirst of the victim his mental condition would never be clear. Death from thirst is often painless.

The Valley of Quillota.

"Whoever," says Charles Darwin in his "Voyage of the Beagle," "called Valparaiso the valley of paradise must have been thinking of Quillota." Quillota is a thriving town twenty-six niles from Valparaiso in a northeasterly direction. Any person, he declares, who sees only the country around Valparaiso, barren of vegetation, would never imagine that there were such picturesque spots in Chilé. "As soon as we reached the brow of the sierra the valley of Quillota was immediately under our feet. The prospect was one of remarkable natural luxuriance. The valley is very broad and quite flat and is thus easily irrigated in all parts. The little square gardens are crowded with orange and olive trees and every sort of vege-
