NEWCASTLE, JANUARY 10, 1906.

COMPULSORY EDUCATION.

Announcement has been made that the New Brunswick government will, at the next sitting of the legislature, introduce a measure for compulsory education. The general announcement is modified by the statement that the measure will be of a local option nature; that is to say, a district or division or locality will, by a general vote, decide whether or not it will require all the children resident in or subject to its control to attend school. Probably a modified arrangement of this kind will be more readily adopted by the legislature than a compulsory law for the entire province; but of course, one effect of such a modified system will be to prepare the people for the general law.—Globe.

THE TARIFF.

The enquiries, investigations, examinations, or whatever they may be called, which are going on before the tariff enquiry commission pretty well exhibit the selfishness of the individual as against the general interests of the community. The greater number of those who go before the commission seek to have the tariff increased, so that the particular industries in which they are interested may be subject to less competition from English, French, American and other makers. To restrict trade so that their fellow Canadians may be compelled to buy their goods is their interpretation of patriotism. Of course the moment a tariff is applied to any purpose but that of raising a revenue, ideas of this kind seem to be reasonable, no matter how unsound they really are. Large reductions of the duties on many imported articles would be the best possible thing for this community.—Globe.

HARCOURT

Local and Personal

Jonah must have been a high-priced lawyer, pa. 'What makes you think so?' 'The whale could not retain him.'

Her Father—My daughter is an expert in pyrography.

Her Sutor—That's all right, I'm very fond of pie.

Neighbor—How did your daughter's marriage with that count turn out?

Mrs. Brickrow—Her last letter stated he has spent all her money, and she is taking in washing; but, on I presume, she washes only for the nobility.

DALHOUSIE MAN
KILLED IN MONTREAL

Norbert Lamarche Found Electro-
cuted at Foot of Electric Pole
Supposed to Have Been Steal-
ing Wire.

MONTREAL, Jan. 7.—Norbert Lamarche, carpenter, who belongs to Dalhousie, N. B., was electrocuted tonight under strange circumstances. His body was found at the foot of a pole in Lafontaine Park, and it is supposed that he was killed while stealing wire. The marks on the snow showed he had fallen from the pole, his charred hands told the story of his electrocution, and a pair of wire nippers clutched in his hand, the purpose of his work on the top of the pole. A dangling wire which had been cut led to investigation by the power company officials, who found 4,000 feet missing. Lamarche came from Dalhousie to spend Christmas with his relatives.

NEWCASTLE MAN
RUBBED IN ST. JOHN.

ST. JOHN, Jan. 2.—The police court was in session this morning for the first time in the year of 1906 and eight prisoners faced the magistrate. Seven of these were drunk and one, George G. Munroe, was charged with stealing a pocket book from James Daigle, whose home is in Newcastle, explain that he has for some time past been working in Olatown Maine. He arrived in the city on Saturday noon with about \$15 in his pocket book. He spent about \$3 treating people he met near the station, and procuring a bottle of gin with which he and Munroe, whom he met at the I. C. R. Depot, and two other men went into the I. C. R. yard and while they were drinking from the bottle one of them grabbed him round the waist and took his pocketbook from a trouser pocket. Munroe then ran away and witness made a cry that he was robbed. He identified the prisoner in court and said it was not for the money he cared but that he wished the prisoner punished to give him a lesson.

C. T. O'Garra, a teamster, who made the arrest, told hearing Daigle say that his pocketbook had been taken and seeing Munroe run across Pond and up George street he, accompanied by Wm. Kane, gave chase and found Munroe hiding behind a wood pile in a vacant lot in the rear of M. E. Agar's establishment on Union street. While he was conveying the prisoner to the police station another stranger joined them and asked that Munroe be released. When that stranger left the party Munroe told witness that the stranger had the money.

Owen G. Coll, clerk in Mr. Agar's employ gave evidence of finding Daigle's pocket book in the vacant lot.

Magistrate Ritchie sent the prisoner up for trial before Chief Justice Tuck in the present sitting of the Circuit Court. Munroe claims Bangor as his home.

Every
Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S
EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture is on the wrapper of every bottle of Emulsion you buy.

TROUT
Mezzo Work

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzo work. A trout mezzo is one half the fish mounted upon a convex elliptical panel as to stand the fish out in bold relief, giving the effect of an oil painting or a life sized fish, with the real thing to show to your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.
