CURED HER BOY OF PNEUMONIA

es of the Great Conon Preventa

"My son Laurence was taken down with Fraumania," says Mrs. A. O. Fisher, of Milwanarket, Ont. "Two doctors attended him. He lay for three months almost like a dead child. His laugs become so swollen, his heart was pressed oner to the right side. Altogether I think we paid \$zap to the doctors, and all the time he was getting worse. Then we commenced the Dr. Slocum treatment. The effect was uneaderful. We saw a difference in two days. Our boy was soon altong and well."

COAL COMPANY AND STEEL COMPANY AGREE

ference Last Week.

Montreal, Dec. 7 .- J. A. Roes. on of James Ross, of the Bominon Coal Co. annotaces that an ent has been reached with the Steel Co, at a conference this norning. An agreement was come to for two years at higher rate per on of coal, but the coal Co. will o give out the price, leaving that o the Sted Cc. which was not announced it as ret. In the treamtime friendly action will be enter-ed to settle the rights of dispute over the old contract and on the judgement given by the deadlock and closing of the works, while it

J. H. Plummer said to-day that there would be no statement today in regard to the Steel-Coal difficulty. The conference lasted till 3 a. m. and they began at II a. m. There is some negotiations which have not had 50c. Per Bottle immediate settlement but may be overcome to-day. An advanced price for coal is basis of talk.

Some London Clubs.

London has many curious clubs, each as the Utopians, whose mette is "Serve God and be merry," and the Froth Blowers, whose members are said to be bound to curse and swear every time they enter the club. There are also many unregistered clubs which have no headquarters and take out no licenses, and there are also many clubs whose members are manifestly drawn together by some common bond of sym-pathy. Among these the London Dally Express enumerates the following: The Box club (admirers of Charles Pickens)

Dickens). The %5 club (amicability and the arts). The Royalists (guillotines and dis-

Mrs. X.-Fps, I tried to make my elvet-like lips, apply at bedtime a husband economize in smoking, so I light coating of Dr. Shoop's Green told him if he ever smoked I would never speak to him again. Mrs. Y.—What was the result? Mrs. X.—His cigar bill was doubled the next month.

> There can be no friendship without virtue, for that intimacy which among good men is called friendship becomes

> Prine Cleaning Recipe.
>
> The English Society of Arts offered a prize for the best process of cleaning silk, woolens and cotton fallics—one that would not coming their color one that would not cominge their color or injure them in any way. The winning recipe was as follows: Grate two good sized potatoes into a pint of clear, clean, soft water. Strain through a coarse sleve into a gallon of water and let the liquid settle. Pour the starchy fluid from the sediment, and it is ready for use. Rub the articles gently in the liquid, rinse thoroughly in clear water, dry and press. dry and press.

> The Wife's Hame.
>
> The assumption by the wife of the husband's name is, in this country at least, merely a social custom, a custom of such universality, however, that few yould care to disregard it. It is in no of such universality, however, that few would care to disregard it. It is in no way required by law. A woman after marriage has a right to retain her maiden name if she desires so to do, although she seldom or never does. In fact, a person may go by any name he or she chooses, provided a new name is not assumed for the purpose of defrauding some one else.—St. Louis Republic.

> The Wedding Ring of Today.
>
> The wedding ring of today is a shallower circlet than its predecessor of a decade or two ago and allows for the wearing of other rings on the same flager with more artistic results than inger with more artists results than formerly. Some matrons who acquired their third finger circlets under the old regime are having them cut in half, wearing one of the sections themselves and presenting the other to their husbands. A jeweier of Manhattan has had several orders for this wedding ring operation this season. ring operation this season.

an easy way of distinguishing scar-letina from measles is to draw the back of a finger nail pretty firmly across the eruption. If scarletina, a white line will result, and this will re-main for one or two minutes. No white ine will appear if the test be made in a case of measles. It is very necessary to distinguish between these two disorders. A mild case of measles may be treated by domestic means. A case of scarletina demands the presence of a dector.

Let the Baby Handle Things.

It is the business of the baby to become acquainted with everything in the world, and the baby that does not want to grab and handle everything it sees is not normal. The wise mother lets the child feel and handle whenever it is possible the objects in a room until it is perfectly satisfied, and then clev-erly removes them if it is possible to break or damage them.

The Double Chin.

There is no astringent that will reduce double chin, but hard massage will accomplish it. The strokes should be from the point of the chin toward the ears and from the chin along the under jaw. The movement must be hard enough to was done the form the first that the china the c hard enough to wear down the flesh and should be done nightly for ten min-

THE SURPRISING CHANGES THAT TIME HAS WROUGHT.

Would Think, For Inste That the Same Thomas White Originally Indicated "Thomas the Sign of the White Horse!"

Considering the surprising changes that many names have undergone, says Miss Laura Altou Payne in the Independent, the almost universal lack of knowledge concerning their origin is not to be wondered at. What is there in "Peter Snooks" to suggest to the uninitiated that originally it was "Peter at the Seven Oaks?" Though "Though "Though "House Whiteborse" suggests the American Indian custom in names, originally it was "Thouas at the White Horse," or "Thouas at the Sign of the originally it was "Thomas at the White Horse," or "Thomas at the Sign of the White Horse" (a tavern). Sidney is a corruption of St. Denys, Sinciair of St. Clair, Seymour of St. Maur, Janeway of Genoa, Curtis of "courteous," Armi-tage of "hermitage," Spark of Sparrow-hawk. Emerson and America had the same origin—Almeric, an old Norman name, Amerigo being the Italianized form.

Names, like things, are not always what they seem. Beers and Berry are not "beers" and "berry," but a corruption of "borough," often written "bury" and "bery."

In the beginning a single personal name sufficed. For awhile no two persons the server bears but and the server but and the server but and the server but are the server but and the server but and the server but are the server but are

sons bore the same name, but as stock of names accumulated repet tions became common, and as the population of the world increased distinc tive names became necessary; hence we read of John the Baptist and John the Disciple, Darius Hystaspis and Alexander the Great, Joshua, son of Nun, and Simon Barjonas—"Simon, son of

becoming general there during the lat-ter part of the tenth or the fore part of the eleventh century. They were used hereditarily to some extent, however, prior to that time. They were introduced into England at the Norman conquest in the year 1066, but it required two or three centuries to estab-lish the body of our nomenclature on a fixed basis. During that time sur-names became general throughout the British isles except in Wales, in some parts of which they are unknown to this day.

civilized countries, I believe, except Turkey. In England alone there are

ery available source—personal names, location, occupation, deeds of prowess, mental, moral and physical attributes, terms of relationship, the human body, farm and household articles, buildings, foods and drinks, modes of travel, na-tions and laws, customs and religious, geographical terms, weather and sea-gons, months and days, measures and values, the joys and ills of life, the animal, mineral and vegetable kingdom and even from the kingdom of heaven. The use of nicknames and

In most countries it is customary for the wife to take her husband's name, but in some European countries it is not unusual for the husband to append the wife's name, particularly when it is more honorable than his wife's retention of her maiden name for a middle name are customs grow-ing in favor in the United States and

Among the earliest names introduced by the conquest were found Serl, Drew, Bryce, Harvey, Arnold ("ern"—eagle), Albred (now known as Albert and All-bright), Almeric, Ingelram, Ebrardus (Everard), Warin (Guerin, now War-ren), Ivo, Hamon (Hammond), and Payn (originally Pagan). After their adoption as surnames the most of these became obsolete as personal names. The most popular personal names since the Domesday Book recorded them have been John and William but

them have been John and William, but their derivatives are too numerous to mention here. Roger, Robert and Rich-ard took a double nickname in H and D; hence Hodge and Dodge, Hobbs and Dobbs, Hicks and Dicks, with the and Dobbs, Hicks and Dicks, with the rougher forms of the last—Higgs and Diggs, and even Hitch, giving rise to Dickens, Hitchcock and Higginson.

Diminutive and other affixes served

Diminutive and other affixes served an important part in the origin of surnames from personal names. The Anglo-Saxon "kin" and "cock" and "ing" are represented in Jenkins, "little John;" Hitchcock, "little Richard," and Brewning, "little Brown;" the Norman "ot" and "et," in Ellot, "little Elias," and Emmet, "little Emma" (sometimes "lot" and "let;" Hamlet, "little Hamon"); the French "on" and "en" in Marion and Dickens.

Many prefixes were used. The Ceitte "Mac" or "M" of the Scotch; "Mc" of the Irish; "Map," "Ap," or "P" of the Welsh, and the Norman "Fits" (Latin fils), signify "son" or "son of," and the Irish "O," "grands on of."
