The Consecration of the Right Rev. Edmund Knight as Bishop of Coricum, z. p. t. an auxiliary of Shrewsbury, by his Eminence the Cardinal Archbishop of Westminster will take place on the 25th July the feast of St James, in the church of Our Lady of the Immaculate Conception, Birkenhead.

Mass is celebrated as even and naturally every day at St. Etheldreda's, Ely place, that it is difficult to believe that there has been an intermission of Catholic worship there for three centuries.

The Presbyterian congregations of Seaford and Harpurhey O are to be formally united on the last Sabbath in his month. The Rev. Mr. Barr, who has been pastor of the latter congregation for twenty years, retires.

Mr. Spurgeon, at the annual supper of the students of his Pastors' College, said that he intended to arrange for training fifty additional students, and that he had confidence in divine Providence supplying him with the funds necessary to do so. The next morning he received by post a letter from a lady in Scotland, enclosing \$20,000 for the college, and an additional \$20,000 for the Stockwell Orphanage.

The Bishopric of Jerusalem has been accepted by the Rev. Joseph Barclay rector of Stapleford, Herts, a well known author, skilled in Hebrew, Arabic, and German, and the translator of and commentator on parts of the Talmud. He spent four years in close intimacy with the English Embassy at Constantinople before he went to Jerusalem where he remained ten years as a member of Christ Church, and examining chaplain to Bishop Gobat.

Scientific.

At a reception recently given by the President of the Royal Society of London Mr. William Crookes exhibited some gems subject to the action of negative electricity in tubes from which the air had been exhausted. Under these circumstances the diamond is seen to be extremely phosphorescent, and the stones from different regions differ in color of their light. Those shown by Mr. Crookes were apricot, bright blue, bright blue pale green, yellowish green orange and red. The diamonds from South Africa gave out a blue glow. Rubies were also exhibited under like conditions, and whatever their natural shade, all shone with rich red phosphorescence.

The modified blasting gelatine invented by Professor Abel, F.R.S., of the British War Department is the newest and most violent of known explosives. It is a mixture of nitro-glycerine (which is the largest constituent, with soluble gun-cotton and military gun-cotton; and its structure resembles that of a firm sort of jelly. Its destructive action is more than that of any other compound which has formed the subject of experiment of modern time. The original preparation of blasting gelatine must be credited to Mr. Alfred Noble; Professor Abel intensified its explosive power by adding the military gun-cotton. It is curious that there is in fact no gelatine at all in this mixture.

The elephants of all wild animals transported by steamer are conducted in the strongest kind of boxes, and the boxes themselves are secured in the firmest manner. In a storm the lions, tigers and hyenas prove the greatest cowards. They also suffer a great deal from seasickness and whine about it. The elephant utters few sounds when he is seasick, but he sways his great head from side to side and looks "unutterable things." The horse is the most nervous and sensitive animal that goes to sea, and a hen shows the most utter disgust with life when seasick.

Varieties.

Falsehood, both a vice and a crime. Superstition is the creature of guilt and fear.

There is a good wide ditch between saying and doing.

Virtue does not give talents, but it supplies their place.

There is nothing terrible in death but that our life hath made it so.

"Strike while the iron is hot." Many a fortune has been lost by delay.

Wisdom is a pedestal from which envy nor malice cannot hurl the occupant.

As too long retirement weakens the mind, so too much company dissipates it.

It is sad to see so many walk in the dark themselves who carry lanterns for others.

Men usually follow their wishes till suffering compels them to follow their judgment.

Some mourn more the shame which sin brings, than the sin which brings the shame.

Truth and virtue can do less good in the world than false, well-acted counterfeits can do evil.

Every saint is God's temple, and he who carries his temple about him, may go to prayer when he pleaseth.

Most of their faults women owe to us, while we are indebted to them for most of our better qualities.

It is a fact of history that the purest and noblest life on God's green earth has been born of the Christian faith.

Pleasure is sometimes only a change of pain. A man who has the gout feels first rate when he gets down to rheumatism.

My advice is to consult the lives of most men as we would a looking-glass, and from thence fetch examples for our imitation.

Do not go to your hands to work, or to your feet to walk, or to your head to think, before you have gone to your knees to pray.

BEWARE OF AMERICAN COUNTERFEITS.

I most respectfully take leave to call the attention of the Public generally to the fact, that certain Houses in New York are sending to many parts of the globe SPURIOUS IMITATIONS of my Pills and Ointment. These frauds bear on their labels some address in New York.

I do not allow my medicines to be sold in any part of the United States. I have no Agents there. My Medicines are only made by me, at 555 Oxford Street London.

In the books of directions affixed to the spurious make is a caution, warning the Public against being deceived by counterfeiters. Do not be misled by this audacious trick, as they are the counterfeiters they pretend to denounce.

These counterfeiters are purchased by unprincipled Vendors at one half the price of my Pills and Ointment, and are sold to you as my genuine Medicines.

I most earnestly appeal to that sense of justice which I feel sure I may venture upon asking from all honorable persons, to assist me, and the Public, as far as may lie in their power, in denouncing this shameful Fraud.

Each Pot and Box of the Genuine Medicines, bears the British Government Stamp, with the words "HOLLOWAY'S PILLS AND OINTMENT, LONDON," engraved thereon. On the label is the address, 533, OXFORD STREET, LONDON, where alone they are Manufactured.

Holloway's Pills and Ointment bearing any other address are counterfeits.

The Trade Marks of these Medicines are registered in Ottawa. Hence, any one throughout the British Possessions, who may keep the American Counterfeits for sale, will be prosecuted.
