

WAS WASTING AWAY. "I could not eat, sleep, walk or sit down for any length of time. I was always in pain and was wasting away. I grew very weak and had a bad cough. I tried many different remedies, but did not get relief. Since taking Hood's Sarsaparilla, however, I am able to attend to my business." MINNIE JACQUES, Oshono, Ont.

HOOD'S PILLS cure all liver ills. Mailed for 25c. by C. I. Hood & Co., Lowell, Mass.

Bibliography. The House of the Angel Guardian, founded, as our readers know, for the maintenance of poor, orphan and abandoned children, has just addressed us a copy of its latest publication, "The Month of the Sacred Heart." It is an honor to the establishment, both as regards the subject matter and the general get-up. This little book is illustrated and has about 150 pages, containing exercises for each day of the month of June. They are very proper to increase devotion to the Sacred Heart of Jesus; each of them is followed by an example, setting forth the advantages to be derived from devotion to the Sacred Heart. It likewise contains a Novena to the adorable Heart of Jesus in the Eucharist, as well as several other exercises and prayers suitable for this devotion. At the end of the book, we remark the Chapter of Crowns of the Blessed Sacrament, being a beautiful act of adoration to Jesus in the Holy Eucharist. Although this publication is more complete than the others of the same kind, already published by this institution, and so much appreciated by our readers, yet the Brothers of Charity are not willing to raise the price. (10 cents postpaid). Knowing the good that can be done in helping this home, we make it our duty to recommend this new book to our readers, which will be forwarded to them on the remittance of 10 cents. Address—REV. BRO. JUDE, Superior, 85 Vernon St., Boston, Mass.

We very much regret to record the death of Mr. D. W. Finlayson, of the firm of Finlayson & McKinnon, which occurred on Thursday morning last. He was attacked with pneumonia, about ten days previous to his death, and notwithstanding the best of medical skill and the most assiduous nursing, he never rallied. His funeral on Saturday was largely attended. The firemen, Oddfellows, and the Caledonian Club, of which societies he was a member turned out in force. Two bands, and the bagpipers participated in the procession.

A HALIFAX despatch says: While the men who compose the garrison here were at dinner to-day an order came to man the forts at the entrance to the harbor. Each man had to take all that would be required for active service and a day's ration, tent accommodation for the force, medicine chests and all equipments, amounting to two hundred tons weight, were speedily sent to the water front, where they were loaded on transports and taken to York redoubt and Fort McNab. In two hours fifteen hundred men had swanned the fort and not a faking of the intention to come out had been given.

MR. LEBRAND, chief inspector of public buildings for the Province of Quebec, visited, the other day, the ruins of the hospital recently destroyed by fire at St. Hyacinthe, and in the course of his report says that in 1886 he visited the building, and on his recommendation three separate staircases were put in to meet such an emergency. He is of opinion that the persons who lost their lives first began by losing their heads in the excitement of the outbreak of the fire. He is further of the opinion that the fire was incendiary. A sanctuary lamp, which was supposed to have caused the fire, was burning as usual when the top story of the building was burning. The nuns are exonerated from any blame.

INVESTIGATION by the secret service department indicates that Spain has been getting coal from Philadelphia. From Dec. 31, 1897, Feb. 18, 1898, no less than 57,774 tons of coal went from that port into the West Indies, or an average of 1,240 tons a day; from Feb. 18 to April 7th, fifty-two days, 62,924 tons left the port, or 1,200 tons a day. Owing to uncertainty no coal was shipped from April 7th to April 18th. Then from April 18th to May 21st, 62,078 tons were exported, or 1,300 tons a day. Since the war broke out there has been an increase of 100 tons a day sent from Philadelphia to points where Cervantes plays hide-and-go-seek. The number of vessels to West Indian ports has increased also. From the first of the year to the date of the Maine explosion, forty-eight days, twenty-eight vessels, all coalers, left. There have been 6,250 tons of coal sent to Fort de France, in Hayti, since April 9. What this was for is not explained by any actual need of Fort de France itself. Nassau, St. Lucia, where 3,770 tons were despatched on May 6, and where the Spanish fleet appeared on May 13. Fort Antonio, Vera Cruz, and Kingston, have all lately had shipments.
