TO MAKE GOOD BREAD You must have Good Yeast

GOOD BREAD is, without question, the most import ir t article of food in the catalog of min's diet; sure'y, it is the "staff of life." Good breal is obtainable only by using the Best Yeast, the best flour, and adopting the best method of combining the two, Compressed Yeast is in all respects the best commercial Yeast yet discovered, and Fleischmann's Yeast is indisputably the most successful and best leaven known to the world. It is uniform in quality and strength. It saves time and labor, and relieves the housewife of the vexation and worriment she secessarily suffers from the use of an inferior or upreliatle leaven. It is, moreover, a fact that with the use of Fleischmann's Yeast, more loaves of bread of the same weight can be produced from a gven quantity of flour than can be produced with the use of
