Edwin Murray

The Tale of Perfect Time in a Watch

From Mainpring to Hairspring, between them lies the secret.
The Mainpring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The fitting is most delicate; imagine a 100th part of a hair. (Impossible isn't it?) Yet it is enough to interfere in its performance, so wonderful is the adjustment. The friction from accumulated dirt, lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember our business is the care of watches, and our opinion costs nothing.

D. A. McRAE,

WATCHMAKER and
JEWELLER,

OUTPORTS TAKE NOTICE!

Pictorial Paper Patterns, the simplest and most accurate patterns published. Styles far in advance of all others, and the only patterns which give the valuable **Cutting and Construction Guides.**
For the convenience of outport customers centres will be established all over the Island where the Catalogue or Fashion Book may be seen, thus avoiding the delay as well as the expense in sending for one, the cost of which is 32 cents, postage paid. Look out for the names of the centres, they will appear in the evening papers.
