377th Day of the War

LATEST From the Front.

Messages Received Previous to 9 A.M.

OFFICIAL.

LONDON, Aug. 14. The Governor, Newfoundland: The French Government reports further German attacks repulsed in the Argonne.

The Russian Government reports the Germans driven back in the Baltic Provinces beyond the River An between the Narv, Bug and Middle Vistula, the Russians continue to retreat.

The Italian Government reports another Austrian submarine sunk. One officer and eleven men were captured.

BONAR LAW.

THE WHEAT SUPPLY.

LONDON, Aug. 14. The Cabinet is considering important recommendations concerning the supply of food particularly wheat, made by the commission appointed in June by the Earl of Selborne, President of the Board of Agriculture, with Lord Milner as Chairman. The nature of the report is guarded closely, but it is estimated the recommendations include plans to increase the home grown supply of wheat by guaranteeing to producers a minimum price for their product.

RAILWAY SMASH.

LONDON, Aug. 14. A serious accident to second section of the Irish Mail on the L. and N. W. Railroad is reported in a despatch from Northampton to the Central News. The accident occurred at the western end of Stowe tunnel. Several persons were killed and many injured. One report states that fifty or sixty persons were killed.

BRITISH CONSUL LEAVES RIGA.

WASHINGTON, Aug. 14. The American Consul at Riga has taken over British interests there. Ambassador Marjoe so reported today from Petrograd, but gave no explanation.

VESSELS SUNK.

LONDON, Aug. 14. The British steamer Cairo and the fishing smack Amethyst have been sunk by a submarine. Crew saved.

LONDON BUDGET.

LONDON, Aug. 15. Having recovered from the check

inflicted on him early in the week by the Russians, General Von Euelow commanding a portion of the army of Field Marshal Von Hindenburg operating west of the River Dvinsk, has again taken the offensive and, according to an official report published by Berlin, to-day, has beaten the Russians in a battle in the vicinity of Kubisko, and pushed them back on a northeasterly direction, taking over 200 prisoners.

South, before Kovno, the Russians according to the same source of information, made an unsuccessful sortie from Kovno, which the Germans are now approaching.

In the Polish section various German armies are slowly driving their line, advancing from the northwest south on Breslittovsk. While they continue to take comparatively small batches of prisoners, they make no claim to the capture of artillery or booty, which is considered by military observers as a fair indication that the Grand Duke Nicholas' armies continue their orderly retreat, and that for a long time to come they will be able to prevent the Germans from detaching any part of their army for large ventures elsewhere.

The only evidence of activity outside of Poland and the Baltic provinces is on the Serbian frontier, where the bombardment of Belgrade by the Austrians, and the counter bombardment of Semlin and Panscova by the Serbians, have resumed. According to Nish, Austrian attempts to cross the Danube near the Serbian-Romanian borders have been repulsed, but it is believed by military experts here that this region will be the scene of the next Austro-German offensive.

There is some speculation in military circles as to whether Roumania as well as Serbia, will be attacked, because of Roumania's refusal to allow munitions of war to pass through Turkey, which is being pressed, both on her Caucasus and Dardanelles fronts.

There is no late news from the Dardanelles, but information is hourly being received of the movement of which the landings by allies last week were the preliminaries.

Artists, Forest of Argonne and Vosges Mountains, continue to be scenes of activity on the western front, but serious battles are in progress in any of these regions.

ALIEN ENEMIES IN INDIA.

LONDON, Aug. 15. A Reuter's Ottawa Agency says that the Government of India, according to a special despatch from Simla, has been obliged to adopt more drastic measures for the treatment of alien enemies throughout the country. The despatch says: A statement describing in detail measures for internment, surveillance, and registration hitherto applied to alien enemies in India has been issued by the Government. It states that the prolongation of the war, and bitterness aroused by German savagery has now altered the position, besides adding a continued strain to the Government's resources.

AGAIN BOMBARDED.

LONDON, Aug. 15. The bombardment of Belgrade has been resumed by the Austrians with large calibre howitzers, according to an official statement issued at Nish on Friday, and telegraphed here by Reuter's correspondent. There is said to have been no loss of life.

ANTI-GERMAN RIOT IN BOSTON.

BOSTON, Aug. 15. The gathering to-day of 1,300 Italian reservists, who were to sail on the steamer Canope to meet their friends, was marked by demonstrations against the interned German steamships America and Cincinnati, as a result of which several policemen were severely injured. The sailors of the German vessels were struck by flying stones and sticks. Revolver shots were exchanged between the crowd and the police, but it could not be learned that any tool effect.

AUSTRIAN NOTE ANSWERED.

WASHINGTON, Aug. 15. The State Department to-night made public the reply to the United States rejecting the views set forth by the Austro-Hungarian Government in its recent note, contending that the exportation of war munitions from America to Austria's enemies was conducted on such a scale as to be "not in consonance with the definition of neutrality." Though in friendly language the tone of the note flatly denies the Austro-Hungarian contentions, and recalls that that country and Germany furnished munitions of war to Britain during the Boer War, when England's enemies could not import such supplies. It insists that the American Government is pursuing a strictly neutral course, adhering to the principle upon which it would depend for munitions in the markets of the world in case it should be attacked by a foreign power.

PAN-AMERICAN APPEAL.

WASHINGTON, Aug. 15. The pan-American appeal to Mexico, now being delivered to the chiefs of the factions and governors of the states, was made public here last night. Without even an intimation of armed intervention, it calls upon the leaders to meet somewhere in Mexico on neutralized ground, in conference to address the first steps necessary for the constitutional reconstruction of the country issue, and to call for immediate elections. The service of the United States in any other pan-American conference, are offered as intermediaries.

SERBIAN ACTIVITIES.

A Havas despatch from Nish, under date of August 12th, delayed in transmission, contains what is apparently a Serbian official statement issued on August 9th. The text follows: Five hundred Serbian troops destroyed by artillery and infantry fire on the night of the Save and Danube Rivers. During the night of the 9th our artillery opened fire occasionally on the supply train on the Beecherston Orsova Road near the village of Silevets in the neighborhood of Silevets, the same night the enemy opened fire on Dogne beyond Tekla, killing a child. After opening vigorous artillery and infantry fire on the bank of the river, the Serbian artillery immediately reduced the enemy to silence on the morning of August 10th. Enemy soldiers took to the Danube, near the ancient Turkish fortress of Gelabatz, beyond Dogne Milanovats, but were repulsed.

Earl of Devon Back.

The S. S. Earl of Devon, Capt. A. Carter, arrived in port from the northward at 10 a.m. yesterday, and reports an improvement in the trap fishery from Quirpon to Whoooping Harbor. During the past ten days some good hauls have been secured and prospects for a good voyage are quite promising. From Whoooping Harbor south the fishery to date has been a complete failure in many places, and from that port to Fogo the total catch is not an average one. The ship brought a small freight and several passengers.

Personal.

Dr. J. I. O'Connell who was visiting friends in Halifax and Sydney arrived in the city by to-day's express. Dr. A. Carnell, of Newtown, B.B., arrived in the city by the Susu yesterday on a brief visit.

PROHIBITION MEETING.

A meeting of men for consultation, with the view of effecting organization for the approaching plebiscite on Prohibition, will be held on Tuesday, the 17th inst., at 8 p.m., in the Total Abstinence Hall. It is hoped that friends and supporters of the Temperance cause will attend in large numbers.—aug16,11

DIED.

This morning, after a short illness, Elizabeth, wife of Edward F. Sinnott, (funeral to-morrow, Tuesday, 17th inst., at 2:30 p.m., from her late residence, 36 Rennie's Mill Road; friends and acquaintances please accept this, the only intimation.

WORTH KNOWING.

"When things ain't going right with you, and you can't make them go; when business matters look real blue, and you fear bankruptcy; when cobwebs gather on your stock, and customers are rare; when all your assets are in dock, don't cuss and tear your hair. Just listen to this good advice, and take it if you're wise: give every article a price, and then go advertise. And advertise from morn to night, don't overlook a day; and soon you'll see the world go bright, and things will come your way. Invest in good publicity, and fortune you will greet; and in a little while you'll be 'way up on Easy Street."

FINAL GAME.

The final League football match for the season takes place on St. George's Field this evening between the Star and G. E. I. Fielding. The latter are looked upon as the wooden spoon holders as all the other teams are ahead of them in points.

AUGUST 16. Full Moon—24th Days Past—227 To Come—137

"PETERLOO" Meeting at Manchester, 1819. The long Napoleonic Wars were followed in England by a period of great distress. Riots broke out in various parts of England, where the people were starving for want of bread. The most memorable was that known as "Peterloo" out of derision to Waterloo. Many of the agitators were killed and hundreds disabled. "STATE OF SIEGE" declared in Bulgaria. Austrian cruiser Zenta sunk off Antivari by the French Fleet. Spanish neutrality re-affirmed.—August 16.

Ambition breaks the ties of blood, and forgets the obligations of gratitude.—Scott.

Maxim Invents Anti-Gas Weapon.

London, Aug. 11.—Sir Hiram Maxim, who has been engaged for some time in developing a means of combating the poison gas used by the Germans, has designated a very simple apparatus, which apparatus the government is now testing. The object of the apparatus is to cause large and rapidly spreading fire by means of specially designed incendiary bombs in the path of the advancing gas at a distance of several hundred yards from the British trenches. By this means, since the heating of the air must cause an upward rush, the gas is driven out of harm's way.

Sir Hiram explained the invention as follows: Chlorine gas at one atmosphere of pressure is twice and a half as heavy as air. In escaping into the air it very quickly becomes mixed with a large quantity of air, so that by the time it reaches the trenches it is extremely light compared with the air, but quite strong enough to prove fatal.

"It occurred to me some months ago that if fire could be produced between the gas and our trenches the rapid upward movement of the air would take the chlorine along with it. A firm in London which proposes to make anti-gas bombs has designed a machine for throwing them with great accuracy at a distance of 300 yards. By this means fire of any size may be produced, and if the fire is large enough the gases must be dissipated."

Lessen Your Living Expenses!

"Be economical," is the cry in England, and this slogan has the same significance in Canada. We all must economize. There is more actual waste in our dress expenses than any other item. When a garment becomes soiled we throw it aside, when for a few cents it could be restored to original freshness and beauty by Dry Cleaning. A saving of at least 35 per cent. in the expense of dressing is possible by using the processes of Dry Cleaning and Dyeing.

Our agents will gladly give you full particulars.
