"Save the surface and you save all"
Paint & Varnish
Paint as a Matter of PRIDE

 You owe it to your own community to keep your home in perfect condition. Paint is a preservative.
Which House Dominates Your Block?
 SOMEWHERE in "Every community" is a house which always smiles at you. It is always a little more cheerful looking than the others, brighter, better kept, and—well painted.
 Inside that house lives a good citizen and a good neighbor. His house is so inviting that it is like a hand stretched out to you. You are bound to feel glad that its owner lives near you.
B-H PAINT
 Somewhere else in "Every community" stands another house. Its owner has become discouraged. He has quit trying. He has lost his ambition and gradually has accepted his fate as a down-and-outer.
 You know that this is so, because his house says so. It is dingy, beginning to crack and sag, and is unpainted.
 Its owner is not a good citizen. He has not done his share. His house stands out like a "sore thumb." It robs a whole neighborhood of legitimate real estate value. Buyers of new houses avoid its neighborhood.

FOR 20 YEARS DOCTORS TRIED
 to cure a bad leg from which I suffered," says Miss F. Daudin, of Somerset, Man., writing to the proprietors of Zam-Buk. "The numerous remedies which I used during that time also proved ineffective. Finally I was advised to try your Zam-Buk. I hadn't used it long before I could see that this remedy was quite different from anything I had before tried. It wasn't long before the inflammation began to disappear and with it the pain. The appearance of the sore changed—it became healthier looking, and when I noticed healing had commenced, I persevered with Zam-Buk and it entirely cured me. I shall never be without it again, and if everyone knew the wonderful healing power of Zam-Buk I am sure it would be in every home."
 Zam-Buk is so successful in healing chronic sores because of its great refinement and its extraordinary powers of penetration: it reaches the "root" of the disease in the underlying tissues and cleanses the flesh of all germs. Zam-Buk then grows new tissue, which, replacing the old and diseased, builds itself up to the surface skin. A complete and permanent cure results.
 Zam-Buk is best for eczema, ulcers, abscesses, rashes, boils, pimples, blood-poisoning, and piles, and is indispensable as a first-aid for cuts, burns, scalds, etc. All dealers 50c box.

A Long "Mush."
 A Royal North-West Mounted Police officer, Sergeant Thompson, arrived The Pas, Manitoba, this week, after accomplishing a feat which rivals any in the annals of that famous force. Sergeant Thompson brought an insane Indian from Trout Lake, near Hudson's Bay, and had to "mush" 1,100 miles over the snow with the Indian lashed to his dog sledge. Part of the trip was made through a blizzard. On arriving at The Pas, Thompson's dogs were so weak from lack of food that they could hardly drag their load into the town.—News of the World.

Great Rowing Feat.
 Although approaching 60 years of age, a Deal boatman, named William Foster, accomplished the remarkable performance of rowing a small open 14ft. boat from Deal to Hythe, a distance of over 20 miles, in 4 1/2 hours. For the first half of the journey he had to pull against a strong tide, should the weather be favorable this week, Foster proposes to try his skill over the same course in a small shallow skiff, and then keep himself in training for the coast regattas.—News of the World.

Trans-Atlantic Records.
 Lief Ericsson was probably first to cross the Atlantic, in a galley from the Danish coast to Labrador in six months.
 Christopher Columbus made it in two months with his three little caravels in 1492, sailing from Spain.
 The first steamship to cross, the Savannah, made it in 26 days, from Savannah, Ga., to Liverpool, in 1819.
 The Deutschland made the first trans-Atlantic underwater trip in 1916 in three weeks, Bremen to New York.
 The Mauretania lowered all records from Queenstown to New York in 1510 in 4 days 10 hours.
 But records were again smashed by a British "mystery ship" in 1917 in 3 1/2 days.
 Airmen predict a flight across the Atlantic in 18 to 24 hours.
