Ready for Sea.

The Spanish schooner Alonso is now loaded with 6493 qtls. of fish shipped by Francis Dominguez Garclas, and will sail for Seville on tomorrow. The Alonso was towed to this port on Nov. 8th with her spars and rudder gone, but she has since been thoroughly repaired. The Captain of the vessel is a man of outstanding sea-going ability and is noted for daring and bravery. He is the proud possessor of a first class medal and certificate presented by the province of Seville through the Minister of Marine of Spain. This was for conspicuous daring in rescue work off the coast of Spain in November 1919 We wish captain and crew bon voyage.

These lectures will be given on the Thursday nights between this and Easter. These meetings are open to all men whether members of the Club or not. Strangers will be made welcome.

Hockey Notes.

We have been informed that the rink management is meeting all the demands of the Hockey League in connection with improvements at the rink. The work on the dressing room, which was held up on account of shortage of lumber, is now in progress and will be completed before long. The dressing room stove, which has become rather antiquated, is being replaced. The other improvements decided upon will be attended to later.

In connection with the item which appeared in this column yesterday about the ice, and to which we hear that exception has been taken, we would like to say in justification to ourselves that this was merely given (as a rumor) for what it was worth and that no statement at all was made. This rumor was reported to us by several people about town and as such we published it. We are glad, however, to know that it was entirely without foundation (not the rink, but the rumor).

The rink will be open to-night for general skating. There will be only one practice, the Feildians going on at 10.30.

al. is now in the city. Hon John Anderson has been confined to his home during the past two weeks suffering from a severe cold, but will be able to get down to his office within a few days.

Mr. James Power of Parker and Monroe's, who has been confined to his home for several days suffering from a very severe cold was much improved yesterday.

Capt. T. Connors, who was injured on board the S.S. Portia, at Burin several weeks ago. has now fully recovered and resumes command of the Portia next trip.

Rink Foundation Good.

With reference to the rumour which we published yesterday for what 'it was worth, the management of the Prince's Rink informs us that the foundation on the rink at present is one of the best that has ever teen put on and that it requires only one night of hard frost to make an excellent sheet of ice.

Little Stephano Arrives.

Schr. Little Stephano, owned by Capt. A. Kean, arrived in port to-day after a passage of 40 days from Seville. The vessel made a good passage across and reached the Banks in 8 days, but since has experienced a succession of storms. The crew were expecting to make port for Xmas but events proved otherwise. However, the staunch vessel pulled through without mishap.
