

Purified Blood

Saved an operation in the following case. Hood's Sarsaparilla cures when all others fail. It makes pure blood.

"A year ago my father, William Thompson, was taken suddenly ill with inflammation of the bladder. He suffered a great deal and was very low for some time. At last the doctor said he would not get well unless an operation was performed. At this time we read about Hood's Sarsaparilla and decided to try it. Before he used half a bottle his appetite had come back to him, whereas before he could eat but little. When he had taken three bottles of the medicine he was as well as ever."

FRANCIS J. THOMPSON, Peninsula Lake, Ontario.

Hood's Sarsaparilla

Is the Only

True Blood Purifier

Prominently in the public eye today.
Hood's Pills cure all liver ills, biliousness, headache, etc.

Apes Used in Golf—Robert J. Defeats His Rivals Gentry and Patchen.

BASEBALL.

THE MANAGER'S BENEFIT. The benefit game for Mr. Reid of the Alerts, was played on Tecumseh Park yesterday afternoon before a very small crowd. The Alerts had their opponents a nine picked from the City League club, and had no trouble in scoring a victory. The picked nine made four runs in the first and three runs in the ninth—a total of 7. The Alerts scored 13. The teams were:

PICKED NINE.
Thompson, catcher; Pinel, first base; Gentry, second base; Simonson, third base; Carrol, fourth base; Reid, fifth base; Cook, sixth base; Ball, seventh base; Ball, eighth base; Ball, ninth base.

NOTED CANADIAN PLAYER DEAD. Toronto, Oct. 17.—Poor "Kid" Somers, one of the most famous ball-players that ever played Canada for his home, died at the residence of his parents on Denison avenue yesterday.

For years deceased had been ailing, but he stuck to the game and played in the Southern League until a few months ago. He was 27 years old and unmarried and fell a victim to consumption, that terrible disease that carries off so many athletes. Somers was a fine ball-player, and for years distinguished himself behind the bat. He first started with Kingston in 1886, when that town was represented in the old Eastern International League. Since then he has been playing with American teams, including Springfield, Peoria, Chattanooga, Nashville, Toledo, Milwaukee and Mobile.

TRICKS. CORRECT SHOOTING TERMS. English sportsmen are particular as to what they shoot at. The Daily Telegraph, having spoken inaccurately of a covey of pheasants, received the following list of correct names for assemblies of birds: "A covey of partridges; a nye, nide, or nest of pheasants; a herd of swans, an exaltation of larks; a watching of nightingales; a team of ducks; a muster of peacocks; a bevy of quails; a flight of doves; a flock of geese; a spring of foals; a fall of woodcocks; a pack of grouse; a sedge of herons; a shoal of rooks; a tip of pigeons; a wisp or walk of stags."

CHET. The Maharajah of Patiala, in India, has engaged Hearn, the English bowler, to teach his sons cricket this winter.

GOLF. HANDICAP MATCHES. The annual handicap matches for the club trophy will begin this week under the following conditions: The match will be played by "holes," not by "strokes." The names of players desiring to enter must be given to the secretary. The play will then be decided by lot. The contest will be decided by a series of matches, the losers in each individual match dropping out, and the winners being again "paired" by lot, the successful player in the final match to be the winner. There will be no entrance fee. The match will begin on Saturday, the 19th inst. Three days (exclusive of Sundays) will be allowed for each match to be played off, defaulting players to be considered as having dropped out on the expiration of such three days. Players must register their names in the club book in the usual way before playing their match. The result of each match, whether won by play or default, must be registered in the club book. The drawing will be on the Bagnall-Wild system, and the list will be posted in the club room. The final match will be played on a day to be named by the committee. The handicap list will be found posted in the club room. Members intending to enter are requested to notify the secretary at once.

THE NEW CHAMPION. Charles B. Macdonald, who recently won the golf championship of the United States in a Scotchman. He was born at St. Andrews, and was graduated from its celebrated university. On the famous St. Andrews links he learned the game, and ranked high as a golfer when he came to America several years ago. He is now living in Chicago, where he organized the Chicago Golf Club last year. Previous to the recent championship his most notable victory this year was won in the international tournament at Niagara-on-the-Lake, Canada, the first week in September, when he defeated the Canadian champion, A. W. Smith, by one hole. Macdonald is a tall, powerful man, and a tremendous driver, being easily able to send a ball from 180 to 200 yards. He is, however, an exceedingly nervous player, and little difficulties over the course have a tendency to weaken his play.

APES AS CADDIES. Pats are mostly kept for the purpose of merely being petted, though now and again they are taught to make themselves useful. The latest instance of the useful pet is the case of the two apes which have been trained to act as caddies in the now professional game of golf. The caddie is indispensable to a golf player, and Miss Dent, whose brother, Lieut. Dent, of the United States navy, has recently returned from the China station, has two Pomeranian apes which he brought her, and which they have trained to the business of caddies. They wear jerseys of white duck, and each has a Turkish fez. Miss Dent is a capital golf player, and to see her on the links of the Rath Road Club, San Francisco, attended by her apes is the latest sensation in that locality.

FO TEAL. It seems that the Canadian way of deciding football championships is by a vote of the public, and not by a vote of the players. This may not be very sportsmanlike, but it saves the players from risk of injury.—Buffalo Times.

INNOVATIONS THIS SEASON. League and other competitors help to maintain the public interest in football—but the play, and not the public, is the thing. The Broken Timers in the north will next Tuesday try some innovations in the Rugby code—fewer forwards, a round ball, and the abolition of the line out. It is suggested that they desire to make these innovations in order to attract the public in large numbers. "Give a dog a bad name and hang him." I suppose, half of which, at least, is disinterested. But they may have a double motive—viz., a wish to promote a more interesting game. When I played Rugby myself I loved scrummages, but now, as a sedate spectator, I hate them, for when frequent, as in the case of matches between evenly balanced sides, they are so slow to watch. Meanwhile, all those who know the delights of both "rucker" and "socker," will watch with interest the experiment with these innovators. Results will be made in assimilating the two codes.—The New Age, England.

AQUATIC. STANBURY VS. HARDING. Sydney, N. S. W., Oct. 17.—Stanbury, the Australian oarsman, has accepted the challenge of "Wag" Harding, the English sculler, to row a race for the championship of the world and \$500 a side, the contest to take place over the Thames course.

THE TURF. ROBERT J. WON. Lexington, Ky., Oct. 17.—Robert J. proved himself the best of the four starters in the free-for-all pace today by vanquishing the two star performers, John R. Gentry and Joe Patchen, quite handily. His strongest rival for first honors was the New England gelding, Frank Agar, who figured in each of the three heats all the route as a close second, but a break near the wire in the deciding heat caused him to be placed last and Gentry second. Summary: Free-for-all paces, purse \$5,000.—Robert J. 1, Frank Agar 2, John R. Gentry 3, Joe Patchen 4. Best time, 2:05.

RACING AT PETROLEA. Petrolia, Ont., Oct. 17.—The class A bicycle meet was held here yesterday. There was a strong gale of wind and records were impossible. Results: One mile novice—F. H. Webb, Petrolia, 1; Colie Moncrieff, Petrolia, 2; W. F. Wright, Petrolia, 3. Time, 2:40. Also started—John Dunfield, A. C. Darling, Petrolia, and A. G. Lashinger and W. A. Cause, Sarnia.

One mile, open—R. O. Blayney, Toronto, 1; J. A. Harley, Petrolia, 2; F. J. Dunbar, Sarnia, 3. Time, 2:38.5. Also started—F. J. Dunbar, Stratford; R. A. Crais, Petrolia.

Five-mile club handicap—Geo. Peat, Petrolia, one lap, 1; R. A. Crais, Petrolia, 200 yards, 2; A. C. Darling, Petrolia, 300 yards, 3. Time, 14:14.1.5. Also started—W. F. Wright, T. W. Vandy, scratch, John Dunfield, one lap, H. W. Bowles, 50 yards. PARING DOWN THE RECORDS. Denver, Col., Oct. 17.—At an authorized and official trial, W. W. Hamilton rode two-thirds of a mile unpaced in 1:18.4.5, taking 4.1-5 seconds of the world's record held by Gardner.

ANOTHER RECORD SMASHED. Napa, Cal., Oct. 17.—Foster has broken the world's bicycle record for a quarter of a mile, unpaced, making the distance in 24.5 seconds. Foster will try for the world's mile record. ATHLETICS.

EL PASO, TEXAS, Oct. 17.—A telegram has been received from Dan Stuart stating that the Corbett-Fitzsimmons fight would be pulled off in El Paso if the city would pay the Mexican concession. At a meeting of the business men of El Paso \$15,000 was subscribed to pay for the concession.

MACPHERSON'S DEATH. A letter from the Soo describes the unfortunate fate of the well-known shot-putter: "John D. MacPherson, the noted athlete and champion shot-putter of the world, who met with an accident Friday morning, while practicing in his death, employed in painting the gates of the new lock, but Thursday evening commenced drinking, and was not in condition for work Friday morning. The gates were not completed, and no railings have yet been placed on them. Seeing that he was in no condition for such a hazardous undertaking, he went unguided to cross the gates, but got round the lock. He heeded not their warning, however, and started to recross the gates, but as he reached the center he was seen to stumble, grasp the air, and then shoot down to death below, a distance of 46 feet, striking the plank floor on his head and shoulders. He was picked up unconscious, and removed to the boarding-house, on Ferris street, and Dr. Harrison, summoned, but he was past all human aid, and did not regain consciousness, dying shortly after 1 o'clock." In his early day MacPherson was almost invincible with the shot, and was a clear, all-round professional athlete. He was a Canadian by birth, and well known in Western Ontario. His greatest feat was performed in Toronto, Nov. 10, '88, when he put a 20-pound shot, with a 7 foot 6 inch run, a distance of 40 feet, 11 inches. This was a most marvelous performance, and still stands as a world's record, its nearest approach being George R. Gray's 38 feet, 7 1/2 inch put.

WANT THIS FIGHT. El Paso, Tex., Oct. 17.—Yesterday the citizens of El Paso subscribed \$10,000 to bring the Corbett-Fitzsimmons fight off in this city. A telegram was received from Dan Stuart stating that he would give a definite answer today.

CURLING. THE RIDGETOWN CLUB. At the annual meeting of the Ridgetown Curling Club, held yesterday morning, a very successful one. The club has only been in existence one year, and now shows a membership of nearly 50. The following officers were elected: Patron, R. Ferguson, M. P. P.; patroness, Mrs. J. Stalker; president, H. N. Gillies; vice-president, C. E. Dauphin; representative members, H. N. Gillies and R. Ferguson; chaplain, Rev. W. E. Scott; treasurer, E. E. Ward; secretary, H. A. Ferguson.

A CORDIAL WELCOME. Tendered Visiting King's Daughters and Sons.

By the London Circles in the "Y" Rooms—What the Workers Are Doing in Many Places.

WEDNESDAY AFTERNOON. After devotional exercises by Mrs. Austin, Toronto, Miss Eliza Brown, of Ottawa, returned a very interesting report of the work done by the united circles of Carleton county. Numerous charitable acts were referred to, and it was stated that the vestry of the French Presbyterian Church, Ottawa, was furnished by Father's Circle at a cost of \$50. Willing Workers' Circle paid the debt on the church organ, of \$300, and also furnished the vestry of the Eastern Methodist Church, necessitating the expenditure of \$100.

Charity Circle, King's Daughters, of Kingston, through Miss Strange, supplied a paper on the workings of the Food and Fuel Club, which was started by them about a year ago. Many other instances of charity were spoken of, the persons benefited being those calculated to escape the notice of the regular circles. Their text was: "The greatest of these is charity." One of the noteworthy acts of the circle was the purchase of an artificial limb for a poor girl, who was the sole support of a widowed mother. The circle is undenominational, and now has 41 members.

The paper was followed by some discussion and a hymn was sung. A question drawer was afterwards opened. The questions related mainly to the workings of the circles, but a few instances of charity were prohibited.

"Lead the young people to Jesus, and then the question will soon be settled," said an earnest delegate. Mrs. Graham, Toronto, it is good to dance, but I will tell you that it is good—an hour before breakfast, and then only in the arms of a brother or a husband. (Laughter and applause.) Miss Kelly thought the question which all dancers should ask themselves was, "What would Jesus have you to do?"

Mrs. Jarman, Toronto, told a story about a certain young man who was asked to attend a dance. He refused to do so unless the lady interested would allow him to open the dance with a prayer. Half in fun she agreed, and when the sets were formed and the instruments tuned the assembled dancers were somewhat startled to see the young fellow raise his hand and hear him say, "Let us pray."

"And what a prayer!" remarked Mrs. Jarman.

THURSDAY MORNING. The business of the convention this morning was very light. Mrs. Murphy, of Ingersoll, presented a paper on "Women's Work for Women," in which she dealt more particularly with two heads—"Women's Work for Fallen Women" and "Women's Work for the Women of the East." The paper was most admirably written, and a general demand was made by the delegates that it should be printed and distributed.

Mrs. Crawford, the first Provincial secretary, gave a short address on the destitution among certain classes in Manitoba, and the great need of the King's Daughters taking an interest and helping to provide for the needy brothers and sisters.

Nominations for the officers of the union were then received. For provincial secretary Mrs. Austin, Toronto; Mrs. Hoyt, Ingersoll, and Miss Brown, Ottawa, were named. Miss Annie Brown, of Toronto, ex-provincial secretary, was unanimously chosen recording secretary. The result of the contest between Mrs. Austin, Mrs. Hoyt and Miss Brown, will be announced this afternoon.

In future the voting representation in Ontario conventions shall be proportioned according to the paid membership.

Don't Worry About the Cold But make a point of being ready for it by having your wraps or suits made up with the interlining which keeps out every breath of raw wind and damp air, and yet is light, and lends a graceful, lasting stiffness. No paper imitation will give these results; so find the name

FIBRE CHAMOIS on every yard. Patented July 1890, March 1895.

Have that old photo you have copied and enlarged. Mr. C. D. Anderson will make you one for \$3, framed and all. Call and see.

ODOROMA removes discoloration from the teeth.
