GOOD REASON FOR IT. The Success and Popularity of the New Catarrh Cure.

The remarkable success and popularity of the new catarrh cure, Stuart's Clatarrh Tablets, is largely because it not only cures catarih, but catarrh sufferers who use these tablets know what they are taking into their system; no secret is made of what they contain. They are composed of hydrastin, blood root, guaiacol and red gum, are pleasant to the taste and being dissolved in the mouth they take immediate effect upon the mucous sining of the throat, nasal passages and the whole respiratory

The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases are little short of remarkable, and the advantage of knowing just what you are taking into your system is of paramount importance when it is remembered that the cocaine or morphine habit has been frequently contracted as the result of using secret catarrh remedies, as so many of them are well known to contain these injurious drugs Stuart's Catarrh Tablets with the approval and cordial support of physicians their antiseptic character them perfectly safe fo because

for the general public to use and their composition makes them a common sense cure for all forms of catarrhal trouble. With nearly all advertised catarrh cures it is a matter of guess work as to what you are taking into the stomach, as the proprietors, while making all sorts of claims as to what their medicines will do, are very careful to keep it a close secret as to what they really contain.

This is one reason why Stuart's Catarrh Tablets have been so widely recommended, because they are not only pleasant and convenient to take, but the patient also knows he is not putting into his stomach anything of an

njurious character.
These tablets are sold by druggists everywhere in the United States and Canada at 50 cents for complete treatment and probably there is no better remedy ever devised for the permanent cure of catarrh whether located in the head, throat, bronchial tubes or in the

Riches Are Won At the Cost Of Health.

In the struggle for wealth and position, amid nerve-straining competition, business and professional men forget to care for their health antil, weary and word with over-exertion, the brain lags, the mind wan-

ders, headaches and body pains tell of exhaustion and approaching collapse of the system.

But what is to be done? Stimulants have been used to

whip on the tired, weak heart and to enliven the brain. Narcotics have been tried to soothe the nerves. Strong drugs have been freely taken to produce sleep. In spite of these temporary aids the system has grown weaker and ever weaker. Locomotor ataxia, paralysis, prostration, or it may be insanity, are threat-

By forming new, red corpuscles in the blood, creating new nerve force and strengthening the action of the heart, Dr. Chase's Nerve Food carries new vigor and vitality to every part of the body. FEDERATION OF LABOR

I believe Gompers Re-Elected President-Scranton the Next Meeting Place.

The twentieth annual convention of the American Federation of Labor, held at Louisville, adjourned sine die on Friday night, after selecting Scran-Gompers. New York, elected; secretary, Frank Morrison, Washington, printer, re-elected; treas-urer, John B. Lennon, Bloomington, Ill., tailor, re-elected; first vice-president, James Duncan, Boston, granite cutter; second vice-president, John Mitchell, Indianapolis, miner; third vice-president, James O'Connell, Washington, machinist; fourth vice-president, Max Morris, Denver, retail clerk; fifth vice-president, Thomas P. Kidd, Chicago, woodworker; sixth vice-pre-sident, Dennis A. Hayes, Philadelphia, glass bottle blower.

For fraternal delegates to the British Trades Council the convention elected. Daniel J. Keefe, of Chicago, and Joseph Valentine, of San Francisco. John R. O'Brien, of Boston, was chosen fraternal delegate to Canada.

Detroit printers and brewery workers are elated at the action of the American Federation of Labor in re-jecting a resolution calling for trade autonomy. The brewers have demanded that all painters, carpenters, en-gineers and other trades working in a ery shall belong to the Brewery Workers' Union, and the printers have held that the machinists employed in printing offices where there are type-setting machines shall owe allegiance to the typesetters' organization. the other hand, the machinists insist that a machinist's proper place in labor's ranks is in the organization of his craft, and nowhere else.

The action of the federation calls for the policy of non-interference, but the resolution passed contains a slap at the printers for their refusal to submit the difference to arbitration.
The Port Huron Machinists' Union held an important meeting on Saturday evening to act on the strained re-lations between itself and the Grand Trunk management over the dismissal of the five machinists from Pont Huron who refused to take the strikers' places at Nicholas. It is understood that the trouble is practically adjust-ed, and that the probability of a strike there has been averted. It to said that an agreement has been reached whereby the dismissed men will be taken back within a few days.

A. N. Wideman's Case Attracting Great Attention to Dodd's Kidney Pills.

Duntroon, Dec. 17.-Mr. A. N. Wideman's case has been attracting a great deal of attention lately. Mr. Wideman is a resident of this place, and consequently well known here. His case was truly remarkable. For five months he lay in bed, bent, twisted, distorted by rheumatism. He was actually in agony, sometimes screaming with pain. Bed sores came out on his body, one of which was poulticed five hundred times before it healed. Until Mr. Wideman started to take Dodd's Kidney Pills it was thought that death was the only way out of his misery. Mr. Wideman was treated by doctors

to no avail. They gave him medicine containing mercury, which made his teeth break off, but which absolutely failed to cure Mr. Wideman was cured by Dodd's Kidney Pills. His case is regarded as the most severe on record. and his cure by Dodd's Kidney Pills is the most successful cure of rheu-matism known. Mr. Wideman gets letters from all over the country inquiring about Dodd's Kidney Pills.

THERE IS DANGER IN NEG-LECTING A COLD. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.
